# **EXECUTIVE SUMMARY**

### **Traffic Safety Program**

The Texas Traffic Safety Program at the Texas Department of Transportation (TxDOT) continued its mission of saving lives and preventing injuries through an extensive grants program. In 2023, there were 408 traffic safety projects in the program.

The \$188,133,955.13 expended in FY 2023 came from federal, state, and local sources as follows:

- \$47,448,039.79 in federal funds
- \$128,375,790.08 in local funds
- \$12,285,625,26 in state funds
- \$24,500.00 in program income

#### **Federal Funding**

Under the Bipartisan Infrastructure Law (BIL) Act, TxDOT applied for and received \$31,645,426.50 in Sections 402 funds. In addition, \$22,675,035.85 in Section 405 federal funding was received beyond the base 402 program.

# **Funded Projects that Contribute to meeting State Performance Targets**

Projects selected for funding by the Texas Traffic Safety Program demonstrate potential to contribute to meeting Texas' highway safety performance targets. In each program area, information has been provided for each individual project, including targets, and whether those targets were met. Individual project performance results are provided in Section 3 – Program Area Reports and Appendix A – Project Cross References. Within those sections, each objective and target are listed, and whether individual objectives were met by each project.

A summary of the abovementioned accomplishments is provided in the following table:

				Assessment of Results in Achieving Performance Targets for FY23 and FY22  FY 2023 FY 2022						FY22

<sup>\*</sup> CRIS - Crash Records Information System

#### **Crash Data**

The 2003-2022 Texas Motor Vehicle Crash Statistics are posted at: https://www.txdot.gov/data-maps/crash-reports-records/motor-vehicle-crash-statistics.html

#### **Accomplishing Targets**

#### **Education and Training**

TxDOT funded a broad spectrum of education and training courses during 2023 including training for professionals to improve job performance.

#### **Evidence-Based Enforcement Activities**

Traffic safety enforcement covered the state in the effort to reduce crashes caused by speeding, alcohol, and other drugs, running red lights and stop signs, distracted driving, and failure to use safety belts or child passenger safety seats.

TRF-BTS deploys resources based on analysis of crashes, crash fatalities, and injuries in areas of highest risk. Additionally, all enforcement agencies receiving grant funding must use a data-driven approach to identify the enforcement issues in their jurisdictions. To ensure enforcement resources were deployed effectively, law enforcement agencies were directed to implement evidence-based strategies. TxDOT used the NHTSA publication *Countermeasures that Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices* as a guide for developing evidence-based enforcement strategies.

Texas selected projects through our evidence-based traffic safety enforcement program. The selected projects increased enforcement and public information and education activities across multiple program areas. The evidence-based program activities and results are described in Section Three in the corresponding program area.

# **Campaigns**

#### Click It or Ticket Campaign

Each year, the *Click It or Ticket* paid media campaign and public education outreach efforts are scheduled to coincide with the National Highway Traffic Safety Administration's (NHTSA) nationwide *Click It or Ticket* initiative. The Texas campaign focuses on increasing seat belt usage rates and increasing public knowledge of the associated laws.

The campaign period includes a high visibility enforcement mobilization. TxDOT partners with law enforcement officials throughout Texas to increase seat belt use, and during the mobilization period, officers ramp up their efforts to ticket drivers and passengers who are not wearing their seat belt. Texas state law requires everyone in a vehicle to buckle up day or night, front seat or back, or face fines and court costs up to \$200. Texas has had a seat belt law since 1985; however, in 2002, when TxDOT began participating in NHTSA's national *Click It or Ticket* campaign, only three of every four drivers (76%) were buckling up. Texas has made significant progress over the years and currently has over 90% usage rate.

The *Click It or Ticket* annual campaign is historically focused on the Memorial Day holiday weekend, with a flight period that starts the first week in May and extends through early June. However,

because Motorcycle Safety Awareness Month also takes place in May, the *Click It or Ticket* campaign launch was moved back to May 16 to minimize overlap.

Beginning May 16, TxDOT placed \$956,093.27 in paid media for the Click It or Ticket campaign, with some media partnerships continuing until the end of the fiscal year. Paid media consisted of streaming TV services; sports marketing; broadcast and digital radio; digital video and banner ads; YouTube and pre-roll video; Twitter, Facebook, and Instagram paid posts; influencer posts; billboards; and gas station ads. Added value achieved through negotiations with media vendors exceeded TxDOT's investment. The total added value generated by paid media was \$1,017,913.

To mark the 21<sup>st</sup> Click It or Ticket campaign, a combination of press and outreach events featuring a pickup truck dangling from seat belt material were held in 12 cities from May 15–31. Cities were selected based on a combination of unbelted fatalities as well as media market size and included Austin, San Antonio, Laredo, McAllen, Corpus Christi, Beaumont, Houston, Tyler, Waco, Dallas, Midland, and El Paso. At each stop, the display was set up against local, iconic backdrops. News media outlets and law enforcement were invited to attend.

The media events and news releases generated 694 TV and radio news segments valued at \$1,372,482, 54 print articles valued at \$96,798, and 192 online news stories valued at \$23,902,803. Combined, the earned media produced more than 527 million impressions. The total publicity value of news media coverage of the campaign was \$25,372,083.

The statewide *Click It or Ticket* campaign delivered \$26,389,996 in total added value on the \$1,600,000 investment.

Results from a Texas A&M Transportation Institute survey conducted in June 2023 indicate that 90.57% of Texans buckled up in 2022. This represents an increase from the previous year and surpassed the 90% or better threshold that Texas seeks to maintain. According to the NHTSA, *Click It or Ticket* campaigns in Texas are credited with saving 7,399 lives, preventing more than 129,000 serious injuries, and achieving more than \$28.5 billion in economic savings.

# Youth Occupant Protection Campaign

#### Teen Click It or Ticket

TxDOT conducts an annual public awareness campaign targeting new teen drivers and passengers ages 15-20. The goal of the campaign is to increase awareness of the dangers and consequences that result from teenagers not wearing their seat belt. The campaign's public outreach includes TV, radio, digital advertising, social media advertising and an aggressive public relations campaign that includes grassroots interactive events and community outreach to key target audiences.

According to the National Highway Traffic Safety Administration (NHTSA), seat belt use is the lowest among teen drivers compared to all other age groups. In Texas, 318 teen drivers and passengers (ages 15-20) were killed in vehicle crashes in 2021. The Teen Click It or Ticket campaign aims to increase seatbelt usage among teenagers through strategic messaging and media placement influencing the target audience while also keeping in mind the secondary audience of teen influencers such as parents, teachers, and older siblings.

#### Child Passenger Safety

The National Highway Traffic Safety Administration (NHTSA) reports the staggering statistic that around 46% of all car seats are misused. In 2022, vehicle crashes on Texas roadways resulted in 72 fatalities for children younger than 8 years old and 395 serious injuries. Ensuring car seats are installed correctly is one of the most important things a parent or caregiver can do to protect a child occupant in a crash.

The Child Passenger Safety campaign is an annual TxDOT initiative that coincides with National Passenger Safety Week educating parents and caregivers about proper safety seat installation and usage. The campaign invites parents to schedule a free car seat safety check by visiting SaveMeWithASeat.org and entering their zip code to find the nearest TxDOT traffic safety specialist in their area. Public outreach includes TV, radio, digital advertising, social media advertising and a statewide public relations campaign that includes grassroots interactive events and community outreach to key target audiences.

#### Be Safe. Drive Smart. Campaign

One reportable crash occurred every minute on Texas streets and highways in 2022. Crash reports tell us that motorists were driving too fast, not paying attention, driving while impaired, failing to yield the right of way, and generally disregarding the rules of the road, including in areas of the state with challenging driving conditions due to work zones and oil and gas production-related traffic.

Although we saw a small decrease in the number of traffic fatalities from 2021 to 2022, an average of 12 people were killed on our state's roadways each day. Texas hasn't seen a day without a crash fatality since November 7, 2000. Achieving TxDOT's goal of zero deaths on our roadways will take convincing Texans that the number of traffic crashes, fatalities, and injuries occurring in our state is unacceptable and it's their responsibility to do their part to help prevent these deaths and serious injuries.

An important part of this effort is TxDOT's annual *Be Safe. Drive Smart*. campaign, which focuses on educating motorists about what it means to drive smart and motivating them to be safe drivers to reduce the odds of their causing or becoming one of Texas's roadway casualties.

The year-round campaign delivers practical safety tips to target audiences driving in these primary areas:

- Oil and gas regions in West Texas, South Texas, and other energy shales across the state.
- Road maintenance and construction work zones along I-35 and other major corridors.
- Crash-prone situations for motorists such as school zones, rainy or icy roadways, congested highways, and nighttime driving.

The FY 2023 campaign heavily relied on targeted paid media, statewide PSA placements, and public relations for the broadest and most repetitive exposure to campaign messages. Digital strategies, outreach, and interactive events also delivered safety reminders to key audiences. Overall, the campaign generated a total added value and earned media match of \$8,581,888.

#### Statewide Impaired Driving Campaign

The *Drive Sober. No Regrets.* campaign aims to save lives and reduce crashes among Texans. It emphasizes the fact that drunk driving can have serious physical, emotional, and financial consequences that can last for years. A DWI can cost thousands and cause legal hassles, difficulty finding or keeping a job, shame and embarrassment, loss of trust from loved ones, and a lifetime of regret. The human toll of a DUI crash can devastate the lives of victims and survivors forever.

The *Drive Sober. No Regrets.* campaign shares personal accounts from real offenders and survivors that challenge any notion the audience may have that they can avoid the consequences of drinking and driving. It reinforces the importance of always finding a sober ride and the many options available.

The campaign creative changes throughout the year to match key timeframes when impaired driving messages are most critical. Four flights a year highlight heightened law enforcement periods.

- Flights include:
  - 1. Football Season (October, November, January)
  - 2. Christmas/New Year Holiday (enforcement period) (December)
  - 3. College and Young Adult/Spring Break (enforcement period) (March)
  - 4. Spring Holidays (May)
  - 5. Faces of Drunk Driving/July 4th (enforcement period) (June, July)
  - 6. Labor Day (enforcement period) (August, September)

Through a combination of targeted paid media, strategic media relations, interactive special events, digital and social media strategies, proven outreach activities, and statewide partnerships, the campaign addresses the complex challenges of reducing impaired driving by meeting the target audience where they are most likely to consume and retain campaign messaging.

In FY 2023, earned media resulted in \$11,749,824.20 in added value and 203,691,091 impressions. Paid media match resulted in \$7,792,921.00 in added value and 436,358,817 impressions. In total, the Statewide Impaired Driving Campaign delivered \$19,542,745.20 in added value with its \$3,739,376.61 investment.

#### Pedestrian and Bicyclist State Laws Campaign

In 2021, 935 people died in pedestrian- and bicyclist-related traffic crashes in Texas, accounting for one out of every five of all fatalities on state roadways. Across the country and in Texas, roads have become less safe for people on foot or on a bike. In the five-year period from 2017 to 2021, pedestrian fatalities resulting from traffic crashes rose 34% and bicyclist fatalities increased 58%.

With NHTSA 405(h) funding, TxDOT has conducted an annual, statewide public awareness campaign to address an important cause of the increases in crashes and fatalities: people's widespread failure to follow state laws designed to protect people walking or biking. The top contributing factors in pedestrian-involved crashes in Texas in 2021 were a) pedestrian failure to yield right of way, b) driver failure to yield right of way to a pedestrian, c) driver inattention, and d) speed. Alcohol impairment was reported in one of every four fatal pedestrian crashes. Driver inattention and failure to yield right of way were also top factors in crashes involving bicyclists.

Using paid media, public relations, and outreach, TxDOT's campaign reminds Texans of their responsibility to protect themselves and others by following the rules of the road for safe driving, walking, and biking. Ultimately, the goal is to reduce the number of pedestrian and bicyclist traffic fatalities and injuries.

FY 2023 campaign activities were concentrated in March and included the following:

- Bilingual paid media including four weeks of television, radio, outdoor, and transit advertising
  in the state's largest markets where most of the crashes and fatalities occur. The campaign
  also included statewide gas pump and digital media placements.
- Development and distribution of a statewide news release and two weeks of pitching to news outlets across the state to maximize earned media coverage.
- Distribution of public education materials to traffic safety specialists in TxDOT's district offices.
- Production of creative and earned media materials in Spanish to support the campaign's efforts to reach the 20% of Hispanics in Texas who are Spanish-language-dominant and those who consume Spanish-language news.
- Street team activations in six markets, each featuring four people outfitted as walking billboards promoting traffic safety laws in busy locations where motorists, pedestrians, and cyclists encounter each other.

#### Pedestrian Safety Campaign

Pedestrian fatalities in Texas rose 34% from 2017 through 2021 and now account for nearly one in five of all deaths on the state's roadways. Because they lack the protective equipment common to vehicles such as airbags, seat belts, and bumpers, pedestrians are especially vulnerable in a crash. In 2021 alone, more than 5,300 traffic crashes in Texas involved pedestrians, and they resulted in 843 fatalities and 1,467 serious injuries.

Crash reports indicate that the most common factors in traffic incidents involving pedestrians in Texas are 1) pedestrians failing to yield the right of way and putting themselves in the path of oncoming vehicles, 2) drivers failing to yield the right of way to pedestrians, 3) driver inattention, and 4) motorists driving too fast. In addition, alcohol impairment was reported in 27% of fatal pedestrian crashes in 2021.

TxDOT's pedestrian safety campaign aims to reduce the alarming trend in pedestrian fatalities by calling on drivers and pedestrians to look out for each other and follow all traffic laws, signs, and signals.

The Be Safe. Drive Smart. / Be Safe. Walk Smart. FY 2023 campaign combined paid traditional and digital media with public relations and outreach components to deliver safety messages to target audiences throughout the state. Campaign activities, which were concentrated during National Pedestrian Safety Month in October 2022, included the following:

- A seven-week, bilingual paid media flight in all Texas media markets with television, radio, outdoor, digital, transit, theater, and gas station TV advertising (GSTV).
- News releases in English and Spanish, and media pitching to news outlets around the state to maximize earned media coverage.
- Distribution of public education materials to TxDOT district offices and campaign partners.

- Multiple street team "walking billboard" activations in 10 cities, delivering safety messages in high traffic areas where drivers and people on foot would see them.
- An additional flight of paid digital advertising in August 2023, coinciding with TxDOT's backto-school safety initiative.

Pedestrian safety is dependent on the unspoken partnership that exists between a driver and a pedestrian. Each has the responsibility to safely share the road with the other. That means we need Texans—whether driving or walking—to follow the rules of the road, pay attention, and watch out for each other. By educating the public about the importance of traffic behaviors that keep pedestrians safe, TxDOT intends to reduce the number of pedestrian-involved traffic crashes, fatalities, and injuries.

#### Speeding Awareness Campaign

Motorists driving over the speed limit or too fast for road conditions was a main contributor to sharp increases in roadway deaths in Texas during the Covid pandemic. And with too many drivers continuing to drive too fast and aggressively, speed remains the number one factor in traffic crashes in our state. In 2022, one in three people killed on the road in Texas was in a crash that involved speed. There were 162,227 speed-related crashes that year, resulting in 1,469 deaths and 6,312 serious injuries.

We know from observational studies and self-reporting by Texas drivers that speeding is common. According to TxDOT's 2022 Traffic Safety Awareness Survey, about half of Texans admit to driving over the speed limit at least sometimes. In addition, 15.5% said they drive faster than the speed limit on highways "most of the time." This is even though 75% said their chances of getting a ticket if they speed are somewhat or very likely.

Speeding puts not only motor vehicle occupants at risk, but also vulnerable road users such as pedestrians, bicyclists, and roadside workers. In 2022, TxDOT launched a new statewide campaign focused on persuading drivers to slow down. If motorists can be convinced to always drive a safe speed, fewer people will be killed or seriously injured in crashes that could have been prevented in the first place.

TxDOT's multimedia speeding campaign continued in FY 2023 and included robust levels of paid media, public relations, and outreach aimed at reminding drivers that:

- When you speed, you increase the risk of killing or injuring yourself or others in a crash.
- Speeding can cost you an expensive fine, court fees, and higher insurance premiums.
- Driving a safe speed can mean more than following the posted limit. You should match your speed to road, traffic, and weather conditions.

To reinforce that driving too fast can be dangerous *and* expensive, TxDOT also partnered with law enforcement agencies across the state in July to help them step up their efforts to enforce speed limits during Operation Slowdown.

Key campaign components in FY 2023 included the following:

• Statewide paid media placements, including television, radio, outdoor, theater, gas station advertising (GSTV), and digital media.

- A kickoff press conference with law enforcement partners, news releases in English and Spanish, and a statewide media tour to generate hundreds of broadcast, online, and print news stories.
- Sports marketing partnerships with racetracks and minor league baseball teams, including in-venue signage, digital ads, and event activations for one-on-one engagement with sports fans.
- Distribution of public education materials to TxDOT district offices and campaign partners.
- Since speeding is the leading factor in traffic crashes in our state, it calls for steady
  reminders to motorists to slow down or risk paying the consequences. More than 75% of the
  campaign's budget was devoted to paid media placements that reached Texas motorists
  when they were watching TV, behind the wheel, online or on their cell phone, putting gas in
  their vehicle, or at a movie theater or sporting event.
- Although speeding is a problem among all demographic groups, the campaign put a special focus on young drivers. In 2022, more than half of drivers in Texas who were involved in crashes where speed was a contributing factor were under age 35. We communicated with this group through demographically and behaviorally targeted sports marketing, digital TV (OTT/CTV) placements, and video ads on YouTube and dating apps.
- The campaign also partnered with two social media influencers—race car driver Jesse Iwuji (@jesse\_iwuji) and stunt driver/mechanic Lauryn Pritchard (@lldrifts)—who posted videos of themselves on Instagram and Facebook, calling on their fans to watch their speed. Combined, their posts garnered a total of 477,444 organic and boosted views.
- With a very passionate and loyal fan base, motorsports are one of the largest of spectator sports. Our media plan included ongoing partnerships with auto racing venues across Texas, a natural spot to remind drivers that speeding is only for racetracks, not streets and highways. The program included Texas Motor Speedway (the largest sporting facility in Texas), Circuit of The Americas, Houston Raceway Park, Texas Motorplex, and Heart O' Texas Speedway—all located near big cities and drawing visitors from across their regions and the state.
- Seven minor league baseball teams across Texas—from the Sugar Land Space Cowboys to the El Paso Chihuahuas—also displayed campaign signage and videos in their ballparks throughout the 2023 season.

#### Distracted Driving Talk. Text. Crash. Campaign

Like many other states, Texas has seen far too many crashes caused by distracted drivers. In 2022, there were 95,777 crashes blamed on driver distractions, an increase of 2% over 2021, according to Texas Department of Transportation crash data reports. These crashes resulted in 487 deaths and 2,824 serious injuries. While serious injuries declined by almost 4% from 2021, fatalities increased by almost 12%. TxDOT conducts an annual *Talk*. *Text*. *Crash*. public education campaign to remind motorists how dangerous it is to engage in distracting activities while driving such as talking on their phone, texting, checking social media, eating, applying makeup or shaving, programming their GPS, or doing something else that takes their mind or eyes off the road.

To accomplish this, the campaign used a combination of traditional paid media placements, public service announcements, grassroots outreach and partnerships, media relations, influencers, and digital and social media to reach a statewide audience. Although the campaign's message is relevant

to all drivers, a special focus was reaching new and younger drivers ages 16 to 34, who account for a large share of distracted driving crashes.

The *Talk. Text. Crash.* paid media campaign included statewide media placements, with the heaviest focus in the six largest markets, where, according to TxDOT crash data, the large majority of the state's distracted driving- related crashes occurred. TxDOT placed \$702,205 in paid media throughout the fiscal year. Donated media or media match totaled \$230,349 in FY 2023 from billboard and gas station overrides.

To maximize limited funds and to extend the reach of the campaign, television and radio PSAs were distributed to stations statewide to air messages for free. The PSAs were digitally tracked using Nielsen encoding systems that report which stations aired the messages, the audience reached, and the value of the donated airtime. The successful TV and radio PSA program produced more than 167.7 million impressions and more than \$7.6 million in donated airtime.

Earned media activities for FY 2023 began with the distribution of a statewide news release to recognize Distracted Driving Awareness Month in April. On June 3, TxDOT held its first outreach event, followed by five more held throughout the month. The events featured a driving simulator to give participants a real-life sense of how distractions affect driving. Campaign brand ambassadors also distributed educational materials to remind everyone to give driving their full attention.

Earned media activities in FY 2023 generated 208 broadcast news segments valued at \$938,393. They also generated 99 online news stories valued at \$9,324,846 and 148 print articles valued at \$71,459. The total impressions delivered exceeded 206 million and a news coverage publicity value of \$10.334,698.

Altogether, the statewide *Talk*. *Text*. *Crash*. campaign delivered \$18,236,775 in total added value on the \$1,200,000 investment.

#### Motorcycle Safety Awareness Campaign

In FY 2023, the *Look Twice for Motorcycles* campaign continued its mission to reduce crashes, injuries, and fatalities involving motorcyclists on Texas roads.

In 2022, there were 8,441 motorcycle traffic crashes in Texas, which killed 562 motorcyclists and seriously injured another 2,422 (Texas Peace Officer's Crash Report – March 10, 2023). This represents an 8% increase in fatalities over 2021. For the purposes of this report, we will refer to all classes of motorcycles and scooters as "motorcycles."

This increase in fatalities underscores the importance of reminding motorists to pay special attention for motorcycles when driving. According to the National Highway Traffic Safety Administration (NHTSA), motorcyclist fatalities occurred nearly 24 times more frequently than passenger car occupant fatalities in motor vehicle crashes (Traffic Safety Facts, June 2023, NHTSA 2021 data).

Intersections continue to be deadly for motorcyclists. In 2022, 33% of motorcycle fatalities occurred in an intersection or were intersection-related (Texas Peace Officer's Crash Report – March 10, 2023). In *Analysis of Motorcycle Crashes in Texas, 2010–2017*, the Texas A&M Transportation Institute (TTI) concluded that the crash type in which one vehicle turning left and one vehicle traveling straight in the opposite (oncoming) direction accounted for 39% of fatal or suspected serious injury crashes at intersections. The study also found that in multi-vehicle crashes where a

vehicle and motorcycle collide, 47% to 51% involved an issue with the driver not seeing the motorcycle.

For these reasons, TxDOT has made motorcycle safety a priority by continuing its public education campaign aimed at motorists. TxDOT's *Share the Road: Look Twice for Motorcycles* campaign urges drivers to watch carefully for motorcycles. Launched in 2010, this campaign seeks to remind motorists that they must take extra precautions to "see" motorcycles on the road.

The campaign urges drivers to:

- Look twice for motorcycles, especially at intersections.
- Always assume motorcycles are closer than they appear to be and avoid turning in front of an oncoming motorcycle.
- Use turn signals and check blind spots before changing lanes.
- Don't follow a motorcycle too closely and give motorcyclists a full lane when passing.
- Obey posted speed limits.

Since FY 2016, TxDOT has cultivated a strong, recognizable brand built on the tagline "There's a life riding on it." The campaign uses a bold yellow/gold color that's quickly identifiable. In the past, the campaign has incorporated virtual reality (VR) elements into outreach events to engage audiences. These VR experiences were updated for the 2023 campaign season to run on the latest PICO VR operating system. A TV spot developed in 2012 continues to be popular, emphasizing the importance of taking special care to look twice for motorcycles since they're hard to see. In addition, a new TV spot was developed in 2021 to emphasize how dangerous intersections can be. Campaign components also included radio public service announcements (PSAs), billboards, online advertising, social media, and earned media activities.

The FY 2023 bilingual, multimedia campaign:

- Continued to use clear messaging and strong creative to reach and resonate with key target audiences.
- Included a statewide awareness and education effort focusing on key target audiences concentrated in May to capitalize on Motorcycle Safety Awareness Month.
- Used a combination of paid media and PSAs to maximize exposure of campaign messages.
- Conducted an aggressive public relations effort that included pre-recorded sound bite interviews and pitches to news media statewide to maximize earned media coverage.
- Conducted five outreach events across the state to generate additional awareness of campaign messages.
- Built upon existing TxDOT relationships with public and private partners to maximize reach and distribution of collateral materials and campaign messaging.
- Exceeded the minimum requirement of \$650,000 in added value by more than \$6 million.

To maximize limited funds and extend the reach of the campaign, television and radio PSAs were tracked for the entire fiscal year but redistributed to stations statewide to increase participation as part of Motorcycle Safety Awareness Month in May. The PSAs were digitally tracked using Nielsen encoding systems that report which stations aired the messages, the audience reached, and the value of the donated airtime.

# The TV PSAs aired in the following Texas markets:

Abilene-Sweetwater	Corpus Christi	Houston	San Antonio
Amarillo	Dallas-Ft. Worth	<ul><li>Laredo</li></ul>	Tyler-Longview (Lufkin & Nacogdoches)
■ Austin	El Paso (Las Cruces)	- Lubbock	Waco-Temple-Bryan
Beaumont	<ul> <li>Harlingen-Weslaco- Brownsville-McAllen</li> </ul>	Odessa-Midland	Wichita Falls

#### Summary of Campaigns

TxDOT's traffic safety campaigns spanned the calendar. TxDOT conducted a series of successful traffic safety campaigns for Fiscal Year 2023 including:

- Click It or Ticket
- Youth Occupant Protection
- ◆ Teen Click It or Ticker
- ♦ Child Passenger Safety
- ➤ Be Safe Drive Smart. A Multi-Focus Campaign which includes:
  - General Topics
- ♦ School Zone Safety
- ♦ Turn Around, Don't Drown
- ♦ Safety Around Trucks
- ♦ Move Over/Slow Down Law

- Energy Sector Safety
- Work Zone Safety/I-35 Corridor
- Pedestrian and Bicycle State Laws
- Pedestrian and Bicycle Safety
- Speeding Awareness
- End The Streak
- ➤ Drive Sober. No Regrets. A Statewide Impaired Driving Prevention Campaign that included the following targeted flights:
  - ♦ Football
- ♦ Holiday

♦ College/Spring Break

- Spring & EarlySummer Holidays
- ◆ Faces of Drunk Driving
- ◆ Labor Day
- Talk.Text.Crash. A Distracted Driving Campaign
- > Share the Road / Look Twice / There's a Life Riding on It. A motorcycle awareness campaign.

Detailed information regarding the campaigns conducted by TxDOT may be found in Section Four (Paid Media Reports) of this report.

#### **Continued Enhancements to eGrants**

TxDOT's Traffic Safety Electronic Grants Management system, or TRF eGrants, is a web-based solution for the application, scoring, award, and ongoing management of federally funded Texas Traffic Safety Program grants.

With eGrants one can electronically:

- Create and submit grant proposals
- Manage grant projects
- Submit requests for reimbursement
- Monitor grant/project progress
- Message system users

- Award grants
- Submit performance reports
- Upload attachments
- Create reports
- Grade the project

TxDOT continuously makes improvements to the eGrants system, such as:

- Added Risk Assessment Module to grants
- Continued making improvements to system features used by staff for the review and approval
  of project documentation and monthly reports
- Provided eGrants training and assistance to users on navigating processes and using forms, tools, and system features
- Continued coordinating efforts and making improvements to the payments process between eGrants and TxDOT's Peoplesoft financial system

TxDOT continues to make improvements to its security systems in order to safeguard its information and system's integrity.

### **Traffic Safety Program Training - FY2023**

Using standard methodologies, field staff mentoring, and capturing best practices, TxDOT's Behavioral Traffic Safety Section will continue to perform at higher level than ever before and produce maximum results. The Behavioral Traffic Safety Group will continue to support the demands of the program across the state of Texas. All 25 TxDOT district offices have at least one full time Traffic Safety Specialist and the group includes a few new staff members.

TxDOT offered the following FY 2023 virtual live online trainings:

01/18/2023 - 01/19/2023	Impaired Driving Leadership Summit	Houston - Cancelled
01/31/2023 - 02/01/2023	Foundations of Highway Safety	Virtual Live
02/07/2023 - 02/08/2023	NHTSA Highway Safety Grants Management	Virtual Live
02/22/2023 - 02/23/2023	Basics of Data Driven Highway Safety Planning	Virtual Live
02/28/2023 - 02/28/2023	Introduction to Pedestrian & Bicycle Safety Program Management	Virtual Live
03/11/2023 - 03/12/2023	Speed Program Management	Austin -Cancelled
04/25/2023 - 04/26/2023	Introduction to Occupant Protection Program Management	Virtual Live
05/02/2023 - 05/04/2023	Impaired Driving Program Management	Austin - Cancelled
06/13/2023 - 06/16/2023	NHTSA Highway Safety Grants Management	Austin – In-Person
09/26/2023 - 09/27/2023	Communications Skills for the Highway Safety Professional	Austin - In Person

#### **Future Improvements**

#### **Traffic Safety Program Training**

TxDOT will be offering the following FY 2024 online training opportunities to our TxDOT BTS staff through NHTSA/TSI portals:

01/2024	Introduction to Pedestrian & Bicycle Safety Program Management.	Online
02/2024	Intro to Occupant Protection Management	Online
03/2024	Basics of Data Driven Safety Planning	Online
03/2024	Distracted Driving	Online
04/2024	Effective Speaking and Presenting	Austin - In Person
05/2024	Foundations of Highway Safety	Online
06/2024	Foundations of Highway Safety	Online
07/2024	NHTSA - Highway Safety Grants Management	Austin - In Person
09/2024	Communications Skills for the Highway Safety Professional	Austin - In Person

# Standardized Field Sobriety Testing (SFST) and Drug Recognition Expert (DRE) Assessment

In FY 2022, an Impaired Driving Assessment was conducted. Due to limited time and resources, the decision was made to not conduct an SFST/DRE Assessment simultaneously. An SFST/DRE assessment was planned for FY 2023, however, due to the Impaired Driving Assessment extensively covering several portions of the SFST/DRE program and the short tenure of the current state DRE coordinator, TxDOT decided to postpone until FY 2024 when a more complete picture of the program can be evaluated.

# **Planning**

The strategic planning process for the Traffic Safety Program involves the development of long- and short-term strategies. It provides the general mission of the Traffic Safety Program and is created through a process that includes input from TRF-BTS Project and Program Area Managers as well as other program partners. The process also includes the review of past and current data and trends; review of past performance; meetings with and input from traffic safety partners; review of crash data analysis compiled by TxDOT and others; and validation of draft strategies and targets.

Partner/stakeholder input is gathered through various means including regular Traffic Records Coordinating Committee (TRCC) meetings; data analysis from traffic records (TxDOT and other State and local agencies); meetings of the Impaired Driving Task Force, the Pedestrian Safety Task Force, and the Motorcycle Safety Coalition; grant monitoring sessions; coalition meetings with local law enforcement and partners; meetings and information sharing with Federal partners such as NHTSA and FHWA; studies and research projects from universities and institutions of higher learning; and survey results from media campaigns and research institutes.

It is through the analysis and synthesis of these data and the stringent requirements placed on potential subgrantees and contractors that the State's traffic safety problems are identified and prioritized for inclusion in the HSP. Available information and data analysis are compiled to document data-driven problem identification, identification of emphasis program areas, and identification of other topics that need to be addressed with the overall goal of the reduction of crashes, injuries, and deaths on Texas' roadways.

In 2019, the Texas Transportation Commission set a goal of zero fatalities on Texas roadways by 2050 and reducing fatalities by about half or 1,800 fatalities by 2035. Targets were modified accordingly. TTI staff conducted an analysis to identify the extent to which Texas would have to reduce injury risk to meet these new goals. The analysis considered the following parameters and their impact on crash frequency and risk: vehicle miles travelled (VMT), proportion of VMT that is rural, highway miles, capital spending, safety spending, unemployment rate, and gasoline price.

In addition, TRF-BTS continues to work to further align the 3HSP with the SHSP by including SHSP goals in the 3HSP and mirroring the SHSP's goals in scope.

# **Performance Report**

- (1) An assessment of the State's progress in achieving performance targets identified in the most recently submitted triennial HSP, as updated in the annual grant application, based on the most currently available data, including:
  - (i) An explanation of the extent to which the State's progress in achieving those targets aligns with the triennial HSP (*i.e.*, the State has (not) met or is (not) on track to meet target); and
  - (ii) A description of how the activities conducted under the prior year annual grant application contributed to meeting the State's highway safety performance targets.

As depicted in the Assessment of Results in Achieving Performance Targets table above we unfortunately did not meet many of the performance measures established. In May of 2019, the Texas Transportation Commission directed TxDOT to work toward the goal of reducing the number of deaths on Texas roadways by half by the year 2035 and zero by the year 2050. This impacted how our targets were established and our ability to meet them based on performance and not on aspirational goals.

(2) An explanation of how the State plans to adjust the strategy for programming funds to achieve the performance targets, if the State has not met or is not on track to meet its performance targets, or an explanation of why no adjustments are needed to achieve the performance targets.

We have included strategic plans in out subgrantee's proposals and executed grants to ensure that we are directing the resources to where our major needs are and we are starting to work with our communities to determine what we can continue to do together as we strive to achieve our goal of zero deaths on Texas roadways.

#### **Activity Report**

(1) An explanation of reasons for projects that were not implemented.

There were projects that were not implemented because, after the negotiation and modification phase of the process, the subgrantee did not submit their proposal for approval.

(2) A narrative description of the public participation and engagement efforts carried out and how those efforts informed projects implemented under countermeasure strategies during the grant year.

In FY 2023, although public participation and engagement was not required, Texas continued to partner with our communities in the efforts that were already in place:

- Refugees in Amarillo TxDOT continues to provide a one to one, onsite, and in person
  guidance with traffic safety education in areas such as: Child Passenger Safety, Driver
  Education Behavior and Occupant Protection. The need for additional car seats for their
  affected community was expressed so we increased the number of car seats allocated to
  Amarillo and will continue to provide bilingual public information and educational materials
  to refugees.
- El Paso/Laredo Court Programs we established programs with the local courts to educate offenders on various traffic safety program areas in order to dismiss citations. We are taking this program statewide in FY 2024.
- Motorcycle Riders in San Angelo the crash data showed an overrepresentation of motorcyclist fatalities along the "Three Sisters" roads in Leakey, Texas. In working with the Motorcycle Coalition we found the need to educate the public on how to "Share the Road" with Motorcyclists and discussed how to address/decrease Impaired Driving in the Motorcycle community. There were engineering solutions proposed as well as strategically placed billboards to be visually accessible to motorcyclists, encouraging them not to drink and drive. After further collaboration, it was determined that the billboards were more of a visual distraction.
- (3) A description of the State's evidence-based enforcement program activities, including discussion of community collaboration efforts and efforts to support data collection and analysis to ensure transparency, identify disparities in traffic enforcement, and inform traffic enforcement policies, procedures, and activities; and (4) Submission of information regarding mobilization participation (e.g., participating and reporting agencies, enforcement activity, citation information, paid and earned media information).

The details for evidence-based enforcement program activities as well as the mobilization participants and their activities are listed under Section Two of this report.

# **SECTION ONE -**PERFORMANCE REPORT

The Texas Traffic Safety Program is managed by the Behavioral Traffic Safety Section (TRF-BTS) within the Traffic Safety Division (TRF) of the Texas Department of Transportation (TxDOT). The following table describes the primary mission, target and strategy of the program.

Mission Statement	Target	Strategy				
To implement traffic safety education and enforcement strategies to reduce traffic fatalities in Texas by half by the year 2035, and to zero by 2050.	Identify traffic safety problem areas to reduce the number and severity of traffic-related crashes, injuries, and fatalities.	To use information, technology, resources, and skills to identify priority traffic safety issues, plan initiatives, generate coordinated action, and evaluate and communicate results.				
This directly supports the TxDOT mission: Connecting you with Texas						

#### **Program Areas**

Texas planned and implemented an extensive and diverse traffic safety program in FY 2023, with projects in the following program areas:

01 - Planning and Administration (PA)	08 - Speed Control (SC)
02 - Alcohol and Other Drug Countermeasures (AL)	09 - Traffic Records (TR)
03 - Emergency Medical Services (EM)	10 - Driver Education and Behavior (DE)
04 - Motorcycle Safety (MC)	11 - Railroad / Highway Crossing (RH)
05 - Occupant Protection (OP)	12 - Roadway Safety (RS)
06 - Pedestrian/Bicycle Safety (PS)	13 - Safe Communities (SA)
07 - Police Traffic Services (PT)	14 - School Bus Safety (SB)

# **Program Funding**

Funding is from the National Highway Traffic Safety Administration (NHTSA), a division of the U.S. Department of Transportation (USDOT). Traffic safety grants are awarded annually to state, local and non-profit agencies across Texas. Grants for FY 2023 were awarded based on the merits of the specific proposed project, relevance to the current traffic safety issues as identified by the state, and the approval of the Texas Transportation Commission and NHTSA.

On May 25th, 2023, the Texas Transportation Commission approved funding for the *FY 2023 Texas Highway Safety Plan (HSP)*, which described how federal highway safety funds would be programmed consistent with the guidelines, priority areas, and other Section 402 requirements.

# **Traffic Safety Organization**

The Texas Traffic Safety Program is managed by the Behavioral Traffic Safety Section of TxDOT's Traffic Safety Division; with program management staff located at Austin headquarters and traffic safety specialist field staff stationed across the state in support of the 25 TxDOT Districts. The organizational charts on the following pages show the hierarchy of the traffic safety team, Section, Division, and Agency. (See Figures 1.1 – 1.3)

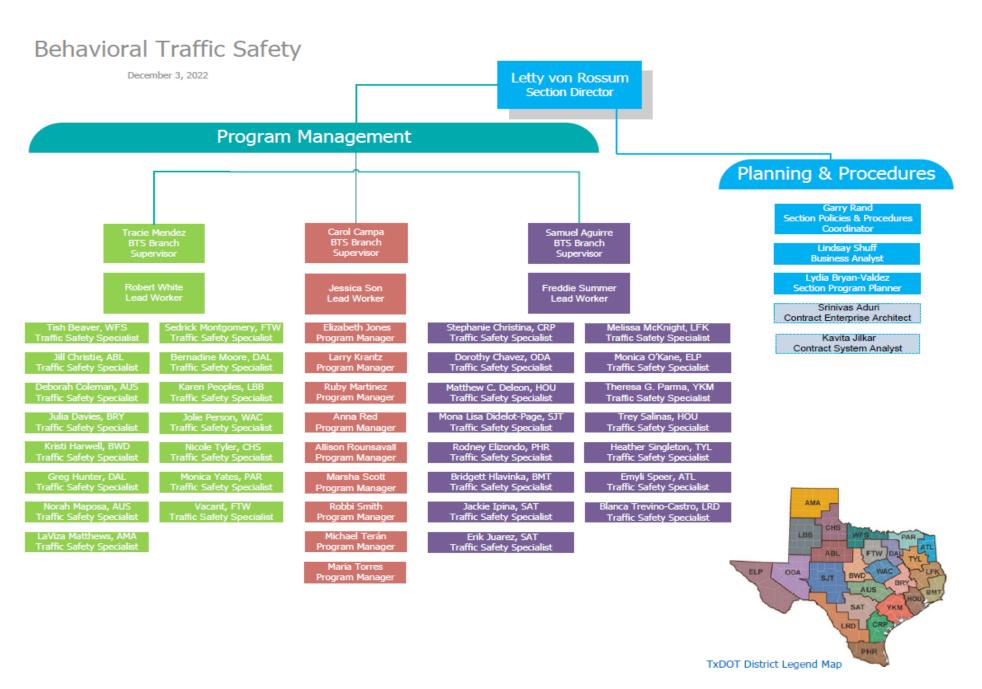

Figure 1.1: TxDOT Behavioral Traffic Safety Organizational Chart

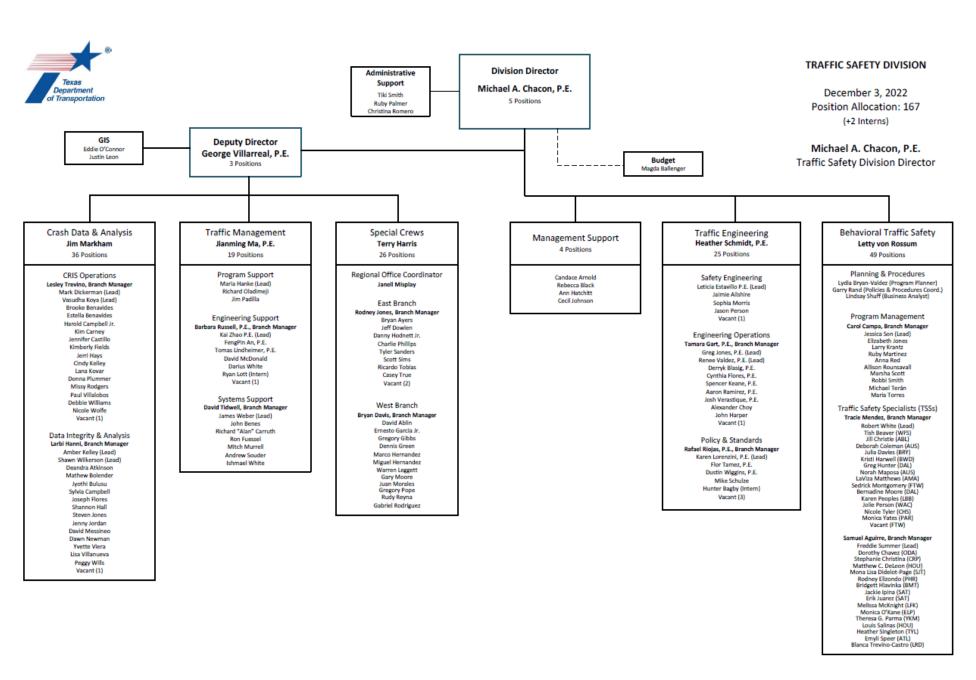

Figure 1.2: TxDOT Traffic Safety Division Organizational Chart

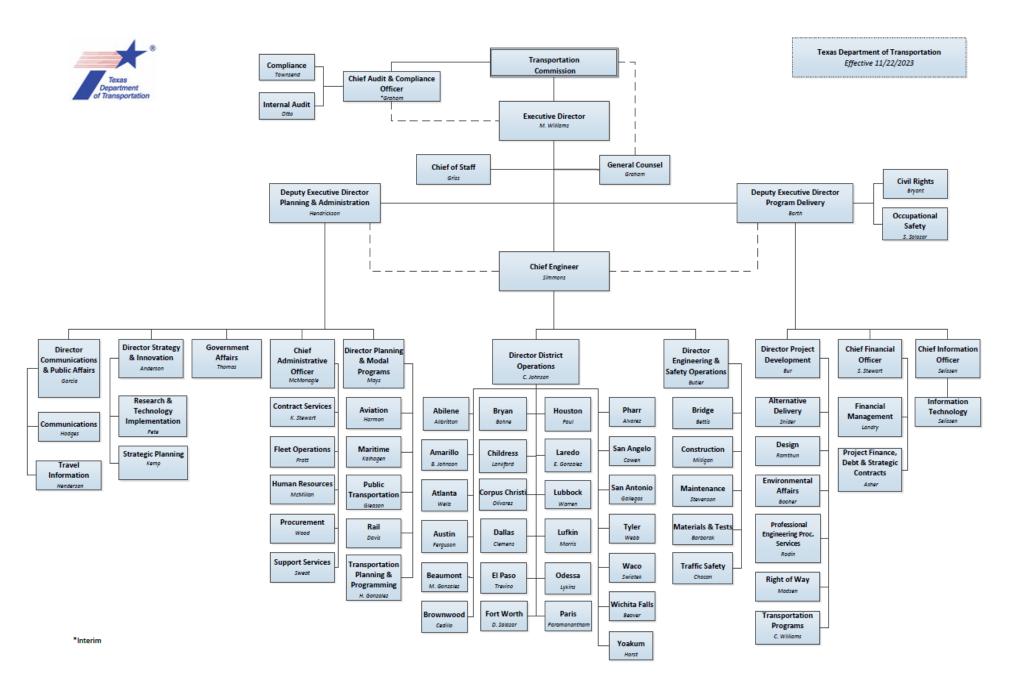

Figure 1.3: TxDOT Organizational Chart

# **Reviews and Legislative Issues**

#### **NHTSA Voucher Review**

NHTSA conducted three voucher reviews on March 17, 2023, June 9, 2023, and November 6, 2023, to ensure all expenses were vouchered adequately.

#### **Legislative Issues**

The 88<sup>th</sup> Texas Legislature convened in January 2023. Although the session did not feature any groundbreaking traffic safety legislation, the Texas Legislature did pass several pieces of legislation strengthening existing traffic safety laws, an indication of the ever-increasing priority lawmakers place on traffic safety.

House Bill 1885 establishes a Variable Speed Limit program to allow the temporary lowering of speed limits to address inclement weather, congestion, road construction, or any other condition that affects the safe and orderly movement of traffic on a roadway. Variable Speed Limit systems allow for real-time, temporary reductions of speed limits to accommodate rapid change due to temporary factors and improve traffic safety.

New legislation increased the severity of penalties for violations of Texas' "Move Over, Slow Down" law, which requires motorists to move over or slow down when passing certain vehicles such as emergency response, law enforcement, and Texas Department of Transportation work vehicles. Under House Bill 898, the first violation may result in a fine between \$500 and \$1,250. A second offense within five years is punishable by a fine between \$1,000 and \$2,000. If the violation results in bodily injury, the offense is a Class A misdemeanor. A second offense that causes bodily injury is a state jail felony.

Two new laws relate to improving safety related to the proper attachment of trailers to certain motor vehicles. Under House Bill 1198, the Texas Department of Transportation will create and implement a public awareness campaign to promote the proper attachment of a trailer to a passenger car and raise awareness of the potential consequences of improper trailer attachment. In addition, House Bill 1199 requires collecting and analyzing specified data regarding the proper attachment of trailers on statewide peace officer motor vehicle crash reports.

House Bill 4122 increases safety regarding the operation and movement of motorcycles on roadways laned for traffic. The new law clarifies that motorcycles are entitled to full use of a lane on a roadway and prohibits a motor vehicle from operating in a manner that deprives a motorcycle of the full use of a lane. The law may bolster the safety of motorcyclists and the traveling public by providing clear guidance on safe roadway lane use for both types of vehicle operators.

The text, history and status of all Texas Legislative actions can be found at Texas Legislature Online at the following link: <a href="https://capitol.texas.gov/">https://capitol.texas.gov/</a>

# **Crash Summary**

TxDOT has data from 2003 through 2022. FARS data for 2020 - 2021 is listed in the table below.

		2020	2021	2022
Number of Texas Fatalities	TxDOT Data	3,898	4,456	4,406
Number of Texas Fatatities	FARS Data	3,876	4,498	Not Available
<b>Miles Driven in Texas</b> (Millions)	TxDOT Data	260,580	285,028	290,891
	FARS Data	260,582	285,028	Not Available
<b>Mileage Death Rate</b> (Persons killed per	TxDOT Data	1.50	1.56	1.51
100 million vehicle miles traveled)	FARS Data	1.49	1.58	Not Available
Toyor Donulation	TxDOT Data	29,677,668	30,168,926	30,667,390
Texas Population	FARS Data	29,217,653	29,527,941	Not Available
Population Death Rate (Persons killed	TxDOT Data	13.13	14.77	14.37
per 100,000 Texas Population)	FARS Data	13.27	15.23	Not Available

#### **Problem Identification**

TxDOT-TRF-BTS coordinates the development and implementation of highway safety performance targets, strategies, and objectives for each program area based on the problems identified in each area. These problem areas are based on both the national issues identified by NHTSA, and the statewide issues specific to Texas.

Crash data is used to show the trends of the issues and as a baseline to demonstrate improvement in each area. The agencies that Texas works with to identify these problem areas, and determine how to address them, include the following but are not limited to; AAA-Texas, AARP, MADD-Texas, Texas Department of Public Safety (TxDPS), Texas Department of State Health Services (DSHS), Texas A&M Transportation Institute (TTI), Texas Agrilife Extension Service, Texas Engineering Extension Service (TEEX), and the NHTSA Region 6.

#### Goals

For Fiscal Year 2023, the following goals were identified:

- To reduce the number of motor vehicle crashes, injuries, and fatalities (Overall State Goals)
- To provide effective and efficient management of the Texas Traffic Safety Program (PAO1)
- To reduce the number of alcohol impaired and driving under the influence of alcohol and other drug-related crashes, fatalities, and injuries (AL-02)
- To reduce the number of DUI-related crashes where the driver is under age 21 (AL-02)
- To improve EMS care and support provided to motor vehicle trauma victims in rural and frontier areas of Texas (EM-03)
- To reduce the number of motorcyclist fatalities and un-helmeted injuries (MC-04)
- To increase occupant restraint use in all passenger vehicles and trucks (OP-05)
- To reduce the number of motor vehicle-related pedestrian and bicyclist fatalities and injuries (PS-06)
- To increase effective enforcement and adjudication of traffic safety-related laws to reduce fatal and serious injury crashes (PT-07)
- To reduce commercial motor vehicle crashes, injuries and fatalities involving vehicles with a vehicle body type of "Semi-Trailer" or "Truck Tractor." (PT-07)
- To reduce the number of speed-related fatal and serious injury crashes (SC-08)
- To improve the timeliness, quality, and availability of, as well as linkages of traffic records between crash data bases (TR-09)
- To increase public knowledge, perception and understanding of driver education and traffic safety for all road users (DR-10)
- To reduce the number of crashes and injuries related to distracted driving (DR-10)
- To reduce KAB crashes at railroad/highway crossings (RH-11)
- To reduce the number of traffic crashes, injuries, and fatalities in work zones per 100 million vehicle miles traveled (RS-12)
- To reduce the number of traffic crashes, injuries, and fatalities in work zones. (RS-12)
- To increase knowledge of roadway safety and current technologies among people involved in engineering, construction, and maintenance areas at both the state and local level (RS-12)
- To establish integrated community traffic safety programs to prevent traffic-related fatalities and injuries (SA-13)
- To reduce school bus-related crashes, injuries, and fatalities (SB-14)

#### **Solutions**

Based on this problem identification information, and the defined Targets, Texas works with state and local agencies, as well as public and private organizations to develop and submit project proposals designed to support those Targets and strategies. *Please refer to Section Three: Program Area Reports and Section Four: Paid Media Reports for more details.* 

# 2022 Texas Motor Vehicle Crash Facts

The Fatality Rate on Texas roadways for 2022 was 1.55 deaths per hundred million vehicle miles traveled.  This is a 1.99% decrease from 2021.	Based on reportable crashes in 2022:  1 person was killed every 1 hour 57 minutes.  1 person was injured every 2 minutes 9 seconds.  1 reportable crash occurred every 57 seconds
Texas experienced a decrease in the number of motor vehicle traffic fatalities.  The 2022 death toll of 4,481 was a decrease of 0.36% from the 4,497 deaths recorded in 2021.	Of all persons killed in vehicles where restraint usage was applicable and usage was known in 2022, 48.03% were reported as not restrained when the fatal crash occurred.
There were 15,299 serious injury crashes in Texas in 2022 with 18,880 people sustaining a serious injury*.	244,092 persons were injured in motor vehicle traffic crashes in 2022.
The annual vehicle miles traveled in Texas during 2022 reached 289,965 billion, an increase of 1.66% over the 285,224 billion traveled in 2021.	There were 562 motorcyclists (operators and passengers) killed in 2022. Thirty-nine percent (39%) of motorcyclists killed were not wearing helmets at the time of the crash.
Fatalities in traffic crashes in rural areas of the state accounted for 51.42% of the state's traffic fatalities. There were 2,304 deaths in rural traffic crashes.	Pedestrian fatalities totaled 828 in 2022. This is a 0.24% increase from 2021.
Single vehicle, run-off the road crashes resulted in 1,471 deaths in 2022. This was 32.83 % of all motor vehicle traffic deaths in 2022.	Pedalcyclist fatalities totaled 91 in 2022. This is a 1.11% increase from 2021.
In 2021 there were 1,030 people killed in crashes occurring in intersections or related to an intersection.	In 2022, there were 1,163 people killed in motor vehicle traffic crashes where a driver was under the influence of alcohol. This is 25.95% of the total number of people killed in motor vehicle traffic crashes.
There were 636 people killed in head-on crashes in 2022.	During 2022, more DUI - Alcohol crashes were reported in the hour between 2:00 am and 2:59 am than any other hour of the day. Also, more of these crashes occurred on Sunday than any other day of the week.
Friday, July 22nd was the deadliest days in 2022 with thirty-one (31) persons killed in traffic crashes.  September was the deadliest month with 427 persons killed.	In 2022, there were 484 people killed in crashes involving distracted driving. This is an 11.01% increase from 2021.

<sup>\*</sup>Effective with the 2010 Annual Summary reports, the definition of "Serious Injury" was changed to only include "Incapacitating Injury". Therefore, Serious Injury data cannot be compared to prior years.

Information contained in this report represents reportable data collected from Texas Peace Officer's Crash Reports (CR-3) received and processed by the Department as of March 28, 2023.

Retrieved from 2022 Texas Motor Vehicle Crash Facts

# **Performance Measures**

Texas performance measures for 2023 are outlined in Tables 2.1 – 2.15 by program area. Note - 2022 FARS data is not available on FARS website.

Table 2.1

	Overall State Goals								
Goals	Strategies	Performance Measures	Reference	Target 2023	Actual				
		1. Traffic Fatalities (FARS) (C-1)	Figure 1	3,682	3,875 (2017-2021 FARS)				
To reduce the number of motor vehicle crashes, injuries, and fatalities		2. Serious Injuries (TxDOT) (C-2)	Figure 2	17,062	16,768 (2018–2022 CRIS)				
	All	3. Fatality Rate per 100M VMT (FARS) (C-3)	Figure 3	1.38	Rate = 1.39 (2017-2021 FARS)				
		4- Serious Rate per 100M VMT (CRIS)	Figure 4	6.39	Rate = 5.95 (2017-2021, CRIS)				

Table 2.2

01 - Planning and Administration (PA)							
Goals	Strategies	Performance Measures	Reference	Target 2023	Actual		
To provide effective and efficient management of the Texas Traffic Safety Program	Provide technical assistance and support for the Strategic Highway Safety Plan.  Provide training and assistance for local and statewide traffic safety problem identification.	5a. Publication of Traffic Safety Program Deliverable Annual Report. (TxDOT)	N/A	FY 2023 Annual Report	Developed and Submitted		
	Provide procedures and training on highway safety planning and project development.	5b. Publication of Traffic Safety Program Deliverable HSP (TxDOT)	N/A	FY 2023 Highway Safety Plan	Developed and Submitted		
	Ensure availability of program and project management training.  Review and update program procedures as needed.	5c. Publication of Traffic Safety Program Deliverable Response to Management Review (TxDOT)	N/A				
	Conduct periodic project monitoring and evaluation of traffic safety activities.	6a. Number of training sessions provided. (TxDOT)	N/A	1 NHTSA Highway Safety Grant Management Course	2 Courses Provided.

#### DATA SOURCES AND GLOSSARY FOR PERFORMANCE MEASURES

#### **Performance Measure Data Sources**

All crash and casualty data in this document originate from Texas police crash reports as coded in two record systems: The Fatality Analysis and Reporting System and the Texas Crash Record Information System. Differences in coding, the variables coded, and definitions of those variables render direct comparisons among the data in the systems problematic. Although in most cases differences among the data in the systems are negligible and practically insignificant, for several variables, the differences are notable. This is especially true for crashes (and the casualties sustained in those crashes) that involve alcohol and/or other drugs and to a lesser extent for crashes involving specific vehicle types. The definitions offered in the glossary are provided both to assist in clarifying those differences and to improve the precision of statements about the crash and casualty experience in Texas.

Fatality Analysis and Reporting System (FARS)	All FARS data through 2020 are from final FARS data sets. FARS 2021 data are ARF.  FARS crash and fatality data for 2021 are not final and, therefore, are subject to change.
TxDOT Crash Record Information System (CRIS)	TxDOT CRIS is the replacement for the legacy system Texas Accident File.

	Performance Measure Glossary				
Term	Definition				
Alcohol-Related Crashes	FARS "New Definition" based on the highest BAC of involved drivers and motorcycle riders (operators) only: Crashes (or fatalities) in which at least one driver or motorcycle operator had a BAC ≥ .08 g/dL. (Also referred to as "Alcohol-Impaired Driving Crashes/Casualties").				
(or Casualties)	All FARS-based alcohol-related data reported in the HSPP include those crashes in which at least one driver had a <a href="known">known</a> BAC test result and those for which alcohol involvement has been estimated when alcohol test results are unknown, i.e., alcohol involvement based on NHTSA's multiple imputation procedures.				

	Performance Measure Glossary
Term	Definition
DUI-Related Crashes (or Casualties) - Alcohol or Other Drugs	TXDOT: A BAC result >0.00 g/dL or a positive substance test result was indicated for at least one driver, or "had been drinking," "under the influence of alcohol," "under the influence - drug" or "taking medication" was identified as a contributing factor
Intersection and Intersection-Related Crashes	TXDOT: A crash in which the first harmful event occurred on an approach to or exit from an intersection and resulted from an activity, behavior or control related to the movement of traffic units through the intersection.  TxDOT CRIS Codes: INTRST_RELAT_ID = 1 - Intersection, or 2 - Intersection Related.
Large Truck-Involved Crashes (or Fatalities)	TXDOT: All crashes Involving at least one vehicle with a vehicle body type of "Semi-Trailer" or "Truck-Tractor." TxDOT CRIS Codes: VEH_TYPE_ID = 6 - Semitrailer, or 24 - Truck-Tractor).
Motor Vehicle-Related Bicycle Fatalities	TXDOT: A death of a pedalcyclist resulting from a crash involving a motor vehicle. Bicyclist deaths and injuries unrelated to motor vehicle crashes are not included. TxDOT CRIS Codes: PERSN_TYPE_ID = 7 - Pedalcyclist.
Motor Vehicle-Related Pedestrian Fatalities	FARS: All deaths of pedestrians resulting from a crash involving a motor vehicle.
Motorcyclist Fatalities	FARS: Data categorized as motorcyclist fatalities include fatalities to operators and passengers of vehicles identified in FARS as a: motorcycle, moped (motorized bicycle), three-wheel motorcycle or moped - not all-terrain vehicle, off-road motorcycle (2-wheel), other motored cycle type (minibikes, motor scooters), or unknown motored cycle type.

	Performance Measure Glossary				
Term	Definition				
Railroad Grade Crossing Crashes	TXDOT: Crashes at at-grade railroad/highway crossings, whether or not a train was involved – not limited to collisions with trains. TxDOT CRIS Codes: CRASH RAILROAD RELATED FLAG ID = Y, or HARM_EVNT = 3 - RR Train, or Physical Feature = 17, or OBJECT STRUCK = 10 - Hit Train Moving Forward), or 11 - Hit Train Backing), or 12 - Hit Train Standing Still, or 13 - Hit Train-Action Unknown, or 24 - Hit Railroad Signal Pole or Post, or 25 - Hit Railroad Crossing Gates.				
School Bus Passenger Fatalities	FARS: All fatalities to passengers of school buses. Included are vehicles identified in FARS as "School Buses" and other vehicles used as School Buses (e.g., vans). Note: Data provided are five year moving averages.				
	FARS and TXDOT: Crashes are coded in accordance with the highest degree of injury suffered in the crash, where: Serious injury (A) - not able to walk, drive, etc.				
	Non-incapacitating injury (B) - bump on head, abrasions, minor lacerations, etc.				
Consider of Consider	Fatal injury (F or K) - a death resulting from a crash that occurs within 30 days of the crash				
Severity of Crash /	Possible injury (C) – e.g., limping, complaint of pain				
Severity of Injury	Non-injury (N or Property Damage Only- PDO).				
	"Serious" crashes or injuries are all crashes (casualties) in which the highest level of injury sustained was at least one Serious injury (A), plus all crashes in which the highest level of injury sustained was at least one non-incapacitating injury (B).				
Speeding-Related Crashes	FARS: Crashes in which at least one driver was driving too fast for conditions or in excess of posted maximum limit.				

	Performance Measure Glossary
Term	Definition
Texas Population	FARS: Population-based crash and casualty rates use Texas population estimates derived from FHWA's Highway Statistics and/or US Census Estimates for the relevant year.
Texas Population	TXDOT: Texas population data used for calculating population-based crash and casualty rates were obtained from the Texas State Data Center and Office of the State Demographer. Population-based crash and casualty rates through CY 2016 are based on Texas State Data Center population <u>estimates</u> .
	FARS: All annual VMT-based crash & casualty rates, expressed in 100M VMT (100 million vehicles miles traveled, using FARS crash & casualty data are derived from FHWA's Highway Statistics for the relevant year.
Vehicle Miles Traveled (VMT)	TXDOT: All annual VMT estimates used in this document are derived from TXDOT's Transportation Planning and Programming Division's (TPP) estimates of daily vehicle miles traveled. These estimates include all vehicle miles on all roadways in Texas. Total VMT includes VMT on state, city and county-maintained roads. All mileage-based crash and casualty rates based on TXDOT data use TPP VMT estimates as the denominator.
Work Zone Injuries and Fatalities	TXDOT: Fatalities and serious injuries in crashes occurring in a Work Zone whether or not construction related. TxDOT CRIS codes; CRASH ROAD CONSTRUCTION ZONE FLAG_ID = Y, or CRASH ROAD CONSTRUCTION ZONE WORKER FLAG_ID = Y, or OTHR_ FACTR = 49 - Construction Zone - Not Construction Related), or 50 - Construction Zone - Construction Related, or 51 - Other Maintenance Area - Not Construction Related, or 52 - Other Maintenance Area - Construction Related.

# **SECTION TWO**ACTIVITY REPORT

## **Planning and Administration**

#### Goals

To provide effective and efficient management of the Texas Traffic Safety Program

#### **Strategies**

- Conduct periodic project monitoring and evaluation of traffic safety activities.
- Ensure availability of program and project management training.
- Maintain coordination of traffic safety efforts and provide technical assistance.
- Perform accurate accounting and efficient reimbursement processing.
- Provide procedures and training on highway safety planning and project development.
- Provide technical assistance and support for the Strategic Highway Safety Plan.
- Provide training and assistance for local and statewide traffic safety problem identification.
- Review and update program procedures as needed.

#### **Project Descriptions**

#### Goals

- To reduce the number of alcohol impaired and driving under the influence of alcohol and other drug-related crashes, fatalities and injuries.
- To reduce the number of alcohol impaired and driving under the influence of alcohol and other drug-related crashes, injuries and fatalities.
- To reduce the number of DUI-related crashes where the driver is underage 21

#### **Strategies**

- Educate the public and stakeholders on the use of interlock devices and other alcohol monitoring technologies for DWI offenders.
- Improve adjudication and processing of DWI cases through improved training for judges, administrative license revocation judges, prosecutors, and probation officers.
- Improve and increase training for law enforcement officers.
- Improve anti-DWI public information and education campaigns including appropriate bilingual campaigns.
- Improve BAC testing and reporting to the State's crash records information system.
- Improve DWI processing procedures.
- Improve education programs on alcohol and driving for youth.
- Increase and sustain high visibility enforcement of DWI laws.
- Increase enforcement of driving under the influence by minors laws.
- Increase intervention efforts.
- Increase public education and information, concentrating on youth age 5-13 and 14-20, including parent education on drinking and driving.
- Increase the number of law enforcement task forces and coordinated enforcement campaigns.
- Increase the use of warrants for mandatory blood draws.
- Increase training for anti-DWI advocates.

#### **Harris County District Attorney**

#### Title / Desc. Search Warrants Stop Impaired Drivers: Harris County District Attorney's Office No Refusal Program

Utilizing prosecutors and administrative assistants from the DA's Office for the sole purpose of expediting the blood search warrant process for officers who are investigating impaired drivers.

#### Strategies Addressed

- Increase and sustain high visibility enforcement of DWI laws.
- Increase enforcement of driving under the influence by minors laws.
- Increase intervention efforts.
- Increase the number of law enforcement task forces and coordinated enforcement campaigns.
- Increase the use of warrants for mandatory blood draws.
- Increase and sustain enforcement of traffic safety-related laws.
- Increase public education and information campaigns regarding enforcement activities.
- Provide technical and managerial support to local law enforcement agencies and highway safety professionals.

# **Police Traffic Services**

# Goals

- To increase effective enforcement and adjudication of traffic safety-related laws to reduce fatal and serious injury crashes
- To reduce commercial motor vehicle crashes, injuries and fatalities involving vehicles with a vehicle body type
  of "Semi-Trailer" or "Truck-Tractor".

# **Strategies**

- Increase and sustain enforcement of traffic safety-related laws.
- Increase and sustain high visibility enforcement of Intersection Traffic Control (ITC) laws.
- Increase and sustain high visibility enforcement of state and local ordinances on cellular and texting devices.
- Increase enforcement of commercial motor vehicle speed limits.
- Increase public education and information campaigns regarding enforcement activities.
- Increase public information and education on distracted driving related traffic issues
- Increase public information and education on intersection related traffic issues.
- Increase public information and education on sharing the road with large trucks
- Provide technical and managerial support to local law enforcement agencies and highway safety professionals.

# Title / Desc. Reducing Large Commercial Motor Vehicle Crashes Through a Data Driven Approach and Officer Training

The project seeks to increase motorist safety by reducing the frequency of large vehicle and bus crashes through a focused approach, grounded in accurate and timely crash data and officer training

#### Strategies Addressed

- Increase and sustain enforcement of traffic safety-related laws.
- Increase enforcement of commercial motor vehicle speed limits.

# Title / Desc. Texas Law Enforcement Liaison STEP Support and Training

We provide full support to TxDOT Traffic Safety Specialists on STEP grants and traffic safety events. We also instruct courses on a variety of traffic safety topics.

#### Strategies Addressed

- Increase occupant protection education, training, and awareness of safety belt issues for law enforcement, judges and prosecutors.
- Increase public information and education campaigns.
- Increase public education and information campaigns regarding enforcement activities.
- Increase public information and education on distracted driving related traffic issues
- Increase public information and education on intersection related traffic issues.
- Provide technical and managerial support to local law enforcement agencies and highway safety professionals.
- Conduct and assist local, state and national traffic safety campaigns.

- Conduct public information and education campaigns related to distracted driving.
- Develop and implement public information and education efforts on traffic safety issues.
- Implement and evaluate countermeasures to reduce the incidence of distracted driving.
- Improve the recording of distracted driving as a contributing factor on crash reports.

### 2023-TMCEC-G-1YG-0125

#### Title / Desc. Driving on the Right Side of the Road (DRSR)

DRSR was created to teach responsible decision-making, adherence to traffic laws, and how to follow safe practices on Texas roads. DRSR has created curriculum and children's books for this purpose.

#### Strateaies Addressed

Organization Name

- Conduct periodic project monitoring and evaluation of traffic safety activities.
- Ensure availability of program and project management training.
- Maintain coordination of traffic safety efforts and provide technical assistance.
- Perform accurate accounting and efficient reimbursement processing.
- Provide procedures and training on highway safety planning and project development.
- Provide technical assistance and support for the Strategic Highway Safety Plan.
- Provide training and assistance for local and statewide traffic safety problem identification.
- Review and update program procedures as needed.
- Improve adjudication and processing of DWI cases through improved training for judges, administrative license revocation judges, prosecutors, and probation officers.
- Improve anti-DWI public information and education campaigns including appropriate bilingual campaigns.
- Improve education programs on alcohol and driving for youth.
- Increase intervention efforts.
- Increase public education and information, concentrating on youth age 5-13 and 14-20, including parent education on drinking and driving.
- Concentrate efforts on historically low use populations.
- Increase intervention efforts by healthcare professionals, teachers, and all safety advocates.
- Increase occupant protection education, training, and awareness of safety belt issues for law enforcement, judges and prosecutors.
- Increase public information and education campaigns.
- Improve public information and education on motorcycle safety, including the value of wearing a helmet.
- Improve public information and education on the value of not operating a motorcycle while under the influence of alcohol and/or other drugs.
- Increase public education and information on railroad/highway crossing safety.
- Increase public education and information on roadway safety.
- Conduct and assist local, state and national traffic safety campaigns.
- Conduct public information and education campaigns related to distracted driving.
- Develop and implement public information and education efforts on traffic safety issues.
- Provide public information and education campaigns to promote safe motor vehicle operations around school buses.
- Increase public information and education concerning speed-related issues.

Performance Objectives	<u>Target</u>	<u>Actual</u>	Met?
Conduct teacher traffic safety workshop	1	1	✓
<ul> <li>Develop educational resource for teaching traffic safety in the classroom</li> </ul>	1	2	<b>✓</b>

# SECTION THREE PAID MEDIA REPORTS

#### FY 2023 Click It or Ticket Public Information and Education Campaign October 1, 2022 - September 30, 2023

#### **Campaign Overview**

Even though Texas has had a seat belt law on the books since 1985, by 2002 only three of every four drivers (76%) were buckling up. Traffic fatalities were topping 3,500 every year, and many of those could have been prevented if vehicle occupants had been wearing a seat belt. In 2002, TxDOT began participating in the National Highway Traffic Safety Administration's (NHTSA) national *Click It or Ticket* campaign and as of 2023, seat belt use in Texas has since increased from 76% to 90.57%. According to the NHTSA, *Click It or Ticket* campaigns in Texas are credited with saving 7,399 lives, preventing more than 129,000 serious injuries, and achieving more than \$28.5 billion in economic savings. Unfortunately, Texans are still dying due to a failure to buckle up. In 2022, there were 3,357 motor vehicle traffic crashes in Texas in which unrestrained occupants sustained fatal or serious injuries.

Despite great strides made over the past 22 years, too many people in Texas still fail to always buckle up. Research shows that men, passengers, those in pickup trucks (drivers and passengers), and those on the road at night are the worst when it comes to using a seat belt regularly.

Many of these fatalities and serious injuries might have been prevented by simply buckling up. In fact, wearing a seat belt reduces the risk of a fatal injury to a person in the front seat of a passenger car by 45%. For those in pickup trucks, which are more likely to roll than passenger vehicles, the risk of fatal injury is reduced by up to 60%. At the national level, *Click It or Ticket* aims to enforce seat belt use to help keep travelers safe.

The state campaign seeks to supplement the national effort through several goals:

- Raise drivers' awareness of the increased risk of getting a ticket due to enforcement mobilization.
- Raise drivers' awareness of the increased risk of injury or death due to failure to use a seat belt.
- Reduce unbelted fatalities.
- Increase seat belt use.

#### Paid Media Recap

Beginning May 16, TxDOT placed \$956,093.27 in paid media for the Click It or Ticket campaign, with some media partnerships continuing until the end of the fiscal year. Added value achieved through negotiations with media vendors exceeded TxDOT's investment. Bonus (free) radio spots were valued at \$200,057. Added-value amounts from out-of-home advertising totaled \$225,173

and included billboard overrides and negotiated lower monthly rates as well as gas station bonus spots. The Bally Sports Network Southwest and AT&T SportsNet media buys contributed \$592,683 in added value. The total added value generated by paid media was \$1,017,913.

**Primary Target:** Adults 18–34, with an emphasis on men

Secondary Target: Adults 35+

**Media Markets:** Statewide, with out-of-home emphasis on the following counties: Angelina,

Bell, Bexar, Brazos, Collin, Comal, Dallas, Denton, Ft. Bend, Harris, Jefferson, Kaufman, Lubbock, McLennan, Nueces, Tarrant, Taylor, Victoria, Williamson,

TOTAL		\$956,093.27	174,895,851

#### Website Overview

TexasClickItOrTicket.com had 72,184 users during the fiscal year. A vast majority of users were new visitors and came to the site during the paid media flight in May. As this is an awareness campaign, driving traffic to the website is not a central objective, so there is not a call to action to click the ad to visit the website. Since most users don't really need to learn more about buckling up other than just being reminded to and the consequences of not doing so, most of these clicks are likely either accidental or just those who are curious. The bounce rate and average session time of seven seconds supports this assumption.

#### **Public Relations**

To mark the 21st Click It or Ticket campaign, a combination of press and outreach events featuring a pickup truck dangling from seat belt material were held in 12 cities from May 15–31. Cities were selected based on a combination of unbelted fatalities as well as media market size and included Austin, San Antonio, Laredo, McAllen, Corpus Christi, Beaumont, Houston, Tyler, Waco, Dallas, Midland, and El Paso. At each stop, the display was set up against local, iconic backdrops. News media outlets and law enforcement were invited to attend.

In addition, Traffic Safety Specialists (TSSs) and Public Information Officers (PIOs) helped secure a variety of local representatives to speak at the press conferences. These included a TxDOT spokesperson, a law enforcement official, a local EMS representative, and an individual personally affected by an unbelted crash.

Kickoff press conference at the Long Center in Austin

To support the events, the campaign created digital press kits customized for each market that included a press release, media advisory, and fact sheet as well as talking points for TxDOT's PIOs. In addition, b-roll and sound bites were recorded to encourage media coverage. The media events and news releases generated 694 TV and radio news segments valued at \$1,372,482, 54 print articles valued at \$96,798, and 192 online news stories valued at \$23,902,803. Combined, the earned media produced more than 527 million impressions. The total publicity value of news media coverage of the campaign was \$25,372,083.

#### **Partnerships**

In anticipation of the campaign, several partners were recruited to help disseminate materials and messages. A digital toolkit was developed and distributed to partners including the Associated General Contractors of America, Texas Mutual, Texas A&M AgriLife Extension, the Texas Municipal Police Association, AAA, and the National Safety Council.

#### **Creative Overview**

The *Click It or Ticket* campaign focuses on increasing seat belt use among drivers and passengers. The creative approach identifies an overarching strategy to address our campaign needs: reinforcing the consequences of not wearing a seat belt that are economic—getting a ticket—and emotional—injury or death, loss of a loved one, and the effects on those left behind. To that end, the campaign has created numerous public service announcements for video, television, and radio; digital and social media content; and billboards and print collateral.

English and Spanish billboards

The campaign used several digital media channels to reach audiences, especially younger people ages 18–34 and men. Messages featuring videos have been shown to outperform static images in most social media, so channels such as OTT/CTV, YouTube, and Facebook/Instagram were used to deliver them.

YouTube

OTT/CTV

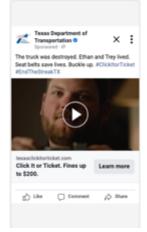

Pre-roll video

Facebook/Instagram newsfeed ads

Social media is an integrated part of the campaign's awareness efforts. Paid social media posts play a crucial role in reaching our target audiences with key messages and organic social media posts extend that awareness. Below are examples of organic posts developed for the campaign.

Animated organic social media posts

Social media influencers were engaged to further disseminate campaign messages and lend credibility. Influencers delivered 1,524,211 impressions, which resulted in 493,049 involvements and 26,385 active engagements.

Partner	Impressions	Active Engagements	Clicks	Completed Views	Involvements	Involvements Rate
Ralphy Perdomo	131,251	5,679	70	82,202	110,122	84%
Houston Hot Spots	359,475	7,918	54	94,273	129,262	36%
Dallas Love List	435,455	5,447	98	110,637	143,544	33%
Marlon Hairston	106,424	1,367	46	20,984	27,959	26%
Tucker Brown	136,950	2,261	91	21,971	31,077	23%
Adesuwa Aideyman	113,625	630	105	16,490	21,085	19%

#### YOUTH OCCUPANT PROTECTION CAMPAIGN October 1st, 2022 - September 30, 2023

#### Campaign Overview

In 2021, 318 teen drivers and passengers (ages 15-20) were killed in vehicle crashes on Texas roadways, and another 2,023 were seriously injured; 144 (45%) of those killed, were not wearing their seat belts at the time of the crash. Additionally, for our youngest Texans, vehicle crashes on Texas roadways resulted in 72 fatalities for children younger than 8 years old and 395 serious injuries. Of those killed, 16 (22%) were unrestrained at the time of the crash.

TxDOT's overarching Youth Occupant Protection marketing campaign consists of two campaign flights — *Teen Click It or Ticket* and *Child Passenger Safety*. The overall campaign goal is to reduce fatalities and injuries related to unrestrained or improperly restrained teens and children on Texas roads. For most occupants the act of wearing a seatbelt is the simplest habit. However, for our youth it is a learned practice or an action that involves a caregiver taking the time to ensure it is done properly. The Youth Occupant Protection marketing campaign goals are:

- 1. Increase public awareness on the dangers resulting from teenagers not wearing their seat belt.
- 2. Educate the public on proper usage of child safety seats and how to schedule an appointment with a certified child passenger safety technician (CPST) at SaveMeWithASeat.org.

In 2023, the Youth Occupant Protection campaign marketing strategies consisted of:

- Develop a statewide paid media plan focusing on key target audiences in primary markets for both flights of the campaign.
- Build on existing creative assets to expand campaign messaging to resonate with our key target audiences for both the *Teen Click It or Ticket* flight and the *Child Passenger Safety* flight.
- Conduct a robust public relations campaign that includes grassroots interactive events and community outreach to key target audiences.
- Foster earned media opportunities to increase the campaign's return on investment.
- Identify and feature testimonial stories in public relations campaign messaging for both flights of the campaign.
- Conduct a statewide survey among parents of children aged 8 or younger to measure campaign awareness, confidence in proper safety seat installation and campaign message testing.

This year, TxDOT continued to feature the 'If You Love It, Click It' message for the *Teen Click It or Ticket* campaign, serving as a reminder that teen drivers and passengers should ensure all riders are always wearing their seat belts – Every Rider, Every Ride. This year, the campaign launched new video assets featuring an original "If You Love It, Click It" song and digital creative. Campaign representatives visited eight Texas districts across the state during the flight and encouraged teens to sign a pledge to wear their seat belt in exchange for the chance to win a pair of Apple AirPods. TxDOT continued to use the successful slogan "Save Me With A Seat" for the *Child Passenger Safety* campaign this year. This important message

speaks directly to child caregivers regarding the importance of proper car seat installation and use. Building on the astronaut-themed television assets launched in the previous year, the 2023 campaign featured updated digital assets and a new "Are You Ready for Takeoff?" activation experience. Activations were held in eight markets across Texas directly targeting parents and caregivers. The campaign also continues to use the SaveMeWithASeat.org website in both English and Spanish, for safety seat inspection scheduling year-round.

#### PAID MEDIA and ADDED VALUE OVERVIEW

TxDOT placed \$585,000 in paid media throughout the 2023 fiscal year. Following are the details of the media purchases for each flight of the campaign:

#### Teen Click It or Ticket

#### Flight Dates:

• February 1 through February 15, 2023

Target Audience:

Primary: Teens in Texas (Ages 15-20)

Secondary: Parents, coaches, teachers, and other influencers of teens

#### **Key Markets:**

- Austin
- Bryan
- Dallas
- Fort Worth
- Houston
- San Antonio
- Tyler
- Waco

#### Paid Media:

- Radio and OTT/CTV -: 15 and : 30, English and Spanish
- Digital (Display Demographic Targeting Ads, Mobile Gaming Display Ads, Video Pre/Post Roll, YouTube and Snapchat), English and Spanish

#### Added-Value:

OTT/CTV video ads, social media ads, display ads and AirPods to use as giveaways.

#### **Child Passenger Safety**

#### Flight Dates:

• September 15 through September 30, 2023

#### Target Audience:

Primary: Parents and caregivers of children 0-8 years old

Secondary: Individuals who directly influence moms and dads of young children (caregivers, nurses, doctors, teachers and daycare instructors, grandparents, etc.)

#### **Key Markets:**

- Amarillo
   Brownsville
   Houston
   San Antonio
- Beaumont
   Fort Worth
   Lubbock
   Tyler

#### Paid Media:

- OTT/CTV, Traditional TV and Radio -: 15 and: 30, English and Spanish
- Digital (Display Ads): Behavioral, Whitelist and Purchasing Targeting, Facebook, Instagram, Pre-Roll Video English and Spanish
- Outdoor Billboards English and Spanish

#### Added-Value:

TV spots, radio spots, social media ads, display ads

#### Overall Campaign Value

Earned media resulted in \$18,883,154 in added value and 472,144,639 impressions. Paid media match resulted in \$1,298,166 in added value and 31,263,864 impressions. Agency time match at an additional \$50,531. Total added value was \$20,231,851 on the \$1,000,000 investment.

#### **CREATIVE OVERVIEW**

The Youth Occupant Protection campaign includes seat belt safety for teenagers (ages 15-20) and the proper usage and installation of child car seats for children younger than 8 years of age. The creative approach identifies an overarching strategy to address our campaign needs reinforcing personal accountability of teens to wear seat belts for every ride, either as a driver or passenger, and the importance of proper use and installation of child safety seats.

#### Teen Click It or Ticket

In 2023, the *Teen Click It or Ticket* flight debuted new video and radio spots both with :15 and :30, English and Spanish versions. The new TV spot featured an original "If You Love It, Click It" song that was utilized across other tactics of the campaign as detailed below. All TV and radio spots can be found on the TxDOT *Teen Click It or Ticket* driver page (<a href="https://www.txdot.gov/inside-txdot/media-center/psas/seat-belts/teen-clickit.html">https://www.txdot.gov/inside-txdot/media-center/psas/seat-belts/teen-clickit.html</a>.)

#### Television Spot

Using video and still images from the video spot, new digital components were developed to continue the message of "If You Love It, Click It" targeting teens via YouTube, Social Media, Display Ads, Mobile Gaming Display Ads, and Connected TV/OTT.

#### Display Ads

#### Snapchat Ad

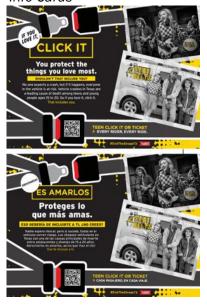

New posters, info cards and vinyl banner artwork were also created in 2023 in both English and Spanish versions and distributed statewide to Traffic Safety Specialists.

Info Cards

#### Vinyl Banners

#### **Child Passenger Safety**

This year's *Child Passenger Safety* campaign featured existing TV and radio assets both with :15 and :30, English and Spanish versions along with billboard creative. All creative assets point to SaveMeWithASeat.org where parents and caregivers can sign up for a free safety seat inspection. All existing assets can be found on the TxDOT *Child Passenger Safety* driver page (https://www.txdot.gov/safety/traffic-safety-campaigns/child-passenger-safety.html).

#### Television Spot

#### Billboards

Using video and still images from the existing video spot, new digital components were developed to continue the call to action to sign up for a free safety seat inspection at SaveMeWithASeat.org and reach parents and caregivers via Paid Social Media Ads on Meta platforms and digital display ads.

#### Display Ads

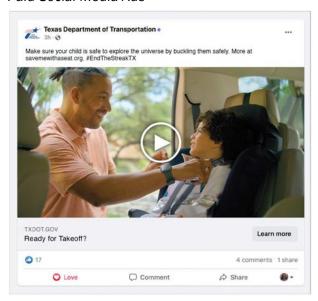

#### Paid Social Media Ads

Existing poster and info card artwork was used in 2023 for both English and Spanish versions and distributed statewide to Traffic Safety Specialists.

#### **Posters**

#### Info Cards

For grassroot events, this year's campaign expanded on the space themed creative with the launch of the "Are You Ready for Takeoff?" experience. New event assets featured a pre-flight checklist, the five common mistakes made when installing a safety car seat, an astronaut helmet photo prop and space themed photo opportunity. All creative elements led participants to SaveMeWithASeat.org to sign up for a free safety seat inspection.

#### Activation Footprint

#### Photo Frame Filter

#### Info Card

#### Astronaut Helmet

#### **WEBSITE OVERVIEW**

The SaveMeWithASeat.org website had a total of 38,882 views and 24,468 users in September 2023, the month of the Child Passenger Safety campaign flight. The Spanish version of the webpage saw a relatively high number of views of about 16,000 compared to about 20,000 views of the English page. The top three traffic acquisition categories were paid digital ads, direct URL entries and Facebook showing that these visitors came directly from paid digital tactics and word of mouth awareness of the website URL.

Jsers <b>24,468</b>	New Users <b>24,455</b>	Returning Users 2,637	Sessions 30,402	10%
Pageviews <b>38,882</b>	Sessions Per User 1.25	Avg. Session Duration  1m 24s	Bounce Rate 81.55%	90%

#### CHILD PASSENGER SAFETY - STATEWIDE SURVEY OVERVIEW

A Texas statewide survey among parents with children aged 8 or younger was conducted in 2023 to measure campaign awareness, confidence in proper safety seat installation and campaign message testing.

This survey was conducted August 10-20, 2023, among N=600 parents. A random sample of this type is likely to yield a margin of error of +4.1% in 95 out of 100 cases. Forty-five percent (45%) of all

respondents reported they were of Hispanic background, and 36% (all but 9%) confirmed that Spanish was spoken in the home.

The following summarizes the key findings:

- Parents across the state accept the premise of the argument that car seats save lives. That point is a good way to start out any message.
- Only 61% are aware that children 8 or younger must be in a car seat unless they are taller than 4'9"
- Almost everyone believes their car seat is installed correctly, but 24% are not positive. Twenty
  percent (20%) of parents eventually move away from their strident position, and these are the
  target audience for the campaign. Older women, Hispanics, lower income families and those
  residing in the South Texas and San Antonio media markets are key targets.
- Just over half (54%) report they have taken instruction or been to a seat installation facility, while just over half (51%) have seen, read or heard about installation facilities. Also, less than half of parents have heard of the Safe Riders Child Passenger Safety Program or SaveMeWithASeat.org. Exploring ways to increasingly drive families to these websites is all the more important because they tell us they look there for this critical information.
- The most influential message for parents is that families credit the use of car seats with saving lives. This lead message suggests the need for testimonials from individuals who look like our target audiences. Several points bolster the level of worry associated with the main message; including 1) nearly half of car seats are not installed properly, 2) there are five common installation mistakes, and 3) used seats should be avoided if the seat's history is not known.

#### **PUBLIC RELATIONS**

#### Teen Click It or Ticket

On Thursday, February 3, 2023, TxDOT kicked off the *Teen Click It or Ticket* campaign with a press conference in Houston, Texas. The press conference was held in the auditorium of Young Women's College Preparatory Academy, a local Houston high school. During the press conference, representatives from TxDOT were joined by Ugonna Ughanze, TxDOT Director Transportation Operations, Houston, Lt. Craig Cummings with the Department of Public Safety, Principal Tabitha Davis with Young Women's College Preparatory Academy, and Trustee Dr. Patricia Allen of Houston ISD who all were invited to share remarks about the campaign. Partnering with Texas AgriLife, the press conference was followed by an activation event that featured the rollover convincer, crashed truck trailer and digital truck displaying campaign messaging throughout the event. Still images and b-roll footage were captured at the event to accompany statewide pitching.

GDC developed the following press materials for Teen Click It or Ticket:

- Statewide Press Release (English & Spanish)
- Talking Points (English & Spanish)
- Media Alert (English & Spanish

#### **Child Passenger Safety**

On Friday, September 15, 2023, TxDOT kicked off the *Child Passenger Safety* campaign with a press conference at the Children's Museum of Houston. The event featured guest speaker Chris Cassidy, retired NASA Astronaut. Cassidy was chosen as a key guest speaker to launch the campaign's new "Are You Ready for Takeoff?" activation experience and encourage all Texas parents and caregivers to visit SaveMeWithASeat.org to schedule a free safety seat inspection. Along with Cassidy, the following guest speakers provided remarks: Dr. Maggi Gunnels from NHTSA and Dr. Howard Pryor with Texas Children's Hospital. TxDOT Director Transportation Operations, Ugonna Ughanze served as emcee for the press event and TxDOT Behavioral Traffic Safety Section Director, Letty Von Rossum also provided remarks on behalf of TxDOT. Still images and b-roll footage were captured at the event to accompany statewide pitching.

GDC developed the following press materials for Child Passenger Safety:

- Statewide Press Release (English & Spanish)
- Talking Points (English & Spanish)
- Media Alert (English & Spanish)

#### **GRASSROOTS**

#### Teen Click It or Ticket

The *Teen Click It or Ticket* campaign included stops in eight districts across the state. High school activations along with mobile tours in high traffic areas were key to sharing the crucial safety message of the campaign. Participants of each grassroot event were invited to view the crashed truck and rollover convincer (when available in the district) along with important campaign information. Campaign messaging included QR codes that took teens to teenclickitorticketpledge.org. After signing a pledge to always wear their seat belt, teens could enter a contest to win a new pair of Apple AirPods.

Teen Click It or Ticket grassroot events were held at the following locations across the state:

- 2/3/23: Houston, TX Young Women's College Preparatory Academy
- 2/6/23: Waco, TX Mobile tour route included five area high schools and additional high-traffic locations including a press stop at Cameron Park Zoo.
- 2/7/23: San Antonio, TX Harlandale High School
- 2/8/23: Austin, TX Navarro Early College High School
- 2/9/23: Fort Worth, TX North Crowley High School
- 2/10/23: Mesquite, TX Poteet High School
- 2/13/23: Elkhart, TX Slocum High School
- 2/14/23: Bryan, TX Mobile tour route included high-traffic locations throughout the district including a press stop at the TxDOT Bryan/College Station District Headquarters.

#### **Child Passenger Safety**

The *Child Passenger Safety* campaign included stops in eight districts across the state. Children's museums and high traffic local businesses were key to engage with the campaign's target audience of parents and caregivers. This year, TxDOT launched the new "Are You Ready For Takeoff?" space-themed activation experience. Campaign messaging featured a pre-flight checklist, the five common mistakes made when installing a safety car seat and led participants to SaveMeWithASeat.org to sign up for a free safety seat inspection. Participants also had the opportunity to take a photo with the space-themed backdrop and custom rocket ship seats. Through the use of a ring roamer camera, pictures were also branded with the campaign website SaveMeWithASeat.org.

Child Passenger Safety activations were held in the following cities across the state:

- 9/15/23: Houston, TX Children's Museum Houston
- 9/16/23: Beaumont, TX Jefferson County Precinct 4 Annual Health Fair
- 9/17/23: Tyler, TX Discovery Science Place
- 9/20/23: Hurst, TX Project Play Discovery Center and Children's Museum
- 9/23/23: Lubbock, TX Amigos
- 9/24/23: Amarillo, TX Don Harrington Discovery Zone and Space Theater
- 9/26/23: Brownsville, TX Children's Museum of Brownsville
- 9/28/23: San Antonio, TX The Doseum

## FY 2023 *Be Safe. Drive Smart.* Campaign October 2022–September 2023

One reportable crash occurred every minute on Texas streets and highways in 2022. Crash reports tell us that motorists were driving too fast, not paying attention, driving while impaired, failing to yield the right of way, and generally disregarding the rules of the road, including in areas of the state with challenging driving conditions due to work zones and oil and gas production-related traffic.

Although we saw a small decrease in the number of traffic fatalities from 2021 to 2022, an average of 12 people were killed on our state's roadways each day. Texas hasn't seen a day without a crash fatality since November 7, 2000.

Achieving TxDOT's goal of zero deaths on our roadways will take convincing Texans that the number of traffic crashes, fatalities, and injuries occurring in our state is unacceptable and it's their responsibility to do their part to help prevent these deaths and serious injuries.

An important part of this effort is TxDOT's annual, state-funded *Be Safe. Drive Smart.* campaign, which focuses on educating motorists about what it means to drive smart and motivating them to be safe drivers to reduce the odds of their causing or becoming one of Texas's roadway casualties.

The year-round campaign delivers practical safety tips to target audiences driving in these primary areas:

- Oil and gas exploration and production regions in West Texas, South Texas, and other shales across the state.
- Road maintenance and construction work zones along Interstate 35 and other major corridors.
- Challenging situations for motorists such as school zones, rainy or icy roadways, congested highways, and nighttime driving.

Be Safe. Drive Smart. calls on all Texas drivers to notice and respond to what's going on around them, whether it's slow-moving truck traffic; construction or emergency vehicles on the side of the road; weather conditions such as flash floods, fog, or snow; or kids walking or biking in school zones. It also asks drivers to always be conscious of the speed they're driving and the space they leave between their vehicle and the one in front of them. They must stay alert, keep emotions in check, and avoid driving when they're drowsy.

#### **Campaign Overview**

Texas is a huge state with more than 18 million licensed drivers. It's essential to the *Be Safe. Drive Smart.* campaign's success that our communication tools reach and motivate as many people as possible, as often as possible, to accomplish the following objectives:

- 1. Convince drivers to match the way they drive to road conditions.
- 2. Make drivers aware of their unsafe habits, emphasizing the importance of paying 100% attention when behind the wheel, driving a safe speed, and following the rules of the road.
- 3. Convey safety messages, advice, and tips that target audiences will remember and act upon.

The FY 2023 campaign heavily relied on targeted paid media, PSA placements, and earned media for the broadest and most repetitive exposure to campaign messages. Digital strategies, outreach, and interactive events also delivered safety reminders to key audiences. Each of the three main initiatives within the campaign—Energy Sector Safety, Work Zone Safety, and General Topics—had its own set of tactics and geographic targets.

**Energy Sector Safety.** Texas is the national leader when it comes to energy production. In parts of Texas where fracking occurs, ranchers, farmers, and other locals share the road with an abundance of big rigs

and oilfield service workers. When sharing the road with large trucks, motorists may experience limited visibility, changing road conditions, and less room to maneuver should they encounter a road hazard. Increased truck traffic also leads to more wear and tear on roads, posing more challenges to drivers.

In 2022, nearly 78,750 traffic crashes occurred in the state's five major oil and gas regions. These crashes resulted in 1,072 fatalities—one-quarter of all Texas traffic deaths. Another 3,495 people suffered serious injuries.

Energy Sector campaign activities aimed at alerting motorists to take proactive steps to drive safely in the targeted shale areas included paid media flights in the fall and summer, a media relations tour to secure earned media coverage, special events at high school football games, and the sharing of educational materials.

Work Zone Safety. There are as many as 3,300 active road construction and maintenance projects in the state each year, and many of the largest projects are along congested I-35. Driving through work zones can be challenging because of temporary barriers, uneven or narrow lanes, slow-moving equipment, and vehicles that make sudden stops.

Road conditions like these force drivers to slow down and pay closer attention, a fact that crash statistics prove is often ignored by impatient, reckless, and distracted drivers. In 2022, 205 people lost

their lives and another 788 were seriously injured in crashes in Texas work zones. The majority of those killed (85%) were drivers or their passengers.

TxDOT's efforts in 2023 to raise awareness of the importance of driving cautiously in work zones kicked off with an April press conference and statewide news release and included paid media flights in the spring and summer to deliver safety messages to locals and travelers along I-35 and other major corridors, especially in areas with active highway maintenance and construction activity.

General Topics. Regardless of where drivers find themselves and what they must contend with, their safety—and everyone else's—depends on their making smart choices. The alarming number of deaths on Texas roadways means that the *Be Safe*. *Drive Smart*. campaign must use multiple touchpoints throughout the year to reach a broad audience of drivers on a variety of traffic safety concerns, including those not traditionally covered by the federally funded distracted driving, occupant protection, and distracted driving initiatives.

Through public relations, PSA placements, and outreach, TxDOT's Be Safe. Drive Smart. campaign is able year after year to successfully generate earned media coverage and deliver traffic safety reminders. In FY 2023, TxDOT conducted statewide news media outreach, shared messages on social media, distributed educational materials, and secured free airtime for television and radio PSAs on topics ranging from safety in school zones to winter weather driving, aggressive driving, and the state's Move Over/Slow Down law.

#### **Creative Overview**

Although *Be Safe. Drive Smart.* comprises separate mini-campaigns with distinct geographic targets, creative materials share the same branding and overarching messages: drive a safe speed, follow the rules of the road, and give driving the full attention it deserves. All materials produced in Spanish use the tagline *Maneja Listo. Maneja Seguro*.

Energy Sector Safety. Since 2019 TxDOT has used iconic Texas longhorns to deliver key safety messages in the state's energy areas. A new, bilingual "Cow-versation" campaign developed for paid media and outreach in FY 2023 uses bovine puns to continue the campaign's tongue-in-cheek approach and includes TV spots, billboards, digital and social media advertising, and print collateral. The campaign's focus is on driving behaviors that are the leading causes of fatalities in these areas: driving too fast and driving distracted. The campaign also reminds drivers to give plenty of space to the heavy, large trucks so prevalent in these target markets.

"Cow-versation" TV spot in English and Spanish

Billboards

Work Zone Safety. We refreshed the campaign's out-of-home and digital creative materials with new headlines and faces in 2023. Incorporating photos of TxDOT employees in hard hats and other safety gear adds an appealing human element to the safety messages reminding drivers to slow down and put their phone away in work zones. These workers thank you for driving safe since they also want to get home safe at the end of the day. Information cards, posters, and banners also use the familiar yellow and black graphic look and feel of the campaign to support statewide outreach efforts to raise awareness of the importance of driving with care through work zones and to remind drivers that traffic fines double when workers are present.

Billboards and gas station pumptopper

Info card

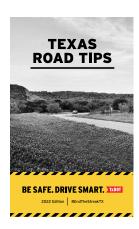

**General Topics.** TxDOT used a mix of existing, updated, and new creative assets and collateral to educate motorists about safe driving topics in FY 2023, executing the following:

Produced new 30-second TV and radio back-to-school PSAs in English and Spanish to support efforts to get motorists to follow all traffic laws in school zones. Kids walking and biking to school aren't always as easy to see as the animated, glowing monsters in the TV spot, so we need to watch out for them. Working with the Texas Association of Broadcasters, the spots received free airtime from stations across the state in 2023, along with existing

- spots on aggressive driving and the Move Over/Slow Down law.
- Created and distributed new, back-to-school information cards and posters for TxDOT traffic safety specialists (TSSs) to share with schools and at outreach events.
- Used existing and new creative for organic social media posts on TxDOT's Facebook and Twitter pages about the Move Over/Slow Down law, "Turn Around, Don't Drown" awareness, and back-toschool safety.

Distributed the latest edition of the Texas Road Tips Handbook, a 24page easy-to-read guide to Texas traffic laws, tips, and advice on
sharing the road safely. The booklet has been shared with campaign
partners such as Texas Mutual Insurance, the Permian Road Safety
Coalition, and the Texas Municipal Courts Education Center and
distributed at campaign events, safety conferences, sporting events,
and community colleges.

## Paid Media

Paid broadcast, out-of-home, and digital media advertising for the Be Safe. Drive Smart. campaign has

always been concentrated in the five high-risk oil and gas regions and the I-35 corridor. For the past two years, outdoor and gas pumptopper placements for work zone safety messaging have been expanded to include additional highway corridors around the state. Digital media placements focused on video ads because, historically, cost-efficient video completions and engagements lead to higher campaign message recall.

In addition, the Texas Association of Broadcasters (TAB) distributed PSAs on behalf of the campaign and asked for placements from all Texas TV and radio stations, reaching every corner of the state including major and rural markets. The PSAs included English and Spanish spots addressing aggressive driving and the Move Over/Slow Down law plus new spots on back-to-school safety. TAB charges a distribution fee and guarantees a minimum 4:1 return on investment. The end result was far better. Over a total of 18 weeks, stations broadcast 53,752 spots, donating more than \$2.7 million in airtime and providing TxDOT a 19:1 return on the investment.

Out-of-Home	Outdoor/billboards in English and Spanish at 72 locations in flight #1 and 71 locations in flight #2 in targeted counties in the 5 energy regions	\$248,749.00	140,148,001		
Out-of-Home	Gas station TV placements in English and Spanish at 306 locations in flight #1 and 336 locations in flight #2 in targeted counties in the 5 energy regions	\$72,589.00	3,411,232		
General Topics					
TAB Partnership	Three 6-week flights of TV and radio PSAs distributed by the Texas Association of Broadcasters; statewide; total of 53,752 spots aired	\$150,000.00	49,512,390		
TOTAL		\$1,636,237.94	503,248,341		

The paid media plan targeted a minimum of 287,615,000 impressions and exceeded the target by 75%, delivering a total of 503,248,341 impressions.

### **Public Relations Activities**

The approach to public relations for the campaign is to prepare compelling and comprehensive media kits that make it easy for news directors and reporters to build their stories. The campaign also supports and coordinates with TxDOT's district public information officers (PIOs) and TSSs to secure publicity for each safety topic in local markets. The overall goal is to reach Texas drivers frequently and through many outlets with a variety of *Be Safe. Drive Smart.* messages.

TxDOT held its annual **Work Zone Safety** press conference to recognize National Work Zone Awareness Week at the Austin District Office on April 17. The event featured speakers from the Texas Department of Public Safety, the Austin Police Department, Austin-Travis County EMS, and TxDOT, including a TxDOT maintenance supervisor who attested to the hazards faced by road crews in work zones. Austin's NBC, ABC, CBS, FOX, Univision, Telemundo, and Spectrum News affiliates covered the event.

Behind the podium at the Work Zone Safety press event were 205 orange traffic barrels representing the number of men, women, and young people killed in Texas work zone traffic crashes in 2022.

The campaign also garnered substantial amounts of earned media coverage around the state via the distribution of a media kit including a news release in English and Spanish, B-roll package, sound bites, and localized crash statistics plus the setup of news interviews with TxDOT's PlOs. Local work zone week activities conducted by district PlOs and TSSs were also promoted and resulted in news stories across the state. The April media tour generated a total of 450 news stories with a PR value of \$2,456,835.08.

PR activities for the **Energy Sector** campaign were concentrated in October with the distribution of a media tip sheet and B-roll footage and requests to news outlets for help in asking motorists to slow down, share the road safely with big trucks, and stay alert to prevent deadly crashes in the state's five main energy production areas. The media relations efforts resulted in 169 TV, online, and print news stories valued at \$85,068.56.

TxDOT also conducted a series of "Friday Night Lights" outreach events at high school football games to engage with drivers of all ages in the Permian Basin and Eagle Ford Shale, which both saw increases in the number of traffic crashes and fatalities from 2021 to 2022. Events featured the *Be Safe. Drive Smart.* Road Show trailer equipped with large screens to display campaign videos, VR games, and interactive quizzes. Local media advisories were distributed ahead of the events to secure news coverage.

Energy Sector Outreach Events Fall 2022				
Date	City	Shale Area	Total Number of Engagements	
Oct. 21	Laredo	Eagle Ford Shale	5,002	
Oct. 27	Eagle Pass	Eagle Ford Shale	8,382	
Oct. 28	Fort Stockton	Permian Basin	4,709	
Nov. 4	Odessa	Permian Basin	2,939	
Nov. 10	Midland	Permian Basin	4,035	

For **General Topics** the campaign created four safe driving news/outreach packages with media tip sheets, talking points, video, and educational materials in English and Spanish. These packages were designed to assist TxDOT's PIOs and TSSs throughout the year in educating Texas drivers about specific causes of crashes, tips on how to prevent them, and rules of the road. The FY 2023 topics included aggressive driving, winter driving, "Turn Around/Don't Drown" awareness, and the Move Over/Slow Down law.

TxDOT distributed a media tip sheet, talking points, and B-roll to promote **back-to-school safety** in August and secured local news interviews to get the word out about this important safety topic. Media pitching efforts around the state's secured 217 news hits valued at \$1,664,825.17.

Back-to-school info card and poster

# **Overall Campaign Value**

Earned media in FY 2023 resulted in \$4,206,728.81 in added value and 60,859,853 impressions. Paid media generated \$4,375,160.00 in added value and 503,248,341 impressions. The *Be Safe. Drive Smart.* campaign delivered \$8,581,888.81 in total added value on the \$2,605,621.63 investment.

Match - FY 2023 Be Safe. Drive Smart. Campaign

# DRIVE SOBER. NO REGRETS.

#EndTheStreakTX TxDOT

FY 2023 *Drive Sober. No Regrets.* Campaign October 2022 – September 2023

# **Campaign Overview**

The *Drive Sober. No Regrets.* campaign aims to save lives and reduce crashes among Texans. It emphasizes the fact that drunk driving can have serious physical, emotional, and financial consequences that can last for years. A DWI can cost thousands and cause legal hassles, difficulty finding or keeping a job, shame and embarrassment, loss of trust from loved ones, and a lifetime of regret. The human toll of a DUI crash can devastate the lives of victims and survivors forever.

The *Drive Sober. No Regrets.* campaign shares personal accounts from real offenders and survivors that challenge any notion the audience may have that they can avoid the consequences of drinking and driving. It reinforces the importance of always finding a sober ride and the many options available.

The campaign is a key component of #EndTheStreakTX, a broader social media and word-of-mouth effort that encourages drivers to make safer choices while behind the wheel such as wearing a seat belt, driving the speed limit, never texting and driving, and never driving under the influence of alcohol or other drugs. November 7, 2000, was the last deathless day on Texas roadways. #EndTheStreakTX asks all Texans to commit to driving safely to help end the streak of daily deaths on Texas roadways.

- Tagline: Drive Sober. No Regrets.
- Website: SoberRides.org
- Call-to-action: Always find a sober ride.

The campaign creative changes throughout the year to match key timeframes when impaired driving messages are most critical. Four flights a year highlight heightened law enforcement periods.

- Flights include:
  - 1. Football Season (October, November, January)
  - 2. Christmas/New Year Holiday (enforcement period) (December)
  - 3. College and Young Adult/Spring Break (enforcement period) (March)
  - 4. Spring Holidays (May)
  - 5. Faces of Drunk Driving/July 4th (enforcement period) (June, July)
  - 6. Labor Day (enforcement period) (August, September)

Through a combination of targeted paid media, strategic media relations, interactive special events, digital and social media strategies, proven outreach activities, and statewide partnerships, the campaign addresses the complex challenges of reducing impaired driving by meeting the target audience where they are most likely to consume and retain campaign messaging.

- Core activities:
  - Develop new testimonial videos and audio spots using existing Spanish stories for use in advertising and toolkits.
  - Develop paid and organic social media and other digital and online streaming advertising.
  - Develop digital toolkits and print collateral, such as outdoor mesh banners, posters, info cards, and spiral notepads (large and small) for partner outreach.
  - Coordinate and manage all paid placements, including online OTT/CTV streaming; Learfield Sports; digital radio; social media; other digital advertising; out-of-home advertising such as billboards and convenience store posters and clings; and outreach posters, coasters, and mirror clings at bars and restaurants.
  - Engage in a statewide TV and radio PSA distribution program.
  - Conduct an online social media influencer program for peer-to-peer delivery of messages.
  - Create news releases, talking points, Q & A's, media advisories, and b-roll; conduct statewide media pitching tours.
  - Enlist traffic safety specialists (TSSs), public information officers (PIOs), and other community partners and stakeholders to assist with the distribution of campaign messages and assets.
  - Conduct surveys online and individual in-depth interviews to gather target audience responses to the campaign in real time.
  - Update campaign websites including SoberRides.org and the traffic safety campaign pages of the TxDOT website, as well as the campaign YouTube channel.
  - Coordinate and conduct outreach events statewide where visitors are invited to watch
    testimonials on a large video exhibit, experience the drunk driving simulator and other
    onsite activities through "drunk goggles," and learn about the real costs of drunk driving.

## **Paid Media and Added Value**

TxDOT invested about \$1,786,600 in paid media in FY 2023, or 48% of total campaign expenditures. It garnered more than \$7,792,000 in added value. The campaign used traditional and digital paid media placements to reach Texas drivers ages 18 to 34 statewide and in key counties with the highest number of alcohol-related crashes and fatalities, including all of Texas's major cities.

Media Flight Dates: October 1, 2022, through September 30, 2023

Target Audiences: Primary—Special emphasis on reaching those most at risk for

causing an impaired driving crash: young adults between the ages of 18 and 34, especially males and drivers who are 21–26 years

old.

Secondary—Texas drivers age 35+.

Markets: Statewide, with emphasis on the 10 Texas counties with the

highest number of alcohol-related crashes and fatalities,

including all of Texas's major cities.

Added value: bonus TV and radio spots (online streaming and broadcast), billboard override exposure, bonus "bars to cars" locations, added Learfield impressions, bonus convenience store locations, and negotiated rate discounts.

# Paid Media Recap - FY 2023 Drive Sober. No Regrets.

Media:

In the following table, the total number of impressions includes paid impressions and added-value (bonus/override) impressions negotiated with the media buys.

For the campaign, the Texas Association of Broadcasters (TAB) distributed a series of TV and radio PSAs to stations across the state. TAB charges a distribution fee and guarantees a minimum 4:1 return on investment. The end result was far better. Over a total of 24 weeks, stations broadcast 108,625 TV and radio PSAs valued at more than \$5,972,000 in airtime, well over the minimum guarantee.

Media	Description	Budget	Impressions	Added Value
TV/Radio	TAB :15 and :30	\$200,000.00	126,547,971	\$5,972,077.00
Digital	OTT/CTV, digital radio, Facebook/Instagram, dating app ads, Twitter, TikTok, YouTube, mobile video	\$676,700.00	40,536,918	\$0
Out-of- Home	Billboards, Bars to Cars, convenience stores, Learfield	\$725,125.00	263,669,452	\$1,820,844.00
Influencers	Social media influencer content creation and boosting	\$184,800.00	5,604,476	\$0
TOTAL		\$1,786,625.00	436,358,817	\$7,792,921.00

The TV PSAs aired in the following markets:

- Abilene-Sweetwater
- Amarillo
- Austin
- Beaumont-Port Arthur
- Corpus Christi
- Dallas-Fort Worth
- El Paso
- Houston
- Laredo
- Lubbock

- Odessa-Midland
- Rio Grande Valley
- San Angelo
- San Antonio
- Sherman
- Texarkana
- Tyler-Longview
- Victoria
- Waco-Temple-Bryan
- Wichita Falls

The radio PSAs aired in the following markets:

- Austin
- Dallas-Fort Worth
- Houston
- Rio Grande Valley
- San Antonio

# **Creative Overview**

Woven throughout all *Drive Sober. No Regrets.* creative materials are the campaign's overarching message to drivers: "Drunk driving isn't worth the risk. Always find a sober ride—there are many options available." Each flight throughout the campaign had seasonal creative to increase relevancy to the target audience. Below are creative examples for each flight in FY23. All billboards and print collateral were produced in English and Spanish—only English is shown below.

(see next page)

# Football Season (October/November/January)

Football season is time for tailgating, watch parties, or hanging out at a sports bar to watch the game. Many fans of both college and NFL teams choose to drink while watching, which can lead to drinking and driving once the game is over. Messaging during this flight motivated fans to get a game day plan and always find a sober ride.

# **Holidays (December)**

People often get together over the holidays to celebrate with friends, family, and coworkers. These celebrations can turn tragic when someone gets behind the wheel after consuming alcohol or other drugs. During the Holiday campaign, messaging encouraged drivers to always find a sober ride and reiterated the consequences of drunk driving. It often featured the new holiday animated TV spot creative. This flight ran during a heightened enforcement period.

# Faces of Drunk Driving (June/July)

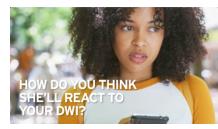

For this flight, messaging focused on the human toll of driving impaired by showing the real consequences for the survivors, families, offenders, and others whose lives have been forever changed by drunk driving. The timeframe also included the Fourth of July, a holiday with heightened law enforcement.

# Labor Day (August/September)

Since the Labor Day season is a prime time for college celebrations and end-of-summer/back-to-school festivities—which may include impaired driving—it can also be a very dangerous time for our audience. Messaging for this flight focused on these holidays and life-stage milestones. It was also a time of heightened law enforcement.

# **Public Relations**

It's important that the campaign reaches Texas drivers frequently and through many outlets with messages about the importance of always finding a sober ride, and earned media helps do that. In FY 2023, media relations efforts included conducting press activities and outreach events, generating media stories about the consequences of impaired driving, and developing a series of news packages to promote campaign messages.

The *Drive Sober. No Regrets.* FY23 public relations efforts began with talking points and media advisories for the Football season campaign. News releases were also developed preceding statewide pitching over the Holiday, College/Spring Break, Faces of Drunk Driving, and Labor Day campaigns. All of the campaigns listed above, except Labor Day, also had complementary outreach events. The Labor Day campaign held only a press conference, but efforts focused on lawenforcement and were invited to help produce soundbites. To support the media pitching tours, media advisories, b-roll, soundbite packages, and talking points for TxDOT public information officers were developed and distributed. A press

Labor Day press event

template was also developed for law enforcement agencies to use for each campaign that fell over a heightened enforcement period. The public relations efforts resulted in 2.142 TV, radio, online, and print ne

public relations efforts resulted in 2,142 TV, radio, online, and print news stories valued at \$11,749,824.20.

### **Grassroots Outreach Events**

To motivate drivers to always find a sober ride, the FY23 campaign planned, launched, and hosted 28 events statewide over five campaigns. At the outreach events, the more than 628,000 visitors were invited to immerse themselves in watching real stories told by offenders and survivors who have suffered the consequences of drunk driving. Observers shared the experience by viewing a large, freestanding, LED video wall playing testimonials and tried their hand at activities such as a DWI simulator and playing cornhole and basketball while wearing drunk goggles.

Visitors could also scan a QR code to watch more stories, get tips on finding a sober ride, and learn more about the real costs of drunk driving.

Outreach event setups for Holiday and other campaigns

More than 27,850 people interacted with trained brand ambassadors at the events and, as thanks for engaging with staff, 1,877 visitors also received a rideshare coupon that they could use the next time they drank to ensure they arrived home safely.

Below is a detailed summary of each outreach event and the press events.

				2111		t

# **Partnerships**

Partnerships are critical to expanding the reach of the campaign. Traffic safety specialists (TSSs), public information officers (PIOs), law enforcement agencies, and other community partners such as U in the Driver Seat, Teen in the Driver Seat, Texas A&M AgriLife, The University of Texas at Austin, Texas Tech, and Texas A&M University all worked together to promote campaign messages and make the campaign a success.

With access to our digital campaign toolkit, partners were encouraged to share social media posts, attend events, and download print collateral to help reach a larger audience and bring awareness to the campaign. TSSs/PIOs also ordered physical print collateral—posters, notepads, mesh banners, and info cards—and helped distribute materials locally.

A separate digital campaign toolkit was also created for Texas law enforcement agencies to promote each campaign during heightened enforcement periods. It included social posts, images and video, print collateral for download, and a press release template for local use.

# **Overall Campaign Value**

Earned media resulted in \$11,749,824.20 in added value and 203,691,091 impressions. Paid media match resulted in \$7,792,921.00 in added value and 436,358,817 impressions. In total, the Statewide Impaired Driving Campaign delivered \$19,542,745.20 in added value with its \$3,739,376.61 investment.

# FY 2023 Pedestrian and Bicyclist State Laws Campaign October 2022-September 2023

In 2021, 935 people died in pedestrian- and bicyclist-related traffic crashes in Texas, accounting for one out of every five of all fatalities on state roadways. Across the country and in Texas, roads have become less safe for people on foot or on a bike. In the five-year period from 2017 to 2021, pedestrian fatalities resulting from traffic crashes rose 34% and bicyclist fatalities increased 58%.

With NHTSA 405(h) funding, TxDOT has conducted an annual, statewide public awareness campaign to address an important cause of the increases in crashes and fatalities: people's widespread failure to follow state laws designed to protect people walking or biking. The top contributing factors in pedestrian-involved crashes in Texas in 2021 were a) pedestrian failure to yield right of way, b) driver failure to yield right of way to a pedestrian, c) driver inattention, and d) speed. Alcohol impairment was reported in one of every four fatal pedestrian crashes. Driver inattention and failure to yield right of way were also top factors in crashes involving bicyclists.

Using paid media, public relations, and outreach, TxDOT's campaign reminds Texans of their responsibility to protect themselves and others by following the rules of the road for safe driving, walking, and biking. Ultimately, the goal is to reduce the number of pedestrian and bicyclist traffic fatalities and injuries.

FY 2023 campaign activities were concentrated in March and included the following:

- Bilingual paid media including four weeks of television, radio, outdoor, and transit advertising in the state's largest markets where most of the crashes and fatalities occur. The campaign also included statewide gas pump and digital media placements.
- Development and distribution of a statewide news release and two weeks of pitching to news outlets across the state to maximize earned media coverage.
- Distribution of public education materials to traffic safety specialists in TxDOT's district offices.
- Production of creative and earned media materials in Spanish to support the campaign's efforts to reach the 20% of Hispanics in Texas who are Spanish-language-dominant and those who consume Spanish-language news.
- Street team activations in six markets, each featuring four people outfitted as walking billboards promoting traffic safety laws in busy locations where motorists, pedestrians, and cyclists encounter each other.

## **Creative Overview**

The campaign's extensive inventory of English and Spanish creative assets—TV spots, radio liners, out-of-home and digital ads, and print collateral—educates Texans about pedestrian and bicyclist state traffic

laws in ways that clearly relay what we want them to do. The campaign also sets out to raise awareness of common crash scenarios where pedestrians and cyclists are most at risk. Depending on the target audience for each ad, the corresponding tagline reminds them to: Be Safe. Drive Smart., Be Safe. Walk Smart., or Be Safe. Bike Smart.

TxDOT produced new billboard and transit artwork this year with bold headlines and illustrations to communicate specific pedestrian and bicyclist safety laws to target audiences in the state's largest markets while they're behind the wheel, walking down the street, or riding their bike. Spanish-language creative materials include the following taglines: *Maneja Listo. Maneja Seguro.* (for drivers), *Camina Listo. Camina Seguro.* (for pedestrians), and *Ciclista Listo. Ciclista Seguro.* (for cyclists).

These poster billboards were placed along busy local roads and surface streets to ensure the campaign's key messages would be seen by pedestrians, drivers, and cyclists.

The concept for the campaign's "You vs. You" series of 30- and 15-second TV spots comes from the reality that each of us at times may be a driver, pedestrian, or cyclist and therefore relying on others to follow traffic safety rules, stay alert, and pay attention to what's happening on the road. In the spots, the same actor plays both roles—the driver/pedestrian or driver/cyclist. What better way to get target audiences to respect each other than to help them see that sometimes they're on one side of the windshield, stop sign, or intersection and sometimes they're on the other?

"You vs. You/Driver" TV spot

The TV spots are also used on digital media platforms to reach audiences across the state and on video screens at gas station pumps to be viewed by motorists while they're refueling and driving is top of mind.

Gas station TV advertising

### Paid Media

The campaign's media mix reflects the need to reach and draw the attention of all types of road users—motorists, pedestrians, and cyclists—as all have a responsibility to be safe on Texas roadways and obey traffic laws. A special focus for the campaign are the state's major cities. In 2021, most of the crashes in which a pedestrian or bicyclist died occurred in an urban area: 70% of fatal pedestrian crashes and 69% of fatal bicyclist crashes.

The paid media campaign launched on March 6, 2023, with TV, radio, billboard, gas station TV (GSTV), transit, and digital media advertising and delivered more than 374 million impressions.

Out-of-Home	Gas station TV (GSTV), 15-second spot; 723 locations in flight #1 and 446 locations in flight #2; statewide	\$92,700.00	5,935,603	
Out-of-Home	Transit bus "Kings" in English and Spanish; 317 bus panels (including 25 bonus) in Austin, Dallas, Fort Worth, and San Antonio	\$111,820.00	48,055,845	
TOTAL		\$1,405,734.47	374,880,879	

The paid media plan targeted a minimum of 209,546,850 impressions and exceeded the target by 78.9%, delivering a total of 374,880,879 impressions.

## **Public Relations Activities**

TxDOT conducted an aggressive, two-week earned media effort in March 2023. A statewide news release, supporting B-roll package, and sound bites from the parents of a teenager who was struck and killed while walking his bike in a crosswalk were developed to enlist the help of local news media in educating target audiences about the rules of the road and reminding Texans that every traffic death robs a family and a community. TxDOT's public information officers were also armed with campaign talking points to prepare for news interviews. The news release and talking points were translated for Spanish-language media and interviews.

Media relations also supported TxDOT's efforts to raise awareness of the Lisa Torry Smith Act (SB 1055), which went into effect in 2021 and requires drivers to "stop and yield the right of way" to pedestrians, cyclists, and other vulnerable road users in a crosswalk. The law also provides criminal penalties for motorists who fail to stop and yield and cause serious injury to someone who is legally using a crosswalk.

Statewide media relations activities resulted in 433 TV, radio, online, and print news stories with an earned media value of \$1,603,395.70.

# **Grassroots Outreach**

**Street Teams.** To draw attention to the campaign at street level, TxDOT deployed four-person teams—outfitted as walking billboards—in six cities across Texas: Austin, Corpus Christi, Dallas, Houston, McAllen, and San Antonio. The teams canvassed shopping areas and busy downtown streets during morning and

evening commute times with safety messages visible to thousands of passing motorists, pedestrians, and cyclists.

Their new English and Spanish backpack signs included a QR code that could be scanned by cell phones to open campaign web pages on pedestrian and bicyclist safety.

The street team activations also generated local news hits, as media advisories sent ahead of the events successfully encouraged media outlets to send cameras to cover them.

Houston's KTRK-TV/ABC covered the street team activation near the Galleria.

**Social Media.** TxDOT produced organic posts for its Facebook and Twitter pages using the campaign's TV spots and attention-getting GIFs built from graphics used in print materials.

Social media GIF

*Print Collateral.* New versions of the campaign's bilingual pedestrian- and bicyclist-focused information cards, posters, and banners were produced and distributed to TxDOT traffic safety specialists to support grassroots education and outreach.

Walk Safe and Bike Safe info cards

# **Overall Campaign Value**

NHTSA's 405(h) grant to TxDOT to raise awareness of pedestrian and bicyclist state traffic laws required a 20% funding match; however, the campaign far exceeded the minimum match. Earned media resulted in \$1,603,395.70 in added value and 20,005,553 impressions. Paid media generated \$1,581,610.00 in added value and 374,880,879 impressions.

The Pedestrian and Bicyclist State Laws campaign delivered \$3,185,005.70 in total added value on the \$1,746,472.26 investment.

# Slow down. Stop at crosswalks. Watch for pedestrians.

BE SAFE. DRIVE SMART. TX00T

# FY 2023 Pedestrian Safety Campaign October 2022-September 2023

Pedestrian fatalities in Texas rose 34% from 2017 through 2021 and now account for nearly one in five of all deaths on the state's roadways. Because they lack the protective equipment common to vehicles such as airbags, seat belts, and bumpers, pedestrians are especially vulnerable in a crash. In 2021 alone, more than 5,300 traffic crashes in Texas involved pedestrians, and they resulted in 843 fatalities and 1,467 serious injuries.

Crash reports indicate that the most common factors in traffic incidents involving pedestrians in Texas are 1) pedestrians failing to yield the right of way and putting themselves in the path of oncoming vehicles, 2) drivers failing to yield the right of way to pedestrians, 3) driver inattention, and 4) motorists driving too fast. In addition, alcohol impairment was reported in 27% of fatal pedestrian crashes in 2021.

TxDOT's pedestrian safety campaign aims to reduce the alarming trend in pedestrian fatalities by calling on drivers and pedestrians to look out for each other and follow all traffic laws, signs, and signals.

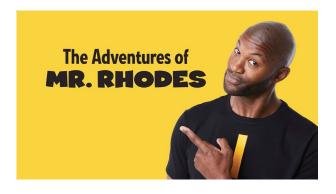

The Be Safe. Drive Smart. / Be Safe. Walk Smart. FY 2023 campaign combined paid traditional and digital media with public relations and outreach components to deliver safety messages to target audiences throughout the state. Campaign activities, which were concentrated during National Pedestrian Safety Month in October 2022, included the following:

- A seven-week, bilingual paid media flight in all Texas media markets with television, radio, outdoor, digital, transit, theater, and gas station TV advertising (GSTV).
- News releases in English and Spanish, and media pitching to news outlets around the state to maximize earned media coverage.
- Distribution of public education materials to TxDOT district offices and campaign partners.
- Multiple street team "walking billboard" activations in 10 cities, delivering safety messages in high traffic areas where drivers and people on foot would see them.
- An additional flight of paid digital advertising in August 2023, coinciding with TxDOT's back-toschool safety initiative.

Pedestrian safety is dependent on the unspoken partnership that exists between a driver and a pedestrian. Each has the responsibility to safely share the road with the other. That means we need Texans—whether driving or walking—to follow the rules of the road, pay attention, and watch out for each other. By educating the public about the importance of traffic behaviors that keep pedestrians safe, TxDOT intends to reduce the number of pedestrian-involved traffic crashes, fatalities, and injuries.

# **Creative Overview**

The creative campaign TxDOT produced in FY 2022 features a character named Mr. Rhodes (Sr. Calles in Spanish) who jumps into traffic situations to ensure that people who are driving or walking are making safe choices. In TV and radio spots his sunny outlook, good humor, and enthusiastic celebrations when a driver or pedestrian does the right thing reflect the fact that the people he encounters don't want to hurt anyone or get hurt. But they do need reminders to pay attention and follow basic rules of the road.

Mr. Rhodes/Sr. Calles can also be seen in digital ads and outreach materials urging drivers and pedestrians to watch out for one another.

Mr. Rhodes Digital Ads

Out-of-home creative for billboards and transit ads deliver specific reminders about how to be safe on the road, including stopping for pedestrians in crosswalks and waiting for walk signals before crossing the

street. Spanish-language creative materials include the following taglines: *Maneja Listo. Maneja Seguro.* (for drivers) and *Camina Listo. Camina Seguro.* (for pedestrians).

# Reduce la velocidad. Para antes del cruce peatonal. Cuidado con los peatones.

MANEJA LISTO, MANEJA SEGURO, TXDOT

#EndTheStreakTX

# Use crosswalks. Wait for walk signals. Be seen.

BE SAFE. WALK SMART. IXDOT

#FraTheCharleTV

Transit Ads

Paid Media

The campaign's main seven-week, multiplatform paid media flight combined high-frequency TV ads to generate broad awareness with radio and out-of-home placements to reach drivers in their vehicles and pedestrians walking down the street, when the safety messages are particularly relevant. For paid digital and social media, emphasis was placed on video ads and digital TV (OTT/CTV) to capture audience attention and engagement with the messages.

Spanish ads were distributed for most media placements to support the campaign's efforts to reach the 20% of Hispanics in the state who are Spanish-language-dominant as well as bilingual Texans.

The paid media campaign, with messages targeting drivers and pedestrians, launched October 3 in all Texas media markets and delivered more than 360 million impressions.

The paid media plan targeted a minimum of 197,847,200 impressions and exceeded the target by 83%, delivering a total of 362,043,895 impressions.

# **Public Relations Activities**

TxDOT kicked off National Pedestrian Safety Month with a statewide news release in English and Spanish, reminding drivers to be especially careful watching out for pedestrians in the fall as days get shorter and visibility becomes an issue. October was the month with the highest number of pedestrian fatalities and serious injuries in 2021–90 deaths and 155 serious injuries.

The campaign's press kit also included a B-roll package highlighting key safety tips for drivers and pedestrians and an op-ed from a member of the PR team who survived being struck by a driver while walking in a crosswalk. The op-ed and its powerful, first-person account of a pedestrian crash appeared in eight daily newspapers around

# Crash victim addresses need for pedestrian safety

As a PR practitioner focused on pedestrian and traffic safety campaigns for the past 30 years, I've

Robert Nash

worked with dozens

this, it was still quite shocking to be a victim myself, three years ago, in a crash that could have cost crash that injured me was just one of 5,976 traffic crashes involving pedestrians in 2019. Though I was injured, I was lucky: I survived. Similar crashes killed 662 pedestrians that year. What's more, from 2017 to 2021, pedestrian fatalities resulting from traffic crashes increased a whopping 33%.

Trom traine crasses increased a whopping 33%.

The motorist who hit me almost didn't stop. They rolled down their car window and asked, "Do you think he's OK?" and then prepared to drive off. The driver claimed that I'd jumped in front of the vehicle.

Thankfully, security video obtained from a taco truck on the corner

someone in a crosswalk can face criminal penalties. Although it's been three years

Although it's been three years since my crash, I can still feel where my ribs were broken, and you can see the scars on my forehead and nose. My right thumb is only about half as functional as it was before that night. Joe and I both experienced PTSD following the crash.

I am sharing this story because what happened to me can happen to any pedestrian. I implore people behind the wheel to slow down, put away your cell phone, obey traffic signals and be mindful that pedestrians aren't built with airbags

the state, including *The Dallas Morning News* and the *San Antonio Express-News*. To prepare them for news interviews generated over the two-week media pitching period, TxDOT's district public information officers (PIOs) were armed with campaign talking points in English and Spanish.

Media relations efforts in October 2022 resulted in 426 TV and radio, 75 online, and 51 print news stories with a total earned media value of more than \$2.4 million.

## **Grassroots Outreach**

*Street Teams.* TxDOT's pedestrian safety initiatives in October also included a series of street team activations in the 10 TxDOT districts where 80% of Texas pedestrian fatalities occurred in 2021.

Four-person teams of "walking billboards" carried safety messages in English and Spanish along busy corridors and gathering areas in Austin, Beaumont, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, McAllen, San Antonio, and Tyler.

The campaign worked with traffic safety specialists (TSSs) in TxDOT's district offices to identify more than 30 locations where the walking billboards would be highly visible to motorists and pedestrians, especially during morning and evening commute times.

Over a two-week period, the street teams interacted with 45,825 people, and by distributing media advisories and inviting reporters to cover the street teams, TxDOT successfully leveraged these events to generate valuable earned media, including multiple live shots on local TV news.

**Social Media.** In addition to paid social media ads, TxDOT produced organic posts for its Facebook and Twitter feeds using the campaign's TV spots and other creative assets. Street team images were also provided to district PlOs to use to promote the activities on district Twitter accounts.

**Print Collateral.** The campaign updated its bilingual pedestrian safety information cards and posters featuring spokes-character Mr. Rhodes/Sr. Calles and distributed thousands of them to TSSs across the state to support grassroots education and outreach.

#### FY 2023 Speeding Public Education and Awareness Campaign October 2022–September 2023

Motorists driving over the speed limit or too fast for road conditions was a main contributor to sharp increases in roadway deaths in Texas during the Covid pandemic. And with too many drivers continuing to drive too fast and aggressively, speed remains the number one factor in traffic crashes in our state. In 2022, one in three people killed on the road in Texas was in a crash that involved speed. There were 162,227 speed-related crashes that year, resulting in 1,469 deaths and 6,312 serious injuries.

We know from observational studies and self-reporting by Texas drivers that speeding is common. According to TxDOT's 2022 Traffic Safety Awareness Survey, about half of Texans admit to driving over the speed limit at least sometimes. In addition, 15.5% said they drive faster than the speed limit on highways "most of the time." This is even though 75% said their chances of getting a ticket if they speed are somewhat or very likely.

Speeding puts not only motor vehicle occupants at risk, but also vulnerable road users such as pedestrians, bicyclists, and roadside workers. In 2022, TxDOT launched a new statewide campaign focused on persuading drivers to slow down. If motorists can be convinced to always drive a safe speed, fewer people will be killed or seriously injured in crashes that could have been prevented in the first place.

TxDOT's multimedia speeding campaign continued in FY 2023 and included robust levels of paid media, public relations, and outreach aimed at reminding drivers that:

- When you speed, you increase the risk of killing or injuring yourself or others in a crash.
- Speeding can cost you an expensive fine, court fees, and higher insurance premiums.
- Driving a safe speed can mean more than following the posted limit. You should match your speed to road, traffic, and weather conditions.

To reinforce that driving too fast can be dangerous *and* expensive, TxDOT also partnered with law enforcement agencies across the state in July to help them step up their efforts to enforce speed limits during Operation Slowdown.

Key campaign components in FY 2023 included the following:

- Statewide paid media placements, including television, radio, outdoor, theater, gas station advertising (GSTV), and digital media.
- A kickoff press conference with law enforcement partners, news releases in English and Spanish, and a statewide media tour to generate hundreds of broadcast, online, and print news stories.
- Sports marketing partnerships with racetracks and minor league baseball teams, including invenue signage, digital ads, and event activations for one-on-one engagement with sports fans.
- Distribution of public education materials to TxDOT district offices and campaign partners.

#### Paid Media

Since speeding is the leading factor in traffic crashes in our state, it calls for steady reminders to motorists to slow down or risk paying the consequences. More than 75% of the campaign's budget was devoted to paid media placements that reached Texas motorists when they were watching TV, behind the wheel, online or on their cell phone, putting gas in their vehicle, or at a movie theater or sporting event.

Although speeding is a problem among all demographic groups, the campaign put a special focus on young drivers. In 2022, more than half of drivers in Texas who were involved in crashes where speed was a contributing factor were under age 35. We communicated with this group through demographically and behaviorally targeted sports marketing, digital TV (OTT/CTV) placements, and video ads on YouTube and dating apps.

Lauryn Pritchard @lldrifts

Jesse Iwuji @jesse\_iwuji

The campaign also partnered with two social media influencers—race car driver Jesse Iwuji (@jesse\_iwuji) and stunt driver/mechanic Lauryn Pritchard (@lldrifts)—who posted videos of themselves on Instagram and Facebook, calling on their fans to watch their speed. Combined, their posts garnered a total of 477,444 organic and boosted views.

With a very passionate and loyal fan base, motorsports is one of the largest of spectator sports. Our media plan included ongoing partnerships with auto racing venues across Texas, a natural spot to remind drivers that speeding is only for racetracks, not streets and highways. The program included Texas Motor Speedway (the largest sporting facility in Texas), Circuit of The Americas, Houston Raceway Park, Texas Motorplex, and Heart O' Texas Speedway—all located near big cities and drawing visitors from across their regions and the state.

Seven minor league baseball teams across Texas—from the Sugar Land Space Cowboys to the El Paso Chihuahuas—also displayed campaign signage and videos in their ballparks throughout the 2023 season.

Signage in seven minor league ballparks

components

**Target Audience** Adults 18+ with an emphasis on young adults 18–34

Markets TV, radio, outdoor, GSTV, and digital: Statewide

Racetrack marketing: Fort Worth, Austin, Houston, Ennis, and Waco

F	FY 2023 Speeding Awareness - Paid Media Recap				
Media	Description	Budget	Impressions		
Television	30- and 15-second spots in English and Spanish; statewide	\$675,083.30	134,164,672		
Radio	30- and 15-second spots and liners in English and Spanish; statewide	\$366,398.96	90,663,256		
Digital	30-second spots in English and Spanish on OTT/CTV; statewide	\$148,125.00	6,462,069		
Digital	Video ads on YouTube (English and Spanish) and dating apps; social media influencers program; statewide	\$141,874.00	9,828,566		
Out-of-Home	Outdoor/Bulletins in English and Spanish; 47 locations; statewide	\$170,000.00	105,680,853		
Out-of-Home	Gas station TV (GSTV) advertising; 15-second spots; 587 locations; statewide	\$50,000.00	3,181,732		
Out-of-Home	Theater advertising; 30-second spots; 145 locations; 1,938 screens; 6 major markets	\$170,235.00	10,271,028		
Sports	Racetrack marketing; in-venue signage, digital ads, events, driver appearances; Fort Worth, Austin, Houston, Ennis, Waco	\$311,940.00	N/A		
Sports	Minor league baseball park signage, video displays, PA announcements, in-game promotions; 7 ballparks	\$101,000.00	N/A		
Sports	30- and 15-second spots in TV broadcasts of Texas Rangers and Houston Astros games	\$175,002.25	16,483,000		
TOTAL		\$2,309,658.51	376,735,176		

The paid media plan targeted a minimum of 202,916,200 impressions and exceeded the target by 85.6%, delivering a total of 376,735,176 paid and added value impressions.

#### **Creative Overview**

Changing behaviors when it comes to traffic safety calls for raising awareness of the deadly consequences that can result from a crash or issues that can result from being pulled over by law enforcement such as expensive fines and insurance rate increases. One set of TV spots for the campaign capitalizes on the double meaning of the phrase "see the light" to evoke the anxiety associated with seeing a patrol car's flashing lights in the rearview mirror and realizing some of the negative consequences of speeding.

"See the Light" TV spot

A second set of spots ties into the high visibility speed limit enforcement period, Operation Slowdown, and lets Texans know that officers are out in force looking for speeders. Drivers should be ready to "slow down or pay up" since they never know when someone from highway patrol may appear.

"Surprise, Surprise" TV spot

The TV spots, produced in English and Spanish, ran on broadcast TV, cable, OTT/CTV, movie theater screens, YouTube, dating apps, social media, gas pump screens, and videoboards at racetracks and ballparks in 2023.

TxDOT's Be Safe. Drive Smart. umbrella branding—Maneja Listo. Maneja Seguro. in Spanish—was incorporated into all campaign creative, including billboards that advised drivers throughout the state to be mindful of their speed or face the consequences.

## SPEEDING SLOWS YOU DOWN.

#EndTheStreakTX
BE SAFE. DRIVE SMART. IXDOT

Billboards

Customized messaging for printed and LED signage at racetracks and minor league baseball parks reminded sports fans that speeding isn't for public roadways and that they shouldn't race home. Placements included billboards around the tracks/ballfields, concession area signs, marquees, program ads, parking lot exit signs, and racetrack guardwalls. The partnership with Texas Motor Speedway also included campaign-branded wraps of two pace cars, signage on parking lot trams, and asphalt markings along pit row.

#### **Public Relations Activities**

The campaign's aggressive earned media efforts encompassed the following:

- A press event to kick off the summer campaign.
- Distribution of a news release and digital media kit to generate news stories in all Texas markets.
- Media availabilities at campaign appearances with NASCAR driver Ross Chastain.
- Media alerts to draw coverage of the campaign's outreach events at racetracks and Buc-ee's convenience store locations.

The summer statewide campaign launched with a press conference in Austin on July 18. With officers from nine police departments in the metro area and the Texas Department of Public Safety in attendance, TxDOT announced its support for Operation Slowdown, the 17-day statewide stepped-up speeding enforcement period.

Following the press event, a statewide news release and supporting B-roll package were distributed to enlist the help of local news directors and reporters in raising awareness of Texas' speeding problem and encouraging motorists to always drive a safe speed. TxDOT's public information officers were armed with campaign talking points to prepare for news interviews, and the news release and talking points were translated for Spanish-language media and interviews.

The campaign's PR team also planned and promoted two appearances by campaign partner Ross Chastain, a NASCAR Cup Series driver, prior to his races at Circuit of The Americas and Texas Motor Speedway. At each event, Chastain drew hundreds of fans to TxDOT's activation area, spoke to them about the importance of driving a safe speed on Texas roadways so everyone gets home safely, and autographed his "hero cards" customized with campaign messaging.

NASCAR Cup Series driver Ross Chastain signed his "hero card" and encouraged fans to drive a safe speed home before races at the Circuit of The Americas and Texas Motor Speedway.

Statewide and local media pitching activities in FY 2023 resulted in 308 TV, radio, online, and print news stories with a total earned media value of \$1,900,956.26.

#### **Grassroots Outreach**

*Events.* The Be Safe. Drive Smart. Road Show Trailer visited three major racetracks and six Buc-ee's locations around the state beginning in March. The campaign negotiated free placement of the trailer at Buc-ee's convenience stores, which are an efficient way to reach thousands of drivers and their passengers during the busy summer driving season. Speeding campaign messages were integrated into video displays, signage, and educational materials distributed by campaign brand ambassadors and TxDOT traffic safety specialists (TSSs). Visitors to the trailer were also invited to answer traffic safety quizzes and engage with virtual reality games.

Be Safe. Drive Smart. Speeding Awareness Outreach Events 2023					
Date	City	Location	Interactions with Staff	Total Engagements	
March 24-26	Austin	Circuit of The Americas	3,790	53,260	
April 1-2	Fort Worth	Texas Motor Speedway	1,684	27,360	
July 21	Ennis (I-45)	Buc-ee's	1,757	11,550	
July 22	Fort Worth (I-35W)	Buc-ee's	1,576	6,480	
July 23	Denton (I-35)	Buc-ee's	1,594	11,340	
July 28	New Braunfels (I-35)	Buc-ee's	770	10,200	
July 29	Bastrop (Hwy 71)	Buc-ee's	637	10,110	
July 30	Katy (I-10)	Buc-ee's	838	10,800	
August 26	Ennis	Texas Motorplex	1,349	4,410	
Sept. 23-24	Fort Worth	Texas Motor Speedway	4,086	47,670	

*Print Collateral.* TxDOT produced and distributed bilingual information cards and posters for events and for sharing with district TSSs to support grassroots education and outreach. Also, "Slow Down or Pay Up" banners were produced for TSSs to use at safety events or share with local partners, and a version of the campaign poster was provided for TxDOT's Safety Rest Areas throughout the state.

Info card and Safety Rest Area poster

**Social Media.** New posts using the campaign's TV spots and other video assets were developed for TxDOT's social media profiles on Facebook and Twitter, in addition to the videos created and shared by the paid social media influencers.

*Digital Toolkit.* Prior to the campaign's summer launch, TSSs were provided with a flyer outlining paid and earned media activities and a digital toolkit of materials to use for local outreach and share with their traffic safety community partners. The online kit included campaign creative, an outreach event schedule, social media assets, and print collateral.

#### **Overall Campaign Value**

Earned media resulted in \$1,900,956.26 in added value and 34,566,056 impressions. Paid media generated \$2,182,939.00 in added value and 376,735,176 impressions. The Speeding Awareness campaign delivered \$4,083,895.26 in total added value on the \$2,907,082.84 investment.

#### FY 2023 Talk. Text. Crash. Distracted Driving Campaign

October 1, 2022, through September 30, 2023

#### **Campaign Overview**

Like many other states, Texas has seen far too many crashes caused by distracted drivers. In 2022, there were 95,777 crashes blamed on driver distractions, an increase of 2% over 2021, according to Texas Department of Transportation crash data reports. These crashes resulted in 487 deaths and 2,824 serious injuries. While serious injuries declined by almost 4% from 2021, fatalities increased by almost 12%. TxDOT conducts an annual *Talk. Text. Crash.* public education campaign to remind motorists how dangerous it is to engage in distracting activities while driving such as talking on their phone, texting, checking social media, eating, applying makeup or shaving, programming their GPS, or doing something else that takes their mind or eyes off the road.

#### **Public Education Campaign**

The *Talk. Text. Crash.* campaign for FY 2023 used a combination of traditional paid media placements, public service announcements, grassroots outreach and partnerships, media relations, and digital and social media to reach a statewide audience and motivate drivers to avoid distractions—especially cell phone use—when behind the wheel. Although the campaign's message is relevant to all drivers, a special focus was reaching new and younger drivers ages 16 to 34, who account for a large share of distracted driving crashes.

Themed "Bad Combos", an English- and Spanishlanguage TV PSA plus social media videos for the campaign featured people engaging in everyday activities that, when combined with cell phone use, result in disastrous consequences.

The tagline "Put your phone down. Heads up, Texas." reminds drivers they have a choice of when and how they use their cell phone.

"Bad Combos" TV PSA

#### **Statewide Awareness Survey**

From June 19 through June 26, 2023, Sherry Matthews Group implemented a statewide online survey among 307 Texans who drive. A minimum of 75 surveys were conducted among key segments including English-speaking Hispanics; drivers ages 18–22, 23–29, and 30–34; men and women; and those who text, email, or talk (not hands-free) regularly or sometimes. Overall, the survey showed little change in drivers' knowledge of distracted driving laws and awareness of the dangers of distracted driving as compared to the year prior. This may be due in part to the campaign being conducted in June rather than April due to the legislative session and not benefiting from messaging during Distracted Driving Awareness Month.

#### Top survey findings:

- 53% drivers think they are above average drivers, but only 50% follow all traffic laws. Those who more often drive distracted are less likely to follow all traffic laws. They also engage regularly in a myriad of distracting behaviors.
- 68% know that texting while driving is banned on all Texas roads, but 26% believe they will only get a warning if caught on the first occurrence.
- Almost everyone is engaging in some sort of distracted driving, and many believe there are activities they can do safely. Only 13% say none of these distractions can be done safely while driving.
- While only 12% believe they can read or send a text or email safely while driving and 78% are not comfortable with others doing so, 35% read or send texts or emails sometimes or regularly while driving.
- While most drivers agree built-in devices are distracting, they also believe that if they were that dangerous, these technologies would be illegal.
- The good news is many report being willing to put away or silence their phone while driving or use a rewards app to stop texting and driving. Few are very willing to turn off their phone or use apps to block calls while driving.
- "Talk. Text. Crash." has the second-highest aided awareness levels at 52%, only behind "Text later. It can wait." at 72%.

#### Public Service Announcement (PSA) Distribution

To maximize limited funds and to extend the reach of the campaign, television and radio PSAs were redistributed to stations statewide to air messages for free beginning April 1 and running through the end of September. The PSAs were digitally tracked using Nielsen encoding systems that report which stations aired the messages, the audience reached, and the value of the donated airtime.

Donated media or media match achieved through PSAs totaled \$7,671,728 in FY 2023, representing a 21% increase from FY 2022. Media vendors donated 40,874 TV ad airings and 5,500 radio ad airings. The TV PSAs aired in the following Texas markets:

- Abilene
- Amarillo
- Austin
- Beaumont-Port Arthur
- Corpus Christi
- Dallas-Ft. Worth
- El Paso (Las Cruces)
- Harlingen-Weslaco-Brownsville-McAllen
- Houston

- Lubbock
- Midland-Odessa
- San Angelo
- San Antonio
- Tyler-Longview (Lufkin and Nacogdoches)
- Victoria
- Waco-Temple-Bryan
- Wichita

The TV PSA program produced more than 122 million impressions and over \$6.9 million in donated airtime.

	English	Spanish	Total
Airings	34,591	6,283	40,874
Impressions	89,605,211	32,839,783	122,444,994
Ad Value	\$5,770,321	\$1,136,540	\$6,906,861

The radio PSAs aired in the following markets:

- Austin
- Beaumont-Port Arthur
- Corpus Christi
- Dallas-Ft. Worth

- Houston
- San Antonio
- Tyler-Longview (Lufkin and Nacogdoches)
- Waco-Temple-Bryan

The radio PSA program produced more than 45 million impressions and \$764,867 in donated airtime.

	English	Spanish	Total
Airings	5,214	286	5,500
Impressions	38,709,135	6,598,532	45,307,667
Ad Value	\$615,185	\$149,682	\$764,867

#### Paid Media Recap

The 2023 *Talk. Text. Crash.* paid media campaign included statewide media coverage with the heaviest focus in the six largest markets, where, according to TxDOT crash data, the large majority of the state's distracted driving-related crashes occurred. Advertising was concentrated during the month of June, in coordination with the campaign's primary grassroots activities for the year. Spanish-language ads delivered messages to bilingual and Spanish-dominant Hispanics.

Digital ad

TxDOT placed \$702,205 in paid media throughout the fiscal year. Donated media or media match

totaled \$230,349 in FY 2023 from outdoor advertising through billboard and gas station overrides.

#### **Target Audience**

All drivers, with emphasis on those age 16 to 34

#### **Media Markets**

Statewide, with emphasis in major metro areas

TOTAL		\$702,205	139,321,070		

#### **Earned Media and Events**

Earned media activities for FY 2023 began with the distribution of a statewide news release to recognize Distracted Driving Awareness Month in April. On June 3, TxDOT held its first outreach event, followed by five more held throughout the month. Outreach events were staged in large malls across Texas to engage with teens, their parents, and other drivers during weekend shopping. Although the events were primarily intended for one-on-one interactions with the public, local news media were also invited to cover them and schedule interviews with TxDOT spokespeople. The events featured a driving simulator

Outreach event at Barton Creek Mall, Austin

to give participants a real-life sense of how distractions affect driving. Campaign brand ambassadors also distributed educational materials to remind everyone to give driving their full attention.

#### Event dates and cities:

- June 3 Austin Barton Creek Mall
- June 4 San Antonio North Star Mall
- June 6 McAllen La Plaza Mall
- June 8 Houston The Galleria
- June 10 DFW Grapevine Mills Mall
- June 13 El Paso Cielo Vista Mall

The interactive exhibits exposed the campaign's messaging to more than 94,500 visitors. In addition, more than 6,470 people interacted directly with our brand ambassadors or tried the driving simulator to experience firsthand the dangers of distracted driving. TxDOT promoted the June outreach tour through local media advisories and interview opportunities with its public information officers.

Altogether, earned media activities in FY 2023 generated 208 broadcast news segments valued at \$938,393. They also generated 99 online news stories valued at \$9,324,846 and 148 print articles valued at \$71,459. The total impressions delivered exceeded 206 million and a news coverage publicity value of \$10,334,698.

#### **Social Media**

In FY 2023, the campaign enlisted the help of influencers to help spread messages via their social media followers. Several influencers were vetted and approved to participate in the campaign. Each influencer presented a concept and, upon its approval, produced the social media post for TxDOT's final review. The table below shows the results of the influencer effort.

Influencers	Impressions	Clicks	Active Engagements	Completed Views	Involvements	Involvements Rate

#### **Grassroots Support and Outreach**

Campaign print collateral including information cards, posters, banners, spiral notebooks, and hand fans in English and Spanish were developed for use by Traffic Safety Specialists in each of TxDOT's 25 districts. In addition, an outreach presentation was developed for each district to customize with local distracted driving facts. Campaign partners such as the National Safety Council, the Texas Municipal Courts Education Center, and Texas Mutual Workers' Compensation Insurance company also received a *Talk*. *Text. Crash.* digital toolkit of materials to share with their employees and customers.

#### **Creative Overview**

The *Talk. Text. Crash.* campaign seeks to remind motorists how dangerous it is to drive while distracted. In 2021 and 2022, a number of new creative concepts were developed, including a new English- and Spanish-language TV PSA plus social media videos. "Dangerous Combos" collateral compared disastrous activity pairings such as using a chainsaw while blindfolded to texting and driving.

#### **Overall Campaign Value**

Earned media resulted in \$10,334,698 in added value and 206,476,728 impressions. Paid media resulted in \$230,349 in added value and 139,321,070 impressions. Public service announcements resulted in \$7,671,728 in added value and 167,752,661 impressions. The statewide *Talk. Text. Crash.* campaign delivered \$18,236,775 in total added value on the \$1,200,000 investment.

## FY 2023 *Look Twice for Motorcycles* Campaign October 1, 2022 – September 30, 2023

#### **Campaign Overview**

In FY 2023, the *Look Twice for Motorcycles* campaign continued its mission to reduce crashes, injuries, and fatalities involving motorcyclists on Texas roads.

In 2022, there were 8,441 motorcycle traffic crashes in Texas, which killed 562 motorcyclists and seriously injured another 2,422 (Texas Peace Officer's Crash Report – March 10, 2023). This represents an 8% increase in fatalities over 2021. For the purposes of this report, we will refer to all classes of motorcycles and scooters as "motorcycles."

This increase in fatalities underscores the importance of reminding motorists to pay special attention for motorcycles when driving. According to the National Highway Traffic Safety Administration (NHTSA), motorcyclist fatalities occurred nearly 24 times more frequently than passenger car occupant fatalities in motor vehicle crashes (Traffic Safety Facts, June 2023, NHTSA 2021 data).

#### **Diagnosing the Problem**

Intersections continue to be deadly for motorcyclists. In 2022, 33% of motorcycle fatalities occurred in an intersection or were intersection-related (Texas Peace Officer's Crash Report – March 10, 2023). In *Analysis of Motorcycle Crashes in Texas, 2010–2017*, the Texas A&M Transportation Institute (TTI) concluded that the crash type in which one vehicle turning left and one vehicle traveling straight in the opposite (oncoming) direction accounted for 39% of fatal or suspected serious injury crashes at intersections. The study also found that in multi-vehicle crashes where a vehicle and motorcycle collide, 47% to 51% involved an issue with the driver not seeing the motorcycle.

#### **Public Education Campaign**

For these reasons, TxDOT has made motorcycle safety a priority by continuing its public education campaign aimed at motorists. TxDOT's *Share the Road: Look Twice for Motorcycles* campaign urges drivers to watch carefully for motorcycles. Launched in 2010, this campaign seeks to remind motorists that they must take extra precautions to "see" motorcycles on the road.

The campaign urges drivers to:

- Look twice for motorcycles, especially at intersections.
- Always assume motorcycles are closer than they appear to be, and avoid turning in front of an oncoming motorcycle.
- Use turn signals and check blind spots before changing lanes.

- Don't follow a motorcycle too closely and give motorcyclists a full lane when passing.
- Obey posted speed limits.

Since FY 2016, TxDOT has cultivated a strong, recognizable brand built on the tagline "There's a life riding on it." The campaign uses a bold yellow/gold color that's quickly identifiable. In the past, the campaign has incorporated virtual reality (VR) elements into outreach events to engage audiences. These VR experiences were updated for the 2023 campaign season to run on the latest PICO VR operating system. A TV spot developed in 2012 continues to be popular, emphasizing the importance of taking special care to look twice for motorcycles since they're hard to see. In addition, a new TV spot was developed in 2021 to emphasize how dangerous intersections can be. Campaign components also included radio public service announcements (PSAs), billboards, online advertising, social media, and earned media activities.

#### The FY 2023 bilingual, multimedia campaign:

- Continued to use clear messaging and strong creative to reach and resonate with key target audiences.
- Included a statewide awareness and education effort focusing on key target audiences concentrated in May to capitalize on Motorcycle Safety Awareness Month.
- Used a combination of paid media and PSAs to maximize exposure of campaign messages.
- Conducted an aggressive public relations effort that included pre-recorded sound bite interviews and pitches to news media statewide to maximize earned media coverage.
- Conducted five outreach events across the state to generate additional awareness of campaign messages.
- Built upon existing TxDOT relationships with public and private partners to maximize reach and distribution of collateral materials and campaign messaging.
- Exceeded the minimum requirement of \$650,000 in added value by more than \$6 million.

#### **Public Service Announcement Distribution**

To maximize limited funds and to extend the reach of the campaign, television and radio PSAs were tracked for the entire fiscal year, but redistributed to stations statewide to increase participation as part of Motorcycle Safety Awareness Month in May. The PSAs were digitally tracked using Nielsen encoding systems that report which stations aired the messages, the audience reached, and the value of the donated airtime.

#### The TV PSAs aired in the following Texas markets:

- Abilene-Sweetwater
- Amarillo
- Austin
- Beaumont
- Corpus Christi
- Dallas-Ft. Worth
- El Paso (Las Cruces)
- Harlingen-Weslaco-Brownsville-McAllen

- Houston
- Laredo
- Lubbock
- Odessa-Midland
- San Antonio
- Tyler-Longview (Lufkin and Nacogdoches)
- Waco-Temple-Bryan
- Wichita Falls

The successful TV PSA program produced more than 115 million impressions and more than \$4.5 million in donated airtime.

	English	Spanish	Total
Airings	21,595	13,109	34,704
Impressions	82,844,614	32,848,982	115,693,596
Ad Value	\$3,011,119	\$1,554,229	\$4,565,348

The radio PSAs aired in the following markets:

- Austin
- Corpus Christi
- Dallas-Ft. Worth
- El Paso (Las Cruces)
- Harlingen-Weslaco-Brownsville

- Houston
- San Angelo
- San Antonio
- Tyler-Longview (Lufkin and Nacogdoches)

The successful radio PSA program produced more than 30 million impressions and more than \$465,000 in donated airtime.

	English	Spanish	Total
Airings	3,019	94	3,113
Impressions	29,304,217	1,321,178	30,625,395
Ad Value	\$449,256	\$16,375	\$465,631

#### Paid Media and Added Value Overview

TxDOT's FY 2023 paid media campaign targeted drivers ages 18–54 in both English and Spanish statewide, with emphasis in the eleven markets with the most motorcycle crashes. The campaign ran mobile banner ads, pre-roll video, Pandora digital radio, and mid-roll and pre-roll videos on YouTube. It also engaged social media influencers to help spread messages via their followers. In FY 2023, based on heat map motorcycle crash data, we expanded the billboard markets from 8 to 11, adding 10 additional billboard locations and omitting gas station TV ads. The paid media campaign ran May 1–15 with messages focused on reminding motorists to take extra precautions to look for motorcycles.

TxDOT placed \$295,375 in paid media throughout the fiscal year. The total added value achieved through negotiations with media vendors equaled \$152,201 and includes billboard overrides and negotiated lower monthly rates.

Target Audience: All drivers, 18–54

Media Markets: Statewide (digital media)

Emphasis markets: Amarillo, Austin, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, Lubbock, Midland-Odessa, Rio Grande Valley, San Antonio,

and Waco-Temple-Killeen (billboards)

#### FY 2023 Look Twice for Motorcycles - Paid Media Recap

Media	Description	Budget	Impressions
Out-of-Home	Bulletins (47)	\$182,400.00	100,896,085
Digital	Pre-roll video, banner ads on mobile ad networks, YouTube, Pandora digital radio ads	\$92,975.08	8,856,533
Influencers	Instagram influencers (3) posted content	\$20,000.00	1,031,816
Total		\$295,375.08	110,784,434

#### **Creative Overview**

The *Look Twice for Motorcycles* campaign seeks to remind motorists that they must take extra precautions to "see" motorcycles on the road. The campaign urges drivers to look twice for motorcycles, especially at intersections; always assume motorcycles are closer than they appear; avoid turning in front of an oncoming motorcycle; use turn signals and check blind spots before changing lanes; avoid following a motorcycle too closely; give motorcyclists a full lane; and obey posted speed limits.

In FY 2023, the campaign continued running the "Invisible" and "Pictures" TV PSAs developed in English and Spanish. Radio ads and out-of-home elements were also part of the campaign.

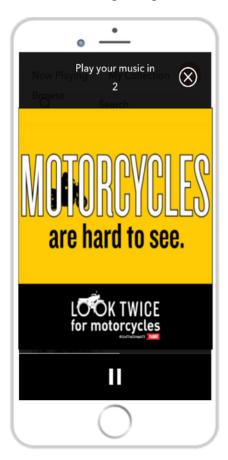

Billboards

Digital and social media play a large role in public education campaigns. To reach motorists, the campaign used a variety of digital platforms including digital radio, desktop and mobile pre-roll video ads, and YouTube ads. TxDOT also used its social media channels (Facebook, Instagram, and Twitter) to educate the public.

Facebook and Instagram organic ads

Digital radio ads

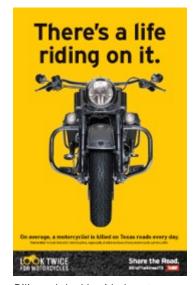

Pre-roll video ads

YouTube ads

The campaign also included posters and information cards with messaging that promotes driver ownership and personal accountability. The posters and information cards are bilingual, with English on one side and Spanish on the other. All were printed and shipped to the 25 TxDOT districts.

#### **Public Relations and Outreach**

In FY 2023, grassroots marketing events were held in Bastrop, Frisco, El Paso, Houston, and New Braunfels, in partnership with minor league baseball teams and Buc-ee's. The events featured a newly updated virtual reality motorcycle and Camaro game and an oversized inflatable motorcycle. Combined, these events resulted in 27,527 engagements with exhibit components and 4,785 interactions with event staff. To support earned media efforts, the campaign created digital press kits with press releases and a fact sheet as well as talking points for

TxDOT's public information officers. The media events and news releases generated 187 TV and radio news segments valued at \$335,439, 135 print articles valued at \$528,508,

and 92 online news stories valued at \$881,651.
Combined, earned media in broadcast, print, and online coverage generated nearly 22 million impressions and \$1,745,598 in public relations value for the campaign.

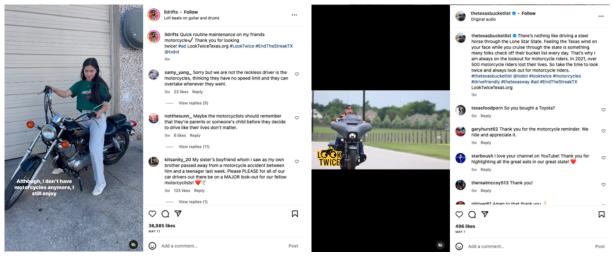

#### **Social Media Influencers and Partnerships**

In FY 2023, the campaign enlisted the help of influencers to help spread messages via their social media followers. Three influencers were vetted and approved to participate in the campaign. Each presented a concept and, once it was approved, produced the social media post for final TxDOT approval. The table below shows the results of the influencer effort.

Partner	Impressions	Active Engagements	Clicks	Completed Views	Involvements*	Involvement Rate
Lauryn Pritchard	660,478	33,299	252	256,043	376,263	57%

The campaign also partnered with the following organizations to distribute campaign messages:

- National Safety Council
- TxDOT Travel Information Centers
- Central Texas Harley Davidson Owners Group (HOG)
- Texas Municipal Courts Education Center
- TTI/Texas Motorcycle Safety Coalition
- SafeWay Driving Centers
- Texas A&M AgriLife Extension Passenger Safety Project

#### **Overall Campaign Value**

Earned media resulted in \$1,745,598 in added value and 21,926,166 impressions. Paid media match resulted in \$152,201 in added value and 110,784,434 impressions. Public service announcements match resulted in \$5,030,979 in added value and 146,318,991 impressions.

The statewide *Look Twice for Motorcycles* campaign delivered **\$6,928,778** in total added value on the \$650,000 investment.

# TEXAS STATEWIDE TRAFFIC SAFETY AWARENESS SURVEY: Key Findings of 2023

#### SUMMARY OF KEY FINDINGS

- The Click It or Ticket message remains the most highly recognized of the 13 traffic safety campaign messages.
- Over 60 percent of respondents had read, heard, or seen a seat belt enforcement message in the past year, and 85 percent of respondents believed there is some likelihood of a citation for seat belt law non-compliance. Over 95 percent of those surveyed reported they always or nearly always use seat belts. Seat belt self-reported use was higher among White respondents and among those over 45 years of age. Perception of seat belt enforcement was highest in the West region.
- Impaired driving enforcement campaign messages are seen and heard by Texas drivers, as evidenced by the majority (77.6 percent) of Texans surveyed who said they had read, seen or heard an impaired driving message within the past year. Almost 65 percent of Texans surveyed believe it is very likely that impaired drivers will be arrested. The impaired driving enforcement message was heard or seen more often in the West Region and the likelihood of arrest was perceived somewhat more often by females.
- Perception of speed enforcement is relatively high at almost 75 percent, and awareness
  of speed enforcement efforts/ticketing is also relatively high at almost 67 percent. Yet,
  approximately 50 percent of survey respondents said they speed on local roads and
  highways at least sometimes, and approximately 12 percent said regularly. Males were
  more likely than females to self-report speeding on highways.
- Almost a quarter (23.1 percent) of the survey respondents were not sure of the legal BAC limit for intoxication in Texas, with an additional 24.5 percent selecting an incorrect response.
- Self-reported cell phone use among drivers is most common relative to other traffic safety risk behaviors. Over 25 percent (27.4 percent) of respondents said they had sometimes or regularly talked on their cell phone while driving during the past month.
- Self-reported texting while driving was admitted to by 18.1 percent of respondents who said they had sometimes or regularly read or sent a text message in the past 30 days while driving.
- Texans surveyed are most familiar with the seat belt law and required belt use in all seating positions, with 83.8 percent answering correctly. They are less familiar with the texting ban as applicable to all roads, with two-thirds answering correctly. They are less knowledgeable as well regarding the Blood Alcohol Content (BAC) limit of .08, with 53.8 percent answering correctly and 22.7 percent answering Not Sure. Of the Texas

laws included on the survey, they are least familiar with components of the Move Over or Slow Down law, which are misunderstood by a substantial number of Texans, and indicated by low correct responses regarding the meaning of the law and the highest percentage of Not Sure responses of any survey question. Note that fewer than 21 percent of the respondents surveyed were unaware of the requirement to change lanes or lower their speed by 20 mph when passing a tow truck or TxDOT vehicle on the roadside with flashing lights activated.

# TEXAS STATEWIDE TRAFFIC SAFETY AWARENESS SURVEY: 2023 Results

#### INTRODUCTION

The Texas Department of Transportation (TxDOT) contracted with the Texas A&M Transportation Institute (TTI) to conduct a 2010 baseline survey and follow-up surveys in subsequent years to track driver attitudes and awareness of traffic safety programs in Texas. The Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA) recommend this type survey for measuring performance goals developed and implemented through highway safety plans. A white paper that preceded federal regulations to establish minimum performance standards states that "surveys can provide valuable information from drivers or the general public that can't be obtained any other way." This information can include views on the priorities of various traffic safety issues and on potential law or policy changes, knowledge of laws and penalties, perceptions of enforcement, awareness of recent enforcement and media campaigns, and self-reported behavior. Therefore, NHTSA recommends a core set of questions and guidelines for conducting these type surveys.

TTI has followed the recommendations and developed a sampling plan and questionnaire that includes the core questions recommended by NHTSA. This report describes the survey methodology and provides results for the performance measurement survey conducted in 2023. Changes from earlier years' survey results are also discussed.

# **SURVEY METHOD**

Surveys conducted 2010 through 2019 used a recommended pen and paper, in-person survey method to collect data from customers at 18 sites throughout Texas in Driver License (DL) offices. This approach offered the advantage of access to a reasonably representative sample of drivers and a cost-effective return relative to other surveys for this type of data collection. Also, as pointed out in the NHTSA Driver Survey white paper, DL office surveys have low refusal rates (10-30 percent or less), and the core questions plus additional questions can be asked easily on one page front and back for a quick and efficient data collection effort.

In 2020, the survey method was changed because of lack of access to DL office lobby areas and restrictions against in-person data collection due to health risks of the COVID-19 pandemic. The survey was converted to an online format for data collection in 2020 and has remained online in subsequent years. The sample was generated from a survey panel as described in the next section.

#### Site/Sample Selection

With the shift from one survey method to another and the aim of using the awareness survey to measure changes over time, the importance of maintaining the comparability of the results and the variables measured was considered in designing the

new survey method for 2020 onward. Four factors under consideration contributed to sampling decisions: 1) retaining the survey's anonymous response characteristic; 2) assuring representation from the four geographic regions comparable to prior years; 3) a high response rate; and 4) the ability to conduct the survey within a similarly short timeframe at approximately the same cost as prior surveys.

The sample was provided by a third-party survey sampling firm, Marketing Systems Group (MSG). The firm drew from a statewide survey panel that is generated from the universe of Texas household residences. This statewide panel was divided into four regions and panelists were invited to participate in the survey from each region to obtain a quota equivalent to regional representation in prior years' samples.

The samples of 2010-2019 obtained from the DL office survey were convenient samples of Texas residents, rather than a random representative sample, meaning the sample of respondents came from a collection of individuals in locations in which access to the target population of driver customers was provided. A random representative sample would contain all the drivers in the state as a sampling pool from which respondents would be randomly drawn and surveyed. In this way, statistical error estimates and confidence intervals could be calculated. Due to time and budget constraints, however, TTI relied on the convenient sample to generate a sample size large enough to generate meaningful data from four regions of the state, rather than a truly random sample. Similarly, the 2023 sample is a convenient sample because the respondents were from a pool of willing participants who self-select to participate in survey panels online. Recruitment into the panel is much broader than the driver license customer pool, as all Texas households are included. Although the pool is larger and more inclusive, self-selection also removes the random representation and ability to perform probability estimates.

The 2010 baseline sampling plan considered that TxDOT grouped its 25 district offices into four regional areas for administrative purposes at the time. The map below (Figure 1) illustrates the four regions, which also formed the first level of the TTI survey sampling plan. Within each of the four regional areas, a target sample size of 625 was set, comparable to previous sample sizes in 2010-2022 surveys.

# **Questionnaire Development**

The foundation of the survey instrument was the 10 core questions recommended by NHTSA, which are:

- 1. In the past 60 days, how many times have you driven a motor vehicle within 2 hours after drinking alcoholic beverages?
- 2. In the past 30 days, have you read, seen or heard anything about alcohol impaired driving (or drunk driving) enforcement by police?
- 3. What do you think the chances are of someone getting arrested if they drive after drinking?
- 4. How often do you use seat belts when you drive or ride in a car, van, SUV or pickup?
- 5. In the past 60 days, have you read, seen or heard anything about seat belt law enforcement by police?

- 6. What do you think the chances are of getting a ticket if you don't wear your seat belt?
- 7. On a local road with a speed limit of 30 mph, how often do you drive faster than 35 mph?
- 8. On a road with a speed limit of 65 mph, how often do you drive faster than 70 mph?
- 9. In the past 30 days, have you read, seen or heard anything about speed enforcement by police?
- 10. What do you think the chances are of getting a ticket if you drive over the speed limit?

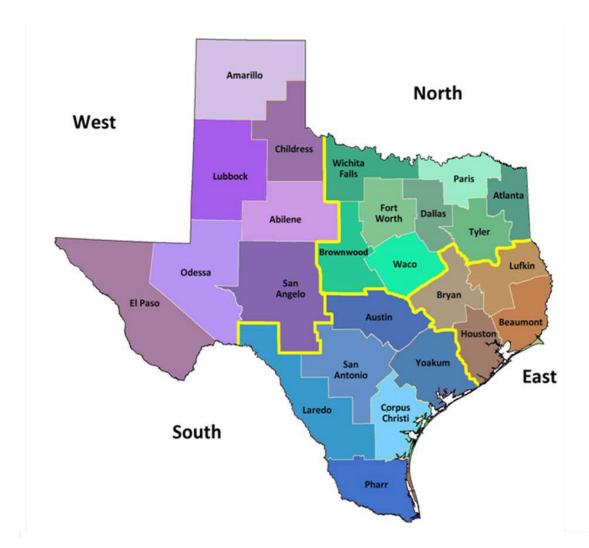

Figure 1. TxDOT Region Map

Respondents were first screened for minimum age of 18 and residence in Texas for a minimum of 30 days. Texas adapted question #7 to roads in Texas, changing the reference to 70mph instead of 65mph, as rural state highways are more often 70mph. In 2014 a response choice was added to the questions with a temporal reference (questions #2, #3, and #4) to determine if respondents were aware of these activities within the past year. In addition to the core questions, seven questions for background/demographic information were included. An additional 18 questions related to traffic safety issues of specific interest to TxDOT were included on the questionnaire. A Spanish translation of the questionnaire was not available as all respondents were able to read English. The questionnaire is provided as Appendix A, along with the response percentages for each item.

## **Survey Administration**

The survey was conducted July 17–31, 2023. This included weekdays and weekend days and the survey was accessible at all hours. Prior to survey launch, the questionnaire was previewed and pilot tested with TTI and MSG staff. A soft launch preceded full launch to assure responses were recorded properly and the survey was administered as designed. Additionally, the protocol and questionnaire was reviewed and approved by the Institutional Review Board (IRB) at Texas A&M University. The IRB requires that an Information Sheet accompany the questionnaire for reference by the respondents as to their rights as survey research participants, and to inform them of the study intent and other details.

#### **RESULTS**

#### **Characteristics of Survey Respondents**

The total sample size goal of 2500 was achieved. Responses were checked to remove duplicates or disqualifying respondents. The resulting sample totaled 2662 of usable data. Table 1 provides the sample sizes for each region. Note that 33 respondents gave zip codes on their survey response that were incomplete or out of state, indicating a recent or temporary move, an error, or refusal to provide this information. Their responses are included in the survey analysis, but they are not assigned to a region.

Table 1. Completed Surveys by Region

TxDOT Region	Target Sample Size	Completed Surveys
North	625	660
South	625	662
East	625	669
West	625	638
Total	2500	2629

Table 2 provides the demographic composition of the survey respondents along with comparable statewide population characteristics. Statewide characteristics for Race/Ethnicity, age and gender are from the 2020 Decennial Census and education is from the 2022 American Community Survey. The composition of the sample is over-represented by Whites by 14.6 percentage points and under-represented by Hispanics by 13.6 percentage points. Also, the sample is over-represented by those with at least a college degree by 7.4 percentage points. Therefore, findings and conclusions should be noted as applicable to a higher educated and less racially diverse population than the State's general population, as indicated in Table 2. These characteristics may be closer to the characteristics of the Texas driving population than the general population, but statewide driver demographics for education and race/ethnicity are not readily available.

Table 2. Respondent Characteristics

		%	%	
		Survey	Texas	
	White	57.8	43.2	
	Black	13.5	11.8	
Race/Ethnicity	Hispanic	22.6	36.2	
	Asian	3.7	5.5	
	Other	2.0	3.4	
	18-21	8.0	7.8	
	22-30	17.0	16.9	
Age	31-45	33.1	27.2	
	46-65	27.5	31.5	
	Over 65	14.0	16.5	
C 1	Male	48.9	48.8	
Gender	Female	50.2	51.2	
Education	High School or Less	28.5	39.6	
	Some College/ Associate degree	36.1	29.4	
	College Degree	22.8	21.0	
	Advanced Degree	12.6	31.0	

## **Core Question Responses**

As mentioned above, 10 core questions pertained to issues of interest at the federal, state, and local levels throughout the country, and performance-based criteria have been established to address the three major areas of impaired driving, safety belts, and speeding. Response percentages to the 10 core questions are displayed in Figures 2-11 and provided in Table 3.

As shown in Table 3, the 2023 response to the question, "Have you read, seen or heard anything about seat belt law enforcement in the past 60 days or recent summer months" was 33.6 percent. This percentage of seat belt enforcement awareness marks the third consecutive year with an increase in awareness of increased enforcement following the Click It or Ticket mobilization. Although higher than its 2020 low of 23.4 percent, awareness is still below pre-COVID levels.

Over 40 percent of respondents said they had read, seen or heard about speed enforcement in the past 30 days. Speed enforcement awareness reached its lowest point in 2020, when the question yielded 25.9 percent, and awareness is now back near pre-COVID levels.

Enforcement efforts aimed at impaired driving within the past 30 days were recognized by the highest percentage of respondents among the three enforcement areas included in the survey. At 50.7 percent saying they had read, seen, or heard about alcohol impaired driving enforcement, the awareness increased from 2022 but is lower than the past two years. As shown in Table 3, an additional 26.9 percent recalled enforcement messages within the past year.

The responses show Texans think laws are more likely to be enforced for drinking and driving than for failure to wear a seat belt or speeding. The difference is most evident in the percentage of those who checked Very Likely that a citation or arrest would be made for a violation—64.7 percent checking Very Likely of arrest for drinking and driving, compared to 43.7 percent Very Likely of citation for speeding and 44.7 percent for not wearing a seat belt. The perception of a greater likelihood of being cited for impaired driving remains at the top of the list as it has for the past 13 years. This is the fourth year in a row, however, that the perception of a seat belt citation as Unlikely and Very Unlikely reached over 15 percent; this year at 15.4 percent.

Table 3. Response Percentages to Core Questions

Have you read, seen or heard anything about:					
, <u>, , , , , , , , , , , , , , , , , , </u>	Yes, in recent months	Yes, in the past year	Combined Yes	No	Not Sure
Seat belt law enforcement by police?	33.6	27.7	61.2	31.3	7.5
Speed enforcement by police?	40.8	26.2	66.9	26.8	6.2
Alcohol impaired driving (or drunk driving) enforcement by police?	50.7	26.9	77.6	18.8	3.6
What do you think the chances an	re of:				
	Very Likely	Somewhat Likely	Likely	Unlikely	Very Unlikely
Getting a ticket if you don't wear your seat belt?	44.7	24.1	15.9	11.1	4.3
Getting a ticket if you drive over the speed limit?	43.7	30.5	30.5 16.5		2.6
Someone getting arrested if they drive after drinking?	64.7	18.4	10.7	3.7	2.5
How often do you use seat belts when you drive or ride in a car, van, SUV or pickup?					
	Always	Nearly Always	Sometimes	Seldom	Never
	87.6	7.8	3.1	0.6	0.9
How often do you speed on:					
	Most of the time	About half the time	Sometimes	Rarely	Never
A local road	11.3	10.8	26.0	33.2	18.6
A highway	12.5	12.2	24.8	28.5	22.1
In the past 60 days, how many times have you driven a motor vehicle within 2 hours after drinking alcoholic beverages?					
None	1 to 5	6 to 10	Over 10	Do not drink/Do not drink & drive	
2.4	11.2	0.8	0.8	82.5	

Texans continue to self-report seat belt use at over 90 percent who say they always or nearly always use seat belts. In 2023, as Figure 2 shows, the self-reported seat belt use rate bounced back to similar pre-COVID levels with 87.6 percent saying always, and 7.8 percent saying they nearly always use their seat belt for a total of 95.4 percent. This is compared to the lower totals of 2022 (93.2 percent) and 2021 (93.4 percent).

This year 48.1 percent of respondents reported they drive over the speed limit on local roads (Figure 8), and 49.5 percent said they exceed the speed limit by more than 5 miles per hour on highways with a 70 miles per hour speed limit sometimes or more often (Figure 9). Additionally, over 10 percent said they drive faster than the speed limit most of the time on both type roads.

With regard to self-reported drinking and driving behavior, even though almost two-thirds of those surveyed (64.7 percent) thought the chances of someone getting arrested if they drive after drinking is very likely, 12.8 percent reported they had driven a motor vehicle within two hours of drinking alcoholic beverages.

# **Core Question Responses by Region**

Associations between geographic regions and the core questions have been analyzed and highlights are presented below in Figures 12, 13 and 14. More information on each question is available upon request from the authors. Awareness of seat belt enforcement was highest in the West region and lowest in the South region. Self-reported speeding on local roads was lowest in the West region and highest in the East region. Awareness of impaired driving enforcement was highest in the West region and lowest in the North region.

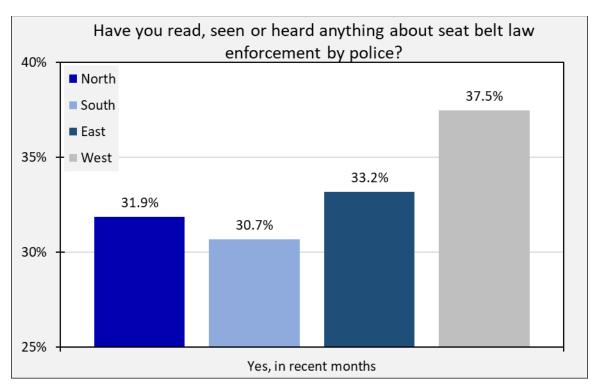

Figure 12. Seat Belt Enforcement Awareness by Region

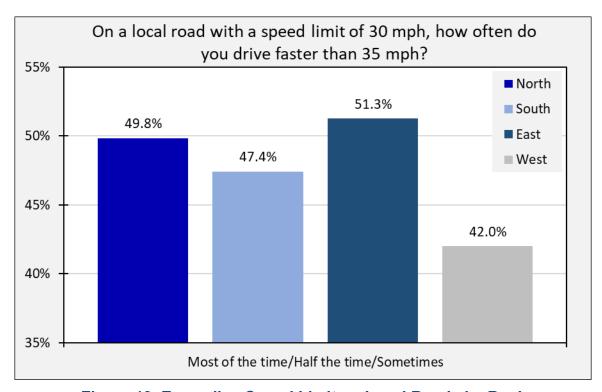

Figure 13. Exceeding Speed Limit on Local Roads by Region

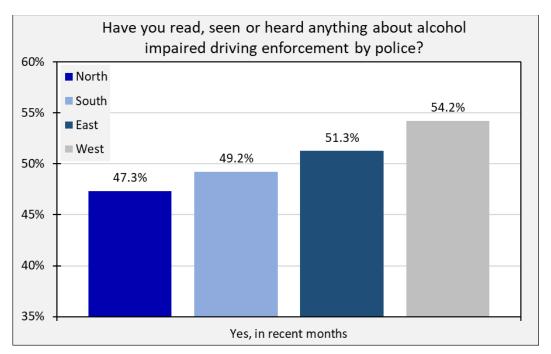

Figure 14. Awareness of Impaired Driving Enforcement by Region

# **Core Question Responses by Demographics**

Additional analysis using the demographics of respondents was undertaken for each variable, and notable highlights are presented below in Figures 15-20. More information on each question is available upon request from the authors.

Females self-reported lower frequencies of highway speeding than males (Figure 15) and perceived the likelihood of arrest for drinking and driving as Very Likely at a higher percentage than males (Figure 16). The percentage point difference by gender diminished considerably at lesser levels of perceived likelihood of arrest.

Age was noted as a factor for seat belt use and highway speeding. Respondents over 45 years old were more likely to say they Always or Nearly Always use their seat belt than those under 45. Drivers over 65 years old were least likely to report they exceed the speed limit on highways with 70mph limits, and drivers in their 20's (22-30) were most likely to say they exceed the speed limit by at least 5mph sometimes or more.

White respondents report using seat belts at the highest rate, followed by Hispanics and Blacks (Figure 19). Speeding on local roads (Figure 20) was reported by a lower percentage of Whites compared to other race/ethnicities.

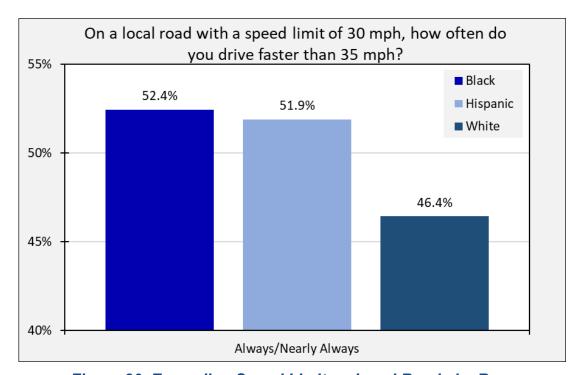

Figure 20. Exceeding Speed Limit on Local Roads by Race

#### **Historical Trend**

The results for nine of the core questions for each year are presented in Figures 21-29, providing visuals for comparing Texas trends across the 14 survey years. A table with each of the response choice percentages for 2010 through 2023 is included as Appendix B.

Figure 21 indicates a fairly steady trend in the perception of strong enforcement of impaired driving laws, with perception of arrest over 90 percent each year. Awareness of the alcohol impaired driving enforcement message peaked in 2011 with 75.1 percent of the survey respondents saying they had read, seen or heard the message within the past 30 days (Figure 22). The graph in Figure 22 also depicts responses for those who checked they had read, seen or heard something about alcohol impaired driving enforcement within the past year, which this year continued its rebound moving up to 50.7 percent from the low of 37.4 percent in 2020 and climbing from 42.9 percent in 2022. Conversely, the percent who said they had not read, seen, or heard anything about alcohol impaired driving enforcement by police in recent months dropped below 20 percent for the first time since 2019.

Figure 23 shows the 14-year trend in the perception of seat belt enforcement, starting with a peak of 89.7 percent who said the chances of getting a ticket were very likely in 2010; increasing from the low of 86.2 percent in 2013; back to 89.1 percent in 2015; and decreasing by a statistically non-significant degree to 88.8 percent in 2016. The percent of respondents perceiving the likelihood of a citation for seat belt noncompliance had an increase from 83.0 last year to 84.6 percent this year. This is the second consecutive year with an increase. Self-reported belt-wearing behavior increased by 0.5 percentage point from 98.0 to 98.5 percent saying they always or almost always use seat belts (Figure 24). Awareness of increased seat belt enforcement continued to trend upwards, as those who answered yes they have seen or heard something in recent months increased from 29.1 percent last year to 33.6 percent this year.

Figures 26 and 27 each illustrate the percentages of drivers who say they often exceed the speed limit by at least five miles per hour. This was the first year for a decrease in self-reported local road speeding since 2018. Almost half (48.2 percent) of respondents answered they often exceed local road speed limits by 5pmh compared to just over half (51.8 percent) who say they rarely or never do.

Similar to local road self-reported speeding, those who self-report speeding on highways splits almost 50-50, with 49.5 percent who say they often speed on highways and 50.5 percent saying they rarely or never do. The perceived likelihood of receiving a ticket, which was in the low 90 percent range in the first nine of the 10 survey years, fell to under 90 percent in 2020 and 2021. However, this perception rebounded in 2022 and in 2023 is above 90 percent (90.7 percent, see Figure 28).

Awareness of speed enforcement efforts in most of the 14-year survey period has been lower than other traffic safety enforcement efforts (Figure 29). Of note is the relatively large percentage of respondents who this year said they heard of speed enforcement efforts. At 40.8 percent, this level is the highest it has been since 2018.

## **Texas-Specific Questions**

The 2023 survey included three questions designed to gather additional data related to drinking and driving behavior and knowledge. Respondents were asked if they drive after drinking more than they should. This was based on their own assessment of what 'more than they should' would be.

Over half (55.8 percent) of the respondents said they had not driven after drinking too much, 21.0 percent said they do not drink, and an additional 13.7 percent said they very rarely drove after drinking (see Figure 30). This means that 251 of the 2,630 respondents answering this question reported they sometimes (n=161), frequently (n=53), or very frequently (n=37) drive after having too much to drink, a total of 9.5 percent of respondents.

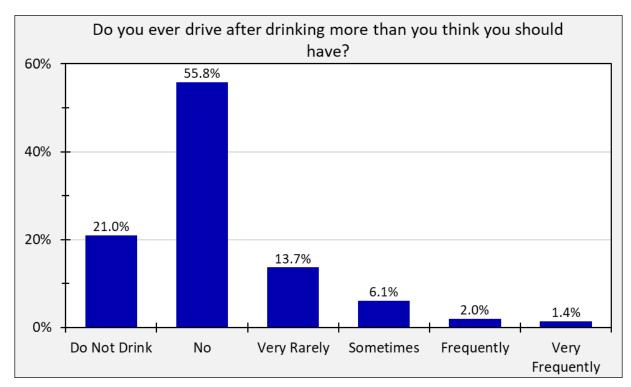

Figure 30. Self-Reported Impaired Driving

In Texas the legal limit for intoxication is .08 blood alcohol content (BAC). In 2023, 53.8 percent of the Texans surveyed selected the correct response choice for the legal intoxication question. Figure 31 shows that 22.7 percent of the Texans surveyed were not sure of the legal BAC limit and 6.5 percent over-estimated the BAC limit.

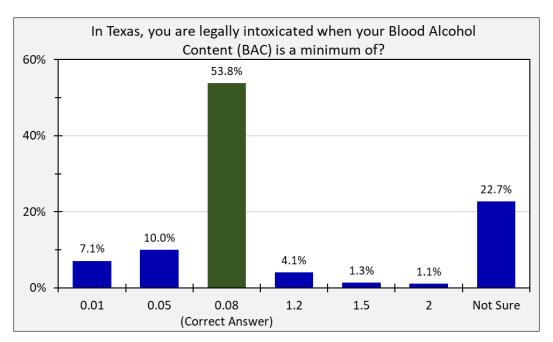

Figure 31. Knowledge of BAC Intoxication Limit in Texas

Respondents were asked if they favor or oppose sobriety checkpoints in Texas. Sobriety checkpoints are commonly conducted in other states but are not allowed Texas. The survey results revealed that 60.4 percent were in favor of sobriety checkpoints, with 34.0 percent strongly in favor. As shown in Figure 32, 7.8 percent were strongly opposed to sobriety checkpoints, 10.1 percent were opposed, and 21.8 percent were neutral on the subject.

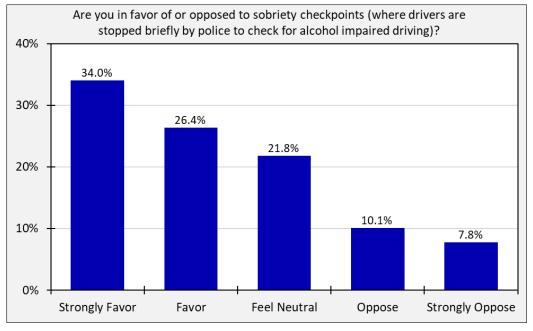

Figure 32. Sobriety Checkpoints

The survey included three questions to measure Texans' knowledge on specifics of the texting ban, the seat belt law, and Texas' Move Over or Slow Down law. For questions on the particulars of the texting ban and the seat belt law, one response was considered most correct. Figure 33 indicates two-thirds (66.6 percent) of respondents knew that there is a texting ban in Texas on all roads. Eighteen percent indicated they were not sure what the current law is, and 6.4 percent thought the law does not apply in cities without a local ordinance.

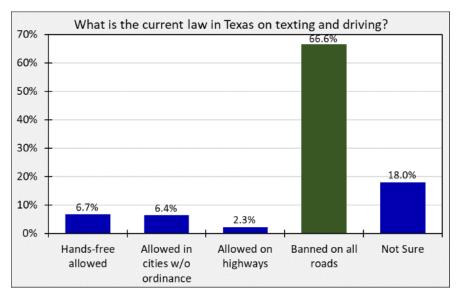

Figure 33. Texting Ban

Figure 34 shows the percentages for responses to the question on the Texas seat belt law. The Texas mandatory seat belt law was amended in September, 2009 to include all occupants in all seating positions. Survey results indicate the public is highly aware of the current requirements, as evidenced by the correct response by 83.8 percent of respondents and a Not Sure response by only 5.2 percent of those surveyed. Nine people thought seat belts are only encouraged, not required. However, 8.8 percent of respondents thought they are required only for front seat occupants in Texas.

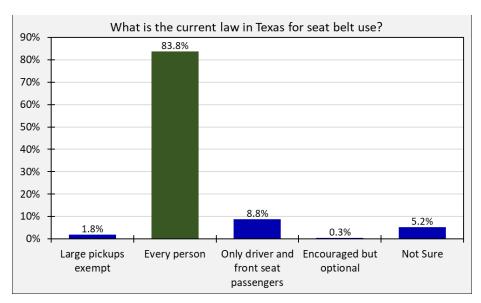

Figure 34. Texas Seat Belt Law

In 2019, Texas upgraded its Move Over or Slow Down law, adding service vehicles to the requirement for giving space to emergency vehicles on the side of the road. In 2021 several questions were added to the survey to gauge public knowledge and understanding of this law. For the first question gauging knowledge, multiple responses were allowed. The purpose was to provide options that might be incorrect interpretations of the law, rather than one obvious correct answer. Respondents were to select all statements that were true. Table 4 presents the response choices and the percent of respondents selecting each choice. The bold responses are correct answers. Because more than one response was allowed, the column percentages add to more than 100.

This question had a relatively large number of Not Sure responses (16.5 percent). While 42.6 percent of respondents knew the law pertains to emergency vehicles, a much smaller percentage had knowledge of the other requirements, and the least response checked of the correct answers was regarding TxDOT vehicles with lights flashing (20.7 percent). The most frequently checked response was an incorrect one - drivers going slower than others should move into the right-hand lane (47.7 percent).

A follow-up question was included to gauge knowledge of what actions are required in response to the Move Over or Slow Down law. Again, multiple responses were allowed in an attempt to discern if respondents have more than one interpretation of the law's message. Of the seven choices, three are correct interpretations of the requirements. As seen in Table 5, the choice most often selected by respondents was not one of the three correct responses, but was to move into the right-hand lane if going 5mph or slower than other traffic on the road, selected by 27.7 percent of respondents. The second highest incorrect statement selected was to move over for oncoming or when approaching emergency vehicles. This question had the highest Not Sure response of any of the survey questions (26.3 percent).

Table 4. Knowledge of Move Over Law Components

Response	n	%
Drivers going slower than others must move into the right-hand lane	1241	47.7%
Drivers must move over a lane if an emergency or police vehicle with lights flashing is on the roadside.	1106	42.6%
Drivers are required to move over to the right-hand lane if an ambulance or firetruck is approaching in the opposite direction.	838	32.2%
Drivers must move over a lane if a tow truck with lights flashing is on the roadside.	543	20.9%
Drivers must move over a lane if a utility service vehicle with lights flashing is on the roadside.	543	20.9%
Drivers must move over a lane if a TxDOT vehicle with lights flashing is on the roadside.	537	20.7%
Drivers must move onto the shoulder, if present, when another vehicle is attempting to pass.	227	8.7%
Not Sure	429	16.5%

Table 5. Knowledge of Move Over Law Requirements

Responses	n	%
Drivers going 5mph or slower than others are required to move into the right-hand lane.	717	27.7%
Drivers are required to move over to the furthest lane possible and reduce their speed if an ambulance or firetruck is approaching in either direction.	654	25.3%
Drivers going 70mph must slow down to 50mph if an emergency vehicle with flashing lights is on the roadside, or move over a lane when possible.	619	23.9%
Drivers are required to move over a lane or if unable to change lanes, must reduce their speed by 20mph regardless of the speed limit.	527	20.4%
If the speed limit is 25mph and an emergency vehicle with lights flashing is on the roadside, drivers are required to reduce their speed by 5mph to 20mph if unable to move over a lane.	486	18.8%
Drivers going more than 70mph on the highway are required to slow down or move into the passing lane if the speed limit is 70mph.	409	15.8%
If the speed limit is 25mph and an emergency vehicle with lights flashing is on the roadside, drivers are required to reduce their speed to 5mph if unable to move over a lane.	378	14.6%
Not Sure	681	26.3%

The 2023 survey included a question to measure the awareness of campaigns used recently to promote traffic safety in the State. Respondents were asked to check all the messages they had seen or heard. Figure 35 indicates that "Click It or Ticket", as in past surveys, was the most recognized message, selected by 84.0 percent of the respondents, followed by "Talk. Text. Crash." selected by 71.6 percent of the respondents. The least recognized message was "Save Me With a Seat", selected by 23.5 percent of the respondents.

Further analysis of Click It or Ticket recognition was conducted to get a more indepth look at who in Texas is getting the message. As mentioned earlier, Click It or Ticket has been the most recognized traffic safety message in the State, according to this survey since its inception. Figure 36 below shows a breakdown by region for those who answered "Yes" to seeing or hearing of the campaign in the past year. The West region had the highest recognition at 88.9 percent. The lowest was the East at 80.6 percent.

Analysis shows that Click It or Ticket recognition is highest among White (86.5 percent), and lowest among Black respondents (78.5 percent). Furthermore, recognition is highest among older age groups (31 and older) and lower with the younger age groups (18-30 years old).

Click It or Ticket recognition was also analyzed by county. The 10 most populous counties in Texas were selected, each with over 800,000 in population, to show the range in recognition at the county level. As shown in Figure 37, The largest South, Central, & West Texas counties (Hidalgo, Bexar, Travis, and El Paso) are at the top of the range and the Dallas-Fort Worth and Houston metro counties are at the bottom (Tarrant, Dallas, Collin, and Harris).

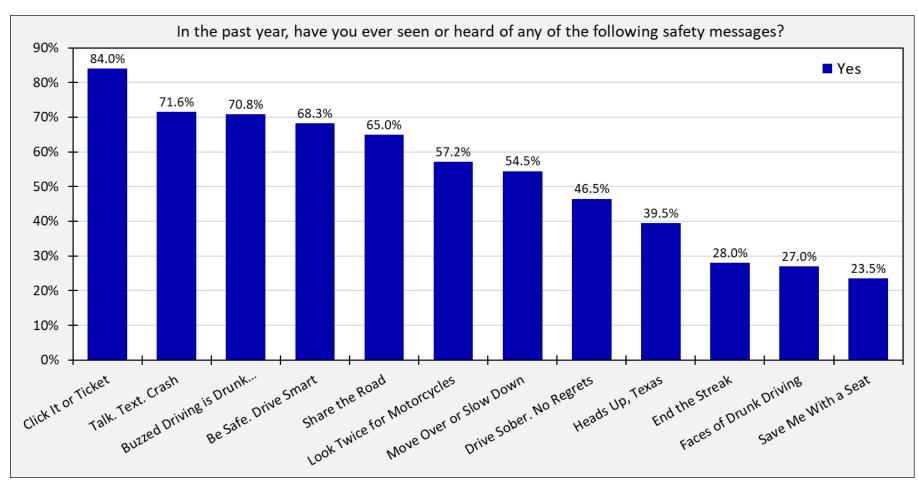

Figure 35. Traffic Safety Campaign Message Recognition

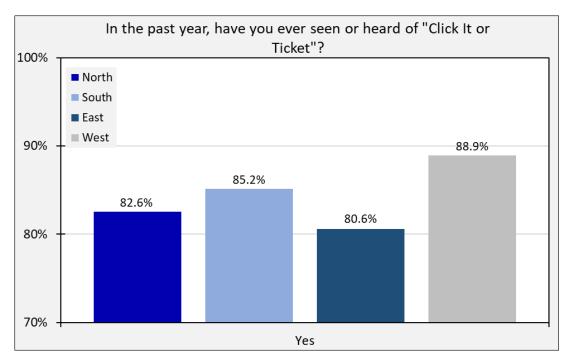

Figure 36. Click It or Ticket Recognition by Region

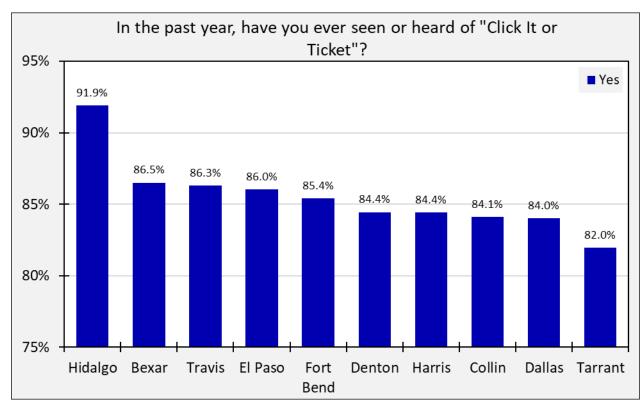

Figure 37. Click It or Ticket Recognition by County

# **Self-Reported Driving Behaviors**

Respondents were asked how often they had done a variety of behaviors related to traffic safety. Table 6 provides the percentages for each of the responses. Considering these responses, the most unacceptable self-reported behavior among the list was driving without using a seat belt, as 75.2 percent said they had never done so. Closely following was riding as a passenger without a seatbelt and driving 15mph over the speed limit on a residential street; which 72.4 and 72.2 percent, respectively, said they had not done in the past 30 days.

Talking on a cell phone while driving was the most reported behavior to do "regularly" at 7.2 percent, followed by 5.5 percent who regularly drive 15mph over the speed limit on a freeway or highway.

Table 6. Driving Behaviors

In the past 30 days, how often have you	(%)				
done the following?	Regularly	Sometimes	Rarely	Just Once	Never
Driven without using your seat belt	4.9	5.5	10.1	4.3	75.2
Allowed people to ride in your vehicle without using a seat belt	4.6	8.5	11.3	3.7	71.8
Ridden as a passenger without using your seat belt	4.3	7.4	11.1	4.8	72.4
Driven 15mph over the speed limit on a freeway or highway	5.5	13.9	19.4	6.3	54.9
Driven 15mph over the speed limit on a residential street	4.1	6.2	13.6	3.9	72.2
Driven through a light just turned red when you could have stopped	3.7	9.3	18.5	11.7	56.8
Rolled through a stop sign without coming to a complete stop	4.2	12.5	21.3	9.2	52.7
Driven when you were feeling very sleepy	3.8	11.1	19.8	9.7	55.6
Talked on your cell phone while you were driving	7.2	20.2	24.0	7.2	41.4
Read or sent a text message or email while you were driving	4.8	13.3	20.4	6.5	55.0

A follow-up question was asked to determine the main influencing factors for less cell phone use and less drinking and driving behavior. Just over 25 percent (25.2 percent) said they did not use a cell phone while driving, and 6.1 percent of respondents checked they had not been influenced to use cell phones less while driving. For those who said they had been

influenced to use a cell phone less while driving, 46.7 percent checked "fear of injury to self or others" as the reason. The least often cited influencer (7.0 percent) was employee policy (Figure 38).

Of the 2,582 people who responded to the question regarding reasons for not drinking and driving or for stopping drinking and driving, 5.6 percent said they had not been influenced to drink and drive less. Figure 39 shows that for those who had stopped or do not drink and drive, the most prevalent reason was the same as for reducing cell phone use – "fear of injury to self or others" (29.2 percent). The least often cited influencer was also employee policy (5.3 percent). Over half of the sample (53.7 percent) said they do not drink and drive.

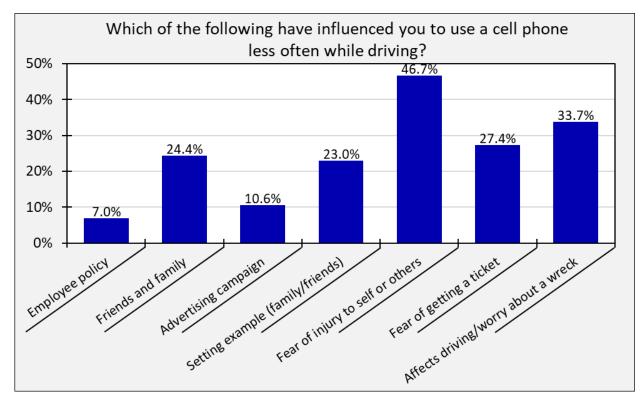

Figure 38. Reasons for Using Cell Phones Less

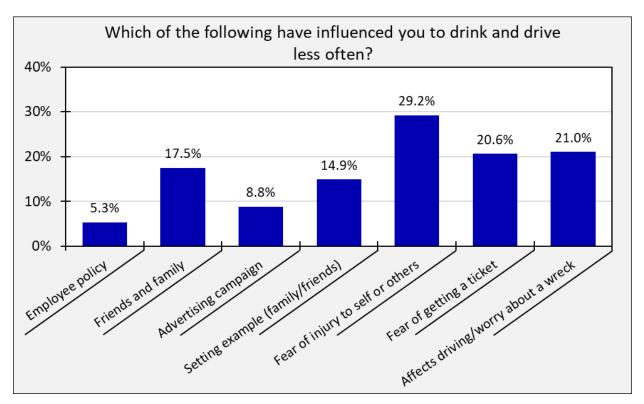

Figure 39. Reasons for Drinking and Driving Less

In 2022 a new set of questions was added to the Attitude and Awareness Survey to examine reasons for changes in traffic safety behavior. These questions asked if, compared to last year, had their seat belt use, texting while driving, speeding and drinking and driving increased or decreased. Based on their response, a multiple-choice question followed asking the main reason for the change. Results are displayed in four pie charts below.

Seat belt use was largely reported as the same (by 73.0 percent) or had increased (by 26.0 percent). The reason checked most often for increasing use was to avoid a ticket (see Figure 40).

The largest percentage of self-reported behavior change reported was texting while driving. Forty-six percent of the survey respondents said they text less often than they did a year ago. The multiple-choice response checked most often was "being more careful now," noted as "More cautious" in the chart.

Over 13 percent of the sample said their tendency to drive over the speed limit has increased over the past year, whereas almost 24 percent reported a decrease and 62.8 percent said their tendency to speed had stayed the same. The main reason for speeding less was "being more cautious now."

Almost 40 percent of the respondents said they drink and drive less often now than a year ago. The reason checked most often was the tendency not to drink as much (29.1 percent).

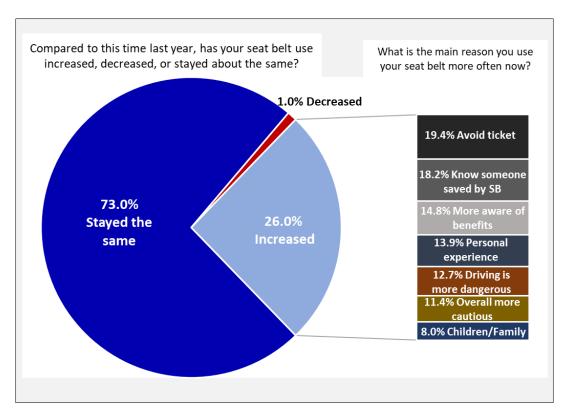

Figure 40. Change in Self-Reported Seat Belt Use

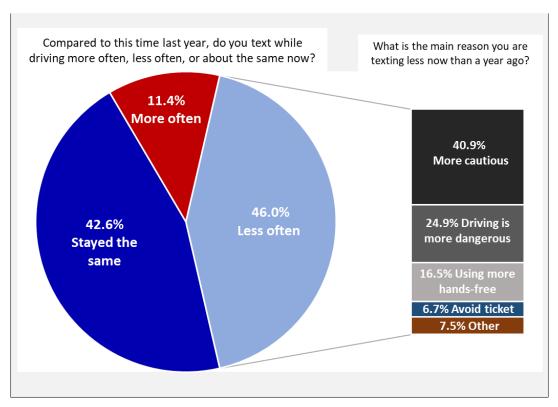

Figure 41. Change in Self-Reported Texting and Driving

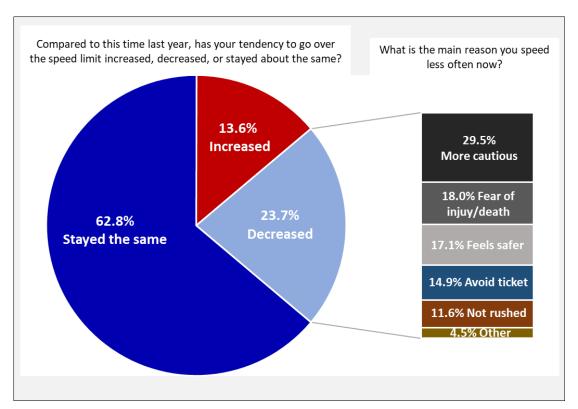

Figure 42. Change in Self-Reported Speeding

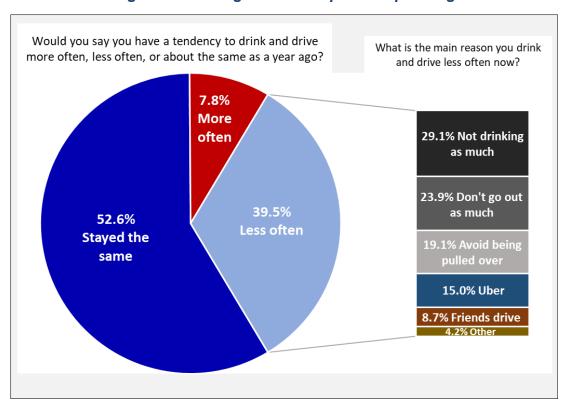

Figure 43. Change in Self-Reported Drinking and Driving

#### SUMMARY OF KEY FINDINGS

- The Click It or Ticket message remains the most highly recognized of the 13 traffic safety campaign messages.
- Over 60 percent of respondents had read, heard, or seen a seat belt enforcement message in the past year, and 85 percent of respondents believed there is some likelihood of a citation for seat belt law non-compliance. Over 95 percent of those surveyed reported they always or nearly always use seat belts. Seat belt self-reported use was higher among White respondents and among those over 45 years of age. Perception of seat belt enforcement was highest in the West region.
- Impaired driving enforcement campaign messages are seen and heard by Texas drivers, as evidenced by the majority (77.6 percent) of Texans surveyed who said they had read, seen or heard an impaired driving message within the past year. Almost 65 percent of Texans surveyed believe it is very likely that impaired drivers will be arrested. The impaired driving enforcement message was heard or seen more often in the West Region and the likelihood of arrest was perceived somewhat more often by females.
- Perception of speed enforcement is relatively high at almost 75 percent, and awareness of speed enforcement efforts/ticketing is also relatively high at almost 67 percent. Yet, approximately 50 percent of survey respondents said they speed on local roads and highways at least sometimes, and approximately 12 percent said regularly. Males were more likely than females to self-report speeding on highways.
- Almost a quarter (23.1 percent) of the survey respondents were not sure of the legal BAC limit for intoxication in Texas, with an additional 24.5 percent selecting an incorrect response.
- Self-reported cell phone use among drivers is most common relative to other traffic safety risk behaviors. Over 25 percent (27.4 percent) of respondents said they had sometimes or regularly talked on their cell phone while driving during the past month.
- Self-reported texting while driving was admitted to by 18.1 percent of respondents who said they had sometimes or regularly read or sent a text message in the past 30 days while driving.
- Texas surveyed are most familiar with the seat belt law and required belt use in all seating positions, with 83.8 percent answering correctly. They are less familiar with the texting ban as applicable to all roads, with two-thirds answering correctly. They are less knowledgeable as well regarding the Blood Alcohol Content (BAC) limit of .08, with 53.8 percent answering correctly and 22.7 percent answering Not Sure. Of the Texas laws included on the survey, they are least familiar with components of the Move Over or Slow Down law, which are misunderstood by a substantial number of Texans, and indicated by low correct responses regarding the meaning of the law and the highest percentage of Not Sure responses of any survey question. Note that fewer than 21 percent of the respondents surveyed were unaware of the requirement to change lanes or lower their speed by 20 mph when passing a tow truck or TxDOT vehicle on the roadside with flashing lights activated.

#### 15. In the past year, have you ever seen or heard any of the following safety messages? [Check all that apply.]

84.0% Click It or Ticket	28.0% End the Streak	70.8% Buzzed Driving is
71.6% Talk. Text. Crash.	23.5% Save Me With a Seat	57.2% Look Twice for Motorcycles
65.0% Share the Road	39.5% Heads Up, Texas	54.5% Move Over or Slow Down
68.3% Be Safe. Drive Smart.	27.0% Faces of Drunk Driving	46.5% Drive Sober. No Regrets.

#### 16. Compared to this time last year, has your seat belt use increased, decreased, or stayed about the same?

- 17.5% Greatly increased
- 8.5% Increased some
- 73.0% Stayed the same
- 0.7% Decreased some
- 0.3% Greatly decreased

## 17. What is the main reason you use your seat belt more often now?

- 19.4% To avoid getting a ticket
- 18.2% Know of someone in a crash that seat belts helped
- 13.9% Personal experience of being in a crash that seat belts helped
- 8.0% Children or family related reasons
- 12.7% More crashes/more dangerous drivers on the road now
- 14.8% More aware of safety benefits of seat belts now
- 11.4% Overall more cautious now
- 1.6% Other, Please specify

#### 18. What is the main reason you use your seat belt less often now?

- 18.5% Less likely to get a ticket than before
- 7.4% Know of someone in a crash that seat belts didn't help
- 3.7% Driving shorter distances now
- 7.4% More cautious driver now
- 22.2% Seat belts are uncomfortable
- 33.3% Don't see the benefit
- 7.4% Other, Please specify

#### 19. Compared to this time last year, do you text while driving more often, less often, or about the same now?

- 5.6% Much more often
- 5.9% Somewhat more often
- 42.6% Stayed the same
- 12.2% Somewhat less often
- 33.8% Much less often

#### 20. What is the main reason you are texting more often now than a year ago?

- 32.5% More comfortable/better at it now
- 15.9% Need to communicate more now while driving
- 14.5% Work related reasons
- 13.1% Family related reasons
- 6.9% More crashes/more dangerous drivers on the road now
- 10.0% Use voice texting more
- 5.5% Drive more often now
- 1.4% Other, Please specify

#### 21. What is the main reason you are texting less now than a year ago?

- 38.1% Being more careful now
- 3.2% Drive less often now
- 4.8% Children or family related reasons
- 6.2% Don't want to get a ticket
- 15.4% Use voice or hands free devices more
- 23.2% More aware of other dangerous drivers on the road now
- 9.0% Other, Please specify

# 22. Compared to this time last year, has your tendency to go over the speed limit increased, decreased, or stayed about the same?

- 5.3% Greatly increased
- 8.2% Increased some
- 62.8% Stayed the same
- 13.5% Decreased some
- 10.2% Greatly decreased

## 23. What is the main reason you speed more often now?

- 31.7% In a hurry more often
- 29.0% Other drivers are speeding
- 13.5% Less enforcement of speed limits now
- 13.8% Always running late
- 8.1% Like to speed
- 3.9% Other, Please specify

#### 24. What is the main reason you speed less often now?

- 11.5% Not as rushed now
- 29.3% Being more cautious now
- 14.8% Don't want to get a ticket
- 4.3% To save gas
- 17.0% Safer to go the speed limit
- 17.8% Don't want to be injured or killed in a crash
- 5.3% Other, Please specify

#### 25. Would you say you have a tendency to drink and drive more often, less often, or about the same as a year ago?

- 3.9% Much more often
- 3.9% Somewhat more often
- 52.6% Staved the same
- 5.6% Somewhat less often
- 33.9% Much less often

#### 26. What is the main reason you drink and drive more often now than a year ago?

- 24.7% Stress
- 28.5% Party more
- 12.9% No other way to get home
- 25.8% To relax
- 5.9% Not as likely to get pulled over
- 2.2% Other, Please specify

#### 27. What is the main reason you drink and drive less often now than a year ago?

- 18.6% Don't go out as much
- 22.7% Not drinking as much
- 14.9% Fear of getting pulled over
- 11.7% Using Uber or other similar ways to get home more often
- 6.8% Asking friends or others for a ride more often
- 25.3% Other, Please specify

## 28. What is the current law in Texas on texting and driving? (Please check the one most correct answer.)

- 66.6% Texting while driving is banned on all roads in Texas
- 6.4% Texting while driving is allowed in cities that have not passed a local ordinance against it
- 2.3% Texting while driving is allowed on highways but banned on city streets
- 6.7% Texting while driving is allowed if your device you are typing on is not held in your hand
- 18.0% Not Sure

## 29. What is the current law in Texas for seatbelt use? (Please check the one most correct answer.)

- 83.8% Every person in the vehicle is required to use seatbelts
- 8.8% Only front seat driver and passengers are required to use seatbelts
- 1.8% Drivers of large pickups (1 ton and over) are not required to use seatbelts
- 0.3% Seatbelt use is encouraged but optional in Texas
- 5.2% Not Sure

#### 30. What is the Texas Move Over or Slow Down Law? (Please select all that apply.)

- 47.7% Drivers going slower than others must move into the right lane.
- 8.7% Drivers must move onto the shoulder, if present, when another vehicle is attempting to pass.
- 32.2% Drivers are required to move over to the right-hand lane if an ambulance or firetruck is approaching in the opposite direction.
- 42.6% Drivers must move over a lane if an emergency or police vehicle with lights flashing is on the roadside.
- 20.9% Drivers must move over a lane if a tow truck with lights flashing is on the roadside
- 20.9% Drivers must move over a lane if a utility service vehicle with lights flashing is on the roadside.
- 20.7% Drivers must move over a lane if a TxDOT vehicle with lights flashing is on the roadside.
- 16.5% Not Sure

#### 31. What does the Texas Move Over or Slow Down Law require? (Please select all that apply.)

- 27.7% Drivers going 5mph or slower than others are required to move into the right-hand lane.
- 15.8% Drivers going more than 70mph on the highway are required to slow down or move into the passing lane if the speed limit is 70 mph.
- 23.9% Drivers going 70mph must slow down to 50mph if an emergency vehicle with flashing lights is on the roadside, or move over a lane when possible.
- 18.8% If the speed limit is 25 mph and an emergency vehicle with lights flashing is on the roadside, drivers are required to reduce their speed by 5 mph to 20 mph if unable to move over a lane.
- 14.6% If the speed limit is 25mph and an emergency vehicle with lights flashing is on the roadside, drivers are required to reduce their speed to 5mph if unable to move over a lane.
- 20.4% Drivers are required to move over a lane or if unable to change lanes, must reduce their speed by 20mph regardless of the speed limit.
- 25.3% Drivers are required to move over to the furthest lane possible and reduce their speed if an ambulance or firetruck is approaching in either direction.
- 26.3% Not Sure

#### 32. In the past 30 days, how often have you done the following?

	Regularly	Some- times	Rarely	Just Once	Never
Driven without using your seatbelt	4.9%	5.5%	10.1%	4.3%	75.2%

Allowed people to ride in your vehicle without using a seatbelt	4.6%	8.5%	11.3%	3.7%	71.8%
Ridden as a passenger without using your seatbelt	4.3%	7.4%	11.1%	4.8%	72.4%
Driven 15 mph over the speed limit on a freeway or highway	5.5%	13.9%	19.4%	6.3%	54.9%
Driven 15 mph over the speed limit on a residential street	4.1%	6.2%	13.6%	3.9%	72.2%
Driven through a light just turned red when you could have stopped	3.7%	9.3%	18.5%	11.7%	56.8%
Rolled through a stop sign without coming to a complete stop	4.2%	12.5%	21.3%	9.2%	52.7%
Driven when you were feeling very sleepy	3.8%	11.1%	19.8%	9.7%	55.6%
Talked on your cell phone while you were driving	7.2%	20.2%	24.0%	7.2%	41.4%
Read or sent a text message or email while you were driving	4.8%	13.3%	20.4%	6.5%	55.0%

33. Which of the following have influenced you? Check all that apply:

	Employee Policy	Friends and Family	Advertising Campaign	Setting an example for family/friends	Fear of injury to self or others	Fear of getting a ticket	Affects driving/worry about a wreck
To use a cell phone less often while driving	7.0%	24.4%	10.6%	23.0%	46.7%	27.4%	33.7%
To drink and drive less often	5.3%	17.5%	8.8%	14.9%	29.2%	20.6%	21.0%

- 6.1% None of the above -- I have not been influenced to use a cell phone less while driving
- 5.6% None of the above I have not been influenced to drink and drive less
- 25.5% I do not use a cell phone while driving
- 53.7% I do not drink and drive

## 34. What is your age?

8.1% 18–21 17.1% 22–30

33.2% 31–45

27.6% 46–65 14.1% Over 65

# 35. What is your race/ethnicity? 58.0% White

13.6% Black

22.7% Hispanic

3.7% Asian

2.0% Other

## 36. What is your gender?

49.1% Male

50.4% Female

0.5% Non-binary

#### 37. What is the highest level of education you have completed?

2.8% Less than high school diploma

25.7% High School or GED

36.1% Some college, Associate degree, or technical school

22.8% College Degree

12.6% Advanced degree

## 38. What is your zip code?

Multiple open-answer responses

# **SECTION SIX NOTEWORTHY PROJECTS**

## **FY2023 Best Practice Form**

#### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

## Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

## Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization:	Sherry Matthews Group
Project Title:	TxDOT Event Crisis Management Plan
Project ID:	2023-SMAM-SOW-0008
Noteworthy Practices:	The Sherry Matthews Group has formalized a crisis communication plan, encompassing best practices for outreach staff and vendors. This plan includes training, crisis management guidelines, and contingency protocols for various crisis scenarios, applicable to all TxDOT campaigns.
Evidence of Success:	The Sherry Matthews Group and its vendors successfully implemented outreach events across the state and navigated various situations including a shooting, which occurred in the same mall as an outreach event. Other adjustments to outreach events due to adverse weather were also successful.

## **FY2023 Best Practice Form**

#### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

## Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefit our colleagues in other states.

## Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization:	Texas A&M Transportation Institute (TTI)
Project Title:	Training and Assistance for Criminal Justice Professionals on DWI Treatment Interventions
Project ID:	2023-TTI-G-1YG-0078
Noteworthy Practices:	The Texas Transportation Institute (TTI) remains steadfast in its commitment to reducing the incidence of alcohol-impaired driving and its tragic consequences of crashes, injuries, and fatalities. Our mission is to create lasting change and to achieve this, we are adopting a multifaceted approach focused on education, collaboration, and continuous improvement.  The Training and Assistance for Criminal Justice Professionals on DWI Treatment Interventions project fostered statewide partnerships and promoted awareness that created enduring change. TTI delivered live training sessions to criminal justice professionals, equipping them with evidence-based knowledge on mental health intervention practices relevant to DWI cases. Recognizing the importance of community involvement, TTI staff presented condensed versions of our content at coalitions throughout the fiscal year. These outreach training opportunities aided in raising awareness and engaging a wider audience in our mission. TTI also conducted a focus group with pre-trial staff involved in DWI cases. Their insights guided the development toolkit containing referral and monitoring practices used in DWI cases at the pre-trial stage. The resulting toolkit was shared with all Texas jurisdictions, promoting consistency and best practices across the state.  The TTI team is dedicated to pursuing safer roads and a brighter future for Texas. Through education, collaboration, and sustained effort, we aspire to

reduce the devastating toll of alcohol-impaired driving and create a lasting change that will benefit us all.

The success of the project is evident in the following accomplishments:

Geographical Impact: Nearly 40% of Texas counties had at least one CJP participate in the comprehensive training, showcasing the broad geographical reach of the program.

High Participant Satisfaction: Evaluation results for this year's training indicate high participant satisfaction, with participants expressing their ability to apply the content in their job duties, a willingness to recommend the training to peers, and gratitude for the shared resources.

Extended Community Outreach: In 2023, the TTI staff expanded their outreach efforts by offering the community a shorter DWI and Mental Health version of the training. This initiative attracted 52 participants and received positive feedback, leading to potential collaborations for increased training opportunities.

# Evidence of Success:

Focus Group Insights: The focus group findings provided crucial insights into pre-trial stage practices related to treatment referrals and monitoring practices for DWI offenders in the state. Identified limitations, such as the lack of screening and assessment, limited partnerships with treatment providers, and issues related to expungement, will inform future training and outreach efforts to address these challenges.

In conclusion, the project's success is evident through its substantial growth in training participants (TTI staff exceeded the expected number of training participants with 174 participants trained, significantly surpassing the contract's proposed target of 50 participants), positive professional feedback, expanded outreach to the community, and insights gained through focus groups. The TTI staff's dedication to promoting DWI prevention and treatment intervention efforts across Texas has proven effective, and the project continues to make a meaningful impact on raising awareness and providing valuable resources in the fight against impaired driving.

### FY2023 Best Practice Form

### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

### Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

### Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization: Texas Department of State Health Services (DSHS)  Project Title: DSHS Safe Riders Child Passenger Safety (CPS) Program  Project ID: 2023-TDSHS-G-1YG-0021	Organization:
Project ID: 2023-TDSHS-G-1YG-0021	Organization.
	Project Title:
Cofe Didge continued would be former than a first the Continue (DACCOC)	Project ID:
Safe Riders continued work to improve the program. In fiscal year (FY)2023, Sa Riders implemented a few best practices:  • Geographic Information System (GIS) Mapping – Safe Riders worked with DSHS GIS mapping department to develop a distribution partner site interactive map and posted it on the Safe Riders website. The map helps Texas families locate car seat distribution sites in their community. The map has a search option where a visitor enters a zip code or city to find the nearest location. The Safe Riders team uses this map as a faster method of making referrals to families in need in local communities. The map also allows Safe Riders to easily identify gap areas where CPS resources are needed, informing the Safe Riders strategic plan for the FY2024 year.  • Technical Assistance (TA) – Safe Riders incorporated check-in meetings with distribution partner sites as a more tailored approach to providing TA. Checkins allowed Safe Riders staff to clearly understand how the services are provided in the local communities (i.e., classroom-based, inspection station virtual, etc.), site capacity, resources, challenges, and concerns. Through FY2023 check-ins, Safe Riders identified opportunities to begin to standardize and develop materials to help partners implement the Safe Riders program in their local community and informed the Safe Riders team on improvements to the application, implementation guidelines, and ongoin	Noteworthy

- Qualtrics Safe Riders developed a new reporting platform in FY2023. Using Qualtrics reduced each site's reporting requirements to Safe Riders each month (attachments and data). Qualtrics also allowed Safe Riders to compile reports more easily.
- Inspection Stations Safe Riders expanded from only providing classroombased education to allowing distribution partner sites to offer CPS services through inspection stations (car-side education) with child safety seat distribution. Safe Riders allowed partners to have consistent inspection station sites and flexibility to offer mobile inspection stations in communities of need that are within their scope of service. Mobile fitting stations are a known and effective CPS strategy.
- **GIS Mapping** This tool offers a new program site search method. Safe Riders saw an increase in the number of users to the website and will continue to track the numbers to assess use.

Month	View Count	Users	New Users
Aug-23	1,600	228	228
Sep-23	2,100	268	262

# Evidence of Success:

- Technical Assistance Safe Riders has increased the number of trainings held and additional TA provided based on the individual check-in meetings. Check-in with sites has improved our site communication and we hear more often from sites that either need assistance, have changes, or need support, an increase from last year.
- Qualtrics By using Qualtrics, Safe Riders saw the number of missing reports (by the deadline) decrease. Safe Riders received satisfaction reports from some distribution partner sites who were happy with the change in reporting as a simpler reporting method.
- Inspection Stations Safe Riders now has sites offering CPS services car side (only during inspection stations events) and other sites in rural communities supporting families through regular inspection stations in mobile inspection stations sites. This improved the services offered and broadened the Safe Riders reach. In FY2023, car seat distribution numbers increased providing over 6,000 seats to families in need.

# **FY2023 Best Practice Form**

### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

### Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

### Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization:	Texas A&M Transportation Institute
Project Title:	Street Coaching for Pedestrians and Cyclists: Putting Laws Into Practice on University Campuses
Project ID:	2023-TTI-G-1YG-0068
Noteworthy Practices:	This project focuses deliverables on one selected university campus for the duration of the grant year. To select the university campus in Fiscal Year 2023, TxSTORM data, provided by TxDOT, was used to identify a priority community for pedestrian and bicycle safety. Based on the provided data, the TTI project team identified communities that rank within the top 25 for both pedestrian and bicycle crash counts and had university campuses in the area. These communities included San Antonio, Houston, Dallas, Fort Worth, Galveston, and Waco. In addition to taking into account pedestrian and bicycle crashes, the TTI project team also aimed to select a university campus with a diverse and underserved student population. With these two goals in mind, the University of Texas at San Antonio was selected as the focus for the Street Coaching for Pedestrians and Cyclists project in Fiscal Year 2023.
	The University of Texas at San Antonio (UTSA) has a student population of over 35K students, representing nearly 100 countries. Furthermore, 43 percent of the students are first generation college students and almost 60 percent of the student population is Hispanic. Given the student body makeup, it was likely many students had never received formal bicycle/pedestrian safety education and/or were unaware of Texas bicycle/pedestrian safety laws (especially those students from other countries). There was a clear need to provide education, training, and safety enforcement materials to the UTSA community.

Additionally, as part of the project, an Advisory Committee of local traffic safety stakeholders is established to provide insight into campus traffic safety culture for vulnerable roadway users. The Advisory Committee is also tasked with championing the ped/bike safety message after the project grant year ends so that ped/bike law enforcement and education continues to be a priority on campus.

# Evidence of Success:

All materials produced as part of this project embraced the UTSA culture. Focus groups and communication with campus leadership (through the UTSA Advisory Committee) informed the Pedestrian and Bicycle Safety Plan, which recommended engineering treatments to improve pedestrian and bicycle safety, education and training opportunities for students/staff, and a law enforcement mobilization plan to encourage the UTSA community to follow Texas pedestrian and bicycle safety laws. The information obtained from UTSA students and staff also informed the self-directed training by identifying the most frequent pedestrian and bicycle law violations.

In addition to the Advisory Committee championing pedestrian/bicycle safety on the UTSA campus, a committee member also distributed the training materials produced as part of this project to the greater San Antonio community. Materials for this project were distributed at Alamo Area Metropolitan Planning Organization (AAMPO) Pedestrian and Bicycle Safety Classes for the general public.

# **Best Practice Form**

### Overview

As the Traffic Safety grant year ends, projects demonstrating Best Practices must be identified and presented to NHTSA via the Annual Report. Please use the following criteria for reporting.

### Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of a project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

### Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization:	National Safety Council
Project Title:	Our Driving Concern - Texas Employer Traffic Safety Awards Roadshow
Project ID:	2023-NSC-G-1YG-0109
	National Safety Council honors Texas employers through <i>Our Driving Concern</i> employer traffic safety awards program. Traffic safety awards are presented to Texas organizations that excel in programs to promote safe driving behaviors among employees both on and off the job. The program goal is to increase traffic safety education through employers to help reduce crashes, reduce costs and organizations also demonstrate concern for the well-being of employees and their families.
Noteworthy Practice(s):	<ul> <li>Eligibility: Any Texas employer is eligible to submit an awards application. Individuals or groups may nominate an organization. Eligible employers may be government, corporate, private, or not-for-profit — small or large.</li> <li>Judging: Employers are scored based on the program demonstration of education, outreach, and positive outcomes within their organization.</li> <li>Categories: There are three — exemplary award recipient, award recipient and honorable mention.</li> </ul>
	Annual Awards Presentation: Award recipients are honored each year, typically at a Texas safety event or local gathering. New this year: NSC took the awards show on the road! Our Driving Concern staff traveled throughout the state of Texas recognizing the award winners. City of Arlington, Waco and Irving and JR Ramon Demolition hosted events on-site to celebrate. The Permian Road Safety Coalition hosted a luncheon where ODC staff recognized Pioneer Natural Resources, Texas Mutual Insurance Company, Ace Fluids and Stewart Welding and Machine Inc.

Best Practices and Award Video: Award recipients exemplify the
highest standards of achievement in the field of employee education
and outreach in traffic safety and driver behavior. The programs
serve as models for Texas employers to emulate in developing or
reviewing other workplace traffic safety programs. The best practice
brochure and award video, highlight the award recipients and share
the stories of their successes.

This program is an opportunity for Texas employers to demonstrate that an investment in traffic safety education is good for employees, communities – and good for business.

The Our Driving Concern Awards program takes several months to prepare, plan, and execute. NSC builds online submission capabilities, we communicate the opportunity to nominate organizations and prepare the scoring rubric. Once nominations are received, we build communications materials to highlight the award recipients to include congratulatory emails, physical awards, and video.

Each year, dozens of organizations apply to be recognized and they inspire others on the Road to Zero fatalities and serious injuries. Our award program showcases remarkable accomplishments, celebrates success, and inspires other to strive for safety excellence. This year we celebrated an individual CEO who was nominated for steadfast support of safety programs throughout his career.

### Highlights from 2023 awards program:

# • City of Arlington - 50% decrease in crash costs from FY21 to FY22 (\$227,008 to \$124,196).

- After implementing a new in-vehicle monitoring system last year,
   Texas Mutual Insurance Company saw driver safety scores rise to an average of 97.6.
- At the City of Grand Prairie, crash incidents dropped from seven in 2021 to two in 2022 thanks to its driver safety program efforts.
- A Pioneer Natural Resources driver won the region's inaugural No Need for Speed award after more than 600 hours behind the wheel during a six-month period without incident.
- Last year, 931 Texas Mutual policyholders attended in person defensive driving classes and more than 1,000 others attended online.
- Ace Fluid Solutions' driving safety culture has led to a 75% reduction in motor vehicle incidents and a 50% decline in driving events.
- JR Ramon Demolition's unique Driver Safety Banner of the Month program has helped incident rates drop by 45% from 2021.
- Stewart Welding & Machine's traffic safety program results include zero auto crash losses out of 88 vehicles and about 1.32 million miles traveled; moderate speeding events declined by 40% and severe speeding events declined by 85%.

# Evidence of Success:

# **FY2023 Best Practice Form**

### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

### Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

### Recommending a Project

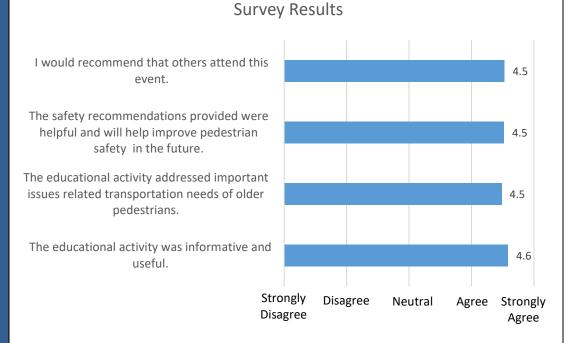

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

Organization:	Texas A&M Transportation Institute
Project Title:	Pedestrian Safety Improvement of Older Vulnerable Users in Texas
Project ID:	2023-TTI-G-1YG-0047
Noteworthy Practices:	This project focused on improving the safety of older pedestrians, especially in communities where older pedestrian crashes are over-represented. Here are the noteworthy practices of the project:  1. Educational Kit:  - Legibility and Attention. The project emphasized the importance of making educational materials accessible to older pedestrians. It was achieved by increasing the font size of the safety brochure and worksheets, making them easier to read.  - Interactive Games: To engage older pedestrians and effectively convey safety messages, the team included interactive game activities like crossword puzzles and word searches in the educational kit. These activities not only educate but also make the learning process enjoyable.  2. Educational Activities:  - Maximizing Senior Participation: The project actively sought opportunities to engage older pedestrians in educational activities. The team identified and partnered with groups like knitting clubs to create venues for these activities. This approach aimed to increase participation and make the safety education more accessible.  - Contingency Planning: Recognizing that events might be canceled for various reasons, the team wisely scheduled extra educational activities as backups. This ensured that the team could fulfill the commitment to conducting a specific number of activities and maintain a consistent safety educational effort.

Here are the key evidence of the project success:

- Exceeding Activity Goals: The project exceeded its initial plan of conducting
  five activities by adding two more, totaling seven. This proactive approach
  ensured a more comprehensive outreach to senior participants in the
  communities. The willingness to go above and beyond the initial plan
  reflects dedication and adaptability.
- Effectiveness of Interactive Games: Including interactive and fun elements in the educational activities, such as games, contributed to their effectiveness. Many seniors enjoyed these activities, making the safety messages more engaging and memorable. It suggests that a more interactive and enjoyable approach effectively conveys important safety information.
- 3. Positive Feedback: Of a total 83 seniors who attended, the feedback from 64 seniors who completed the evaluation forms was overwhelmingly positive. The average scores for the evaluation questions, ranging from 4.5 to 4.6 of 5, indicate a high level of satisfaction with the educational activities. It demonstrates that the activities were not only engaging but also informative and well-received by senior participants.

# **FY2023 Best Practice Form**

### Overview

As the FY 2023 Traffic Safety grant year comes to a close, projects demonstrating Best Practices must be identified and presented to NHTSA via the FY 2023 Annual Report. Please use the following criteria to report on these projects.

### Definition

Best practices are effective management tools employed by projects within the Traffic Safety Program that significantly increase the effectiveness and efficiency of that project in meeting the goals of the program. When shared, these practices can improve other projects within our program, as well as benefitting our colleagues in other states.

### Recommending a Project

To recommend a project that has demonstrated effective management practices, please complete the following form for each recommended project.

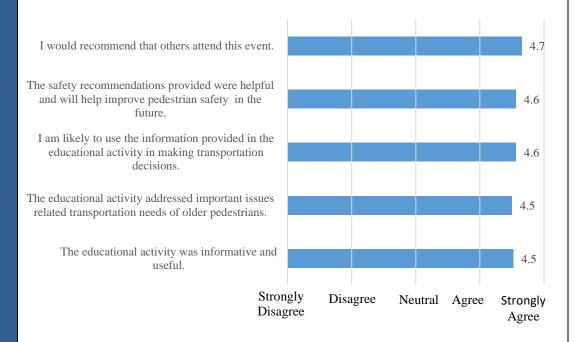

Organization:	Texas A&M Transportation Institute
Project Title:	Traffic Safety Improvement of Senior Drivers in Texas
Project ID:	2023-TTI-G-1YG-0048
Noteworthy Practices:	<ul> <li>This project is specifically focused on improving the safety of senior drivers, especially in communities where senior driver crashes are over-represented. The project had two primary components: the development of an educational kit and the execution of educational activities.</li> <li>1. Educational kit: legibility and attention. The team recognized the importance of ensuring that the educational materials are accessible to seniors. The team increased the font size on the safety brochure and worksheets to enhance legibility. To capture the attention of seniors, the team also incorporated interactive game activities, such as crossword puzzles, word searches, and bingo games, into the educational kit. These activities were designed to convey safety messages effectively and engage seniors in the learning process.</li> <li>2. Educational activities: The project aimed to maximize the participation of senior drivers. To achieve this, the team actively sought out events or clubs that would attract seniors. For example, the team hosted a pot-luck party for seniors at the library as a means to connect with and involve senior drivers in the educational process. This community event likely fostered a sense of belonging and encouraged participation. Recognizing the possibility of events being canceled due to circumstances beyond their control, the team took a proactive approach by scheduling an additional educational activity as a backup. This ensured that the team could maintain the commitment to conducting a specified number of educational activities.</li> </ul>

The project was successful in conducting a total of ten educational activities and these activities were well-received by the senior participants. Using an evaluation form at the end of each session allowed the team to gather feedback and assess the impact of educational activities. Here is the evidence of the success of this project.

- The team exceeded their initial plan of conducting eight activities by adding two more. This proactive approach ensured a comprehensive outreach to senior drivers in the community.
- 2. With 145 seniors attending the sessions, the project effectively engaged a substantial number of participants. It is a positive sign of the community's interest and willingness to learn about senior driver safety.
- 3. It's noteworthy that many seniors enjoyed the bingo game. This interactive and fun element likely contributed to the effectiveness of the educational activities, making the safety messages more engaging and memorable.
- 4. The feedback from 96 seniors who completed the evaluation forms was positive. The average scores for the evaluation questions, ranging from 4.5 to 4.7 out of 5 (as shown in the figure below), indicate a high level of satisfaction with the educational activities. It suggests that the activities were engaging, informative, and well-received by the senior participants.
